# REPORT OF PHYSICAL EXAMINATION

(See AR 40-100 and 40-1/5)

*Instructions:* Unless otherwise prescribed, this form will be used for all physical examinations of officers, sergeants, or warrant officers; applicants for appointment as such in the Regular Army, National Guard, or Officers' Reserve Corps; and enrollment in the Reserve Officers' Training Corps. Use typewriter if practicable. Attach plain additional sheets if required.

1. SMITH DEWEES G 0207100  
(Last name) (First name) (Middle initial) (Serial number)

2. 1st Lt 1st Infantry Division 28 10 2 1 (last war)  
(Grade) (Organization and arm or service) (Age) (Nearest birthday) (Years of service) (Whole number only)

3. Nature of examination: Annual  
 4. Typhoid vaccination: No, series completed  
 5. Date of last smallpox vaccination: 1919  
 6. Other vaccination or immunity tests: None  
 7. Medical history: No serious illness, operations or injuries. No history of alcohol.

8. Eyes: Normal  
 Distant vision: Right 20/ 20 correctible to 20/ 20 by +  
(Snellen type) Left 20/ 20 correctible to 20/ 20 by +  
 Near vision: Right J# J# correctible to J# J# by +  
(Jaeger type) Left J# J# correctible to J# J# by +  
 Refraction (under cycloplegic): Right Not indicated. Left Not indicated.  
 Color perception (red and green): Normal

9. Ears: Normal  
 Hearing (low conversational voice): Right 20 Left 20 Audiometer (percent loss): Right 0 Left 0

10. Nose and throat: Normal  
 11. Teeth: Normal (Examiner's) 13 12 11 10 9 8 7 6 5 4 3 2 1  
Indicate restorable carious teeth by O; nonrestorable carious teeth by /; missing natural teeth by X.  
 Restorable carious teeth are now under construction at U.S.A.  
 Prosthetic dental appliances: None Classification None

12. Posture: Normal Figure Medium Frame Medium  
(Excellent, good, fair, bad) (Slender, medium, stocky, heavy) (Light, medium, heavy)  
 13. Temperature: 98.6 Height 5'8" inches. Weight 150 pounds. Chest: Rest 34 inches; inspiration 38 inches;  
 expiration 32 inches. Abdomen 34 inches.

14. Cardiovascular system: Heart Normal  
 Blood pressure: S. 110 D. 70 Pulse: Rate 70 Sitting 70 Immediately after exercise 100  
 Two minutes after exercise 80 Character Regular  
 Arteries Normal Varicose veins None

15. Respiratory system: Normal  
 16. X-ray of chest: Normal  
 17. Skin and lymphatics: Normal Endocrine system Normal  
 18. Bones, joints, and muscles: Normal Feet Normal

19. Abdominal viscera: Normal  
 20. Hernia: None Hemorrhoids None

1 Appointment, commission, retention, annual, active duty, special.  
 2 Regular Army, National Guard, Officers' Reserve Corps, Reserve Officers' Training Corps.  
 3 If annual physical examination, record only for past year.  
 4 If recent physical examination, record only distant and near vision, and state whether defect is properly corrected.  
 5 When indicated.  
 6 Not required for annual physical examination.  
 7 If required for appointment in Regular Army because of malocclusion, send plaster models to the Surgeon General.  
 8 Required for candidates for commission.

21. Genito-urinary system Normal  
 22. Nervous system Normal  
 23. Laboratory procedures: Kahn <sup>1</sup> Negative Wassermann <sup>1</sup> —  
 Urinalysis: Sp. gr. 1.020 Albumin None Sugar None  
 Microscopical (if indicated) Negative  
 Other laboratory procedures None Indicated

24. Remarks on defects not sufficiently described Left lung of diaphragm is elevated and irregular with tenting defect due to an adhesion. Also markings are heavy bilaterally and the subsegmental markings are heavy and wavy, interrupted to the periphery in all lobes and bases, particularly the upper 2/3 of the lung field. Healing and nodular thickening is of the acute type characteristic of silicosis. There is no evidence of any of the nodules. There is pleural thickening in both lung fields. There is no evidence of any other disease. There is no evidence of tuberculosis. There is no evidence of any other disease. RJE

25. Corrective measures, or other action recommended None

26. Is the individual permanently incapacitated for active service? No RJE

27. If applicant for appointment: Does he meet physical requirements? No RJE  
 If rejection is recommended, state reasons None

28. Examinee states he is drawing a pension, disability allowance, or compensation or retired pay from the U. S. Government. If yes, state disability No

11. Signature: Commander J. H. ...  
 10. Grade: Commander Corps.  
 9. Name: J. H. ...  
 8. Grade: Commander Corps.  
 7. Name: J. H. ...  
 6. Grade: Commander Corps.

Headquarters ...  
 To the Commanding General ...  
 Remarks and recommendations ...

<sup>1</sup> Reserved for candidates for commission.  
<sup>2</sup> State action taken on recommendations of the board. If incapacitated for active service, state whether action by retiring board is recommended.

RECOMMENDATION REPORT

## REPORT OF PHYSICAL EXAMINATION

(Use AR 40-700 and 40-105)

Instructions.—Unless otherwise provided, this form will be used for all physical examinations of officers, sergeants, or warrant officers; applicants for appointment as such in the Regular Army, National Guard, or Officers' Reserve Corps; and enrollment in the Reserve Officers' Training Corps. Use typewriter if practicable. Attach plain additional sheets if required.

1. McRAY DOUGLAS C Civilian.  
(Last name) (First name) (Middle initial) (Serial number)

2. — — 49 2 (last war)  
(Grade) (Organization and arm or service) (Nearest birthday) (Whole number only)

3. Nature of examination Direct Appointment Component of Army Army of United States.

4. Typhoid vaccination. No. series completed Five Last series December, 1943.

5. Date of last smallpox vaccination December 1943 Type of reaction Vaccinoid.

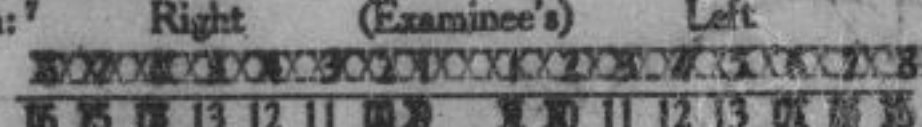

6. Other vaccination or immunity tests Tetanus, January 1944.

7. Medical history Tonsillectomy 1928.  
No serious illnesses operations or injuries.  
No history of Malaria.

8. Eyes Presbyopia, bilateral.  
 Distant vision: Right 20/ 20 correctible to 20/ — by —  
(Snellen type) Left 20/ 15 correctible to 20/ — by —  
 Near vision: Right J# III correctible to J# I by 1.75 sphere.  
(Jaeger type) Left J# III correctible to J# I by 1.75 sphere.  
 Refraction <sup>5</sup> (under cycloplegic): Right Not indicated Left Not indicated.  
 Color perception (red and green) <sup>6</sup> Normal.

9. Ears Normal.  
 Hearing (low conversational voice): Right 20/20, Left 20/20. Audiometer (percent loss): Right — Left —

10. Nose and throat Normal.

11. Teeth: <sup>7</sup> Right (Examinee's) Left —  
  
 Indicate: Restorable carious teeth by O; nonrestorable carious teeth by /; missing natural teeth by X.  
 Remarks, including other defects All missing teeth are now under construction at B.S.#3 Dispensary. Classification III.  
 Prosthetic dental appliances None.

12. Posture Good Figure Medium Frame Medium.  
(Excellent, good, fair, bad) (Slender, medium, stocky, obese) (Light, medium, heavy)

13. Temperature 98.4 Height 67 1/2 inches. Weight 150 pounds. Chest: Rest 36 1/2 inches; inspiration 38 inches; expiration 35 inches. Abdomen 30 inches.

14. Cardiovascular system: Heart Normal.  
 Blood pressure: S. 118, D. 84 Pulse: Rate—Sitting 80 Immediately after exercise 120  
 Two minutes after exercise 80 Character Regular.  
 Arteries Normal. Varicose veins None.

15. Respiratory system Normal.

16. X-ray of chest Scoliosis, third stage. See Par 24. RGR.

17. Skin and lymphatics Normal. Endocrine system Normal.

18. Bones, joints, and muscles Normal. Feet Normal.

19. Abdominal viscera Normal.

20. Hernia None. Hemorrhoids External, mild, NE, ND.

<sup>1</sup> Appointment, promotion, retirement, annual active duty, special.  
<sup>2</sup> Regular Army, National Guard, Officers' Reserve Corps, Reserve Officers' Training Corps.  
<sup>3</sup> If annual physical examination, record only for past year.  
<sup>4</sup> If annual physical examination, record only distant and near vision, and state whether defect is properly corrected.  
<sup>5</sup> When indicated.  
<sup>6</sup> Not required for annual physical examination.  
<sup>7</sup> If required for appointment in Regular Army (except of radiologists), send plaster models to the Surgeon General.  
<sup>8</sup> Required for candidates for commission.

21. Genito-urinary system Normal.  
 22. Nervous system Normal.  
 23. Laboratory procedures: Kahn <sup>1</sup> Negative Wassermann <sup>1</sup> -  
 Urinalysis: Sp. gr. 1.020 Albumin None Sugar None.  
 Microscopical (if indicated) <sup>1</sup> Negative.  
 Other laboratory procedures None indicated.

24. Remarks on defects not sufficiently described X-ray examination chest reveals bony framework within normal limits. Left dome of diaphragm is elevated and irregular with tenting defect due to an adhesion. Hilar markings are heavy bilaterally and the peribronchial markings are rounded and heavy, intermingled to the periphery in all lobes and zones, particularly the upper 2/3 of the lung field. Beading and nodule formation is of the dense type characteristic of silicosis. There is beginning coalescence of some of the nodules. There is pleural thickening in both lung fields. Cardiac shadow is within normal limits. There is no roentgen evidence at this time of tuberculous involvement. R.P.P.  
 25. Corrective measures, or other action recommended None.

26. Is the individual permanently incapacitated for active service? No. R.P.P.  
 If yes, specify defect Silicosis, third stage. R.P.P.  
 27. If applicant for appointment: Does he meet physical requirements? Yes. Do you recommend acceptance with minor physical defects? No. If rejection is recommended, specify cause Silicosis, third stage.

28. Examinee states he is not drawing a pension, disability allowance, or compensation or retired pay from the U. S. Government.  
 If yes, state disability -
