Dear Lieut. Labrador,

The activities of our Sub-Stn 9FNL at Bito, Siruma, Cam. Sur had been unsatisfactory. I do not know what Sgt. Nuevo is doing, we have not heard from him ever since. The strategic importance of Caramoan Peninsula cannot be overestimated. Very soon the activities of our Army in Luzon will be around that area.

In view thereof, I want you to transfer your Sta. KPM and all its outfit to Siruma or thereabout as soon as possible. You will be in contact with Turko's Guerilla in that region. Extend to him necessary cooperation and facilities of our Stn for Intelligence info that he wants transmitted to GWA or 6th Army thru this Stn 32V. Convey to him my warmest regards. I know you will have no trouble with him. Probably within a month or two our work in this region will be over.

Use the 284-TM of Sgt Nuevo as your sub-stn. You can send it to strategic

places in Cam. Norte. I am sending you three more batteries for the 284 set of Sgt. Nueve. Bring your weather observer with you.

Operator Abiar with one W 284-TM is being sent to your present location to take over the transmission of messages from that place. Capt. Frayna can take charge of this Stn. The name of Frayna's Stn will be

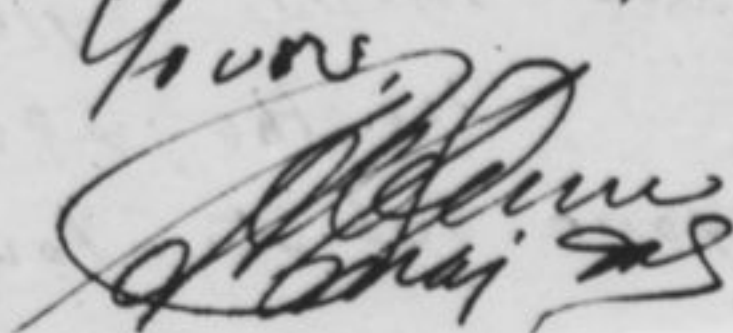

3MB.

You can get a sailboat for your transportation. Bring with you the originals of the codes that Lieut Ibay gave you. I am designating your Stn as NCS-2. In case it becomes necessary for me to be off the air, your will be notified to function as the NCS.

As soon as you are ready to start, inform me by radio so that advise can be given to the Sixth Army to avoid untoward incidents.

My warmest personal regards to you and all the men with you. May God bless us Always.

Whenever necessary, send Gasoline container I can give you two cans of gasoline.

Yours,

(3)

P.S.

When you leave for your new Stn. please leave one W rifle with Assistant Operator Estodillo for the protection of the Stn. They will have only three rifles in that Stn. I will see if we can arrange for an air drop of ten M-1 as soon as you are in Bits.

St. R. Maligaya of Junko~~s~~ Guerrilla just arrived Stn. His sailboat is at Puerto Diaz. If you like to take it inform me by radio so that I can give him instructions to pick you up. He brought the generator of Nuevo.

Man, you certainly have a good ^{work} there. There are around 20,000 thousand Japs that evacuated to that place from Jayatas and Batangas.

Send me first throat codes because I am moving northward with one set to act temporarily as NES 2 while you are still on your way.

SUBJECT: Explanation

TO : Lieut. V. LABRADOR, AUS
Station KRM

1. Herunder is a true copy of the explanation of Operator Fabian Abogado for your information.

TO WHOM IT MAY CONCERN:

This is to certify that no Army gave me blankets except the one I am using now which I borrowed from Vicente Caratay, a paicano of mine. When I left KRM I promised to return this to him if I will be furnished. In other words I have no blanket of my own. Lt. Labrador gave me one in Tacloban, but the billeting office at the 6th Army permit no one to bring out blankets. So, I remained it at Tent C-X where Lt. Ibay and myself stayed.

Also no one gave me food supplies for the station KRM. We were given only can goods for our trip. Of course, we did not consume them all, but I have divided them among the men with me. If there was instruction to deliver the can goods to station KRM I should have done it for I am old enough to follow instructions.

Station 32V
8 Feb. 1945

Dear Lt. Labrador,

I received the stationeries and two cans of flour. Please send us the dehydrated potatoes that Capt. Frayna mentioned in his letter. You mentioned, too, a sack of rice but I did not receive it. Very often we ate only camotes and bananas and twice a day at that.

Instruct Capt. Frayna to stay in your station until Gov. Escudero arrive from Leyte. I do not have much use for him now in my station.

How many ex-Usaffe men do you have in your station? How much have you advanced Cpl. Martin Praga? You know we have very limited funds for our operational expenses. If the ex-Usaffe men are not badly in need of money, we better not give them any partial pay this time. After all, if they have money they will be tempted to gamble and spend it in a foolish way. For laundry expenses, get it from your operational expenses.

1. Though under adverse situation and even in spite of the dangers and risks in crossing the channel, we have at last succeeded in getting a pass and service of seamen. I have promised the seamen full guarantee on the securities of their lives and the safety of their families that they are leaving behind. These men have a very important mission to be accomplished, but knowing fully well of

the urgency of your mission
I am ceding to you the
only available opportunity
to reach your destination
in no time.

2. The paras is very
sturdy and a safe-risk
for high seas travel.
The men are highly
dependable on account
of their experiences in
interisland travel.

3. I am giving you them
complete control of the
paras and you may
direct its course as
you may desire. I have
contracted them for the
whole trip. I will take
care in the finances

and subsistence of their families while these men are with you. For your trip I am giving you two (2) sacks of polished rice which I believe will be enough for the trip and the return of my men to Pawa. For the security of the parao I held myself responsible to the owner for its is the only way by which we could show unconditional cooperation for the accomplishment of your mission.

Please send me few hundred (P100-) Pesos thru the Seco, Sgt. Pofonis

Subject: Relief of Financial Account, Request of

To : Lieut. Col. C. M. Smith, C.O. 93rd Div.

1. Relief of my financial account with Lt. Colonel C. M. Smith, C.O. 93rd Div. is respectfully requested, for the following reasons:

(a) That I am going on a mission outside of Samar under orders of the GHQ, SWPA. That I am leaving very soon. That in accomplishing said mission I may not be able to return to Samar until the end of this present war.

(b) That on Oct. 26, 1944; Capt. A. B. Arrieta advanced me two hundred (P200.00) pesos for the subsistence of the unit assigned to harass the Japs along Taft-Wright Road. That on Nov. 21, 1944, I received from Lt. Col. C. M. Smith, Four Thousand Pesos (P4000.00) for the expenditures of the Taft Campaign.

(c) That since Oct. 27 to Nov. 28, 1944, I have disposed under receipts signed by responsible officers a total amount of Four Thousand one hundred eighty nine pesos (P4189.00). This amount was expended for the subsistence of the men and the transportation of supplies needed in the front. That some of the money issued to officers are not yet expended. They are still being used in purchasing palay for the subsistence of the men. That the different officers concerned were instructed to account for the money given to them. Enclosed is the detailed financial account together with true copies of the corresponding receipts signed by the officers concerned. The genuine receipts will be sent as soon as needed.

2. In view of the foregoing reasons, I hope that this request will be favorably considered.

MEMORANDUM FOR: Lt. Col. Jaime Velasquez.

It is recommended that every consideration be given to Major Antonio Sabarre for his assignment to the Military Police Command. Major Sabarre has rendered to GHQ outstanding services with the guerilla forces in the Sorsogon area. Acting as GHQ representative in the area he commanded the respect of all the guerilla forces in the Bicol-Sorsogon area.

Major Sabarre's previous experience with the Philippine Constabulary makes him well qualified for duty with the MPC.

GUERRILLA MESSAGE CENTER

22 April '45

Maj. LEE TELESKO
G-3, (PSS) GHQ

Dear Maj. Telesko,

Enclosed are my reports on our activities at station 32V. Since the 6th Army sent over here Lt. Nellist on Feb. 20, 1945, I have extended full cooperation to him, both in gathering intelligence informations on enemy activities and in the use of my stations.

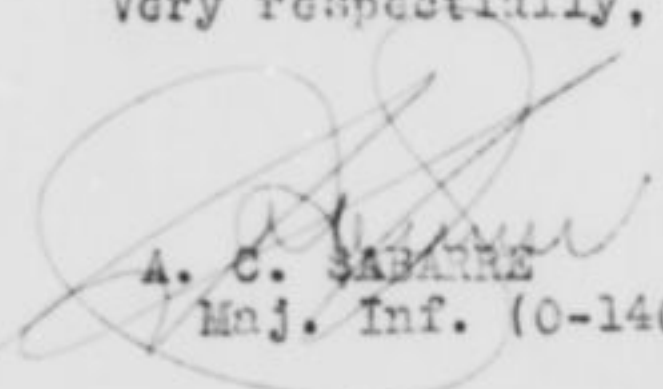

Station 32V is now at Legaspi, Albay. I was instructed to establish this station near the headquarters of the Comdg. General, United States Task Force, in this area. Station 32V is now known as the Guerilla Message Center for Albay and Sorsogon. To obtain maximum efficiency in transmission of messages from different guerilla groups to the headquarters, each guerilla unit has been given one (1) radio set for its use.

As soon as the present operation in Albay is over, life in this place will become normal and monotonous. I wish I will be given a chance by GHQ to take advantage of the offer to some Philippine Army officers to study in the Service Schools of the United States. I am interested in farthing my studies in intelligence and in Signal communication. I have began it already and I might as well study its system and technicalities to be of better service to my country. At present, I feel that I am not equal to the tasks and responsibilities assigned to me by GHQ. I hope you appreciate my shortcomings in this respect. If I am given this chance, please let me know how I can get in.

My profound respect to you.

Very respectfully,

A. C. SABARRE

SUBJECT: Record of Events, Stn. 32V March 1-31

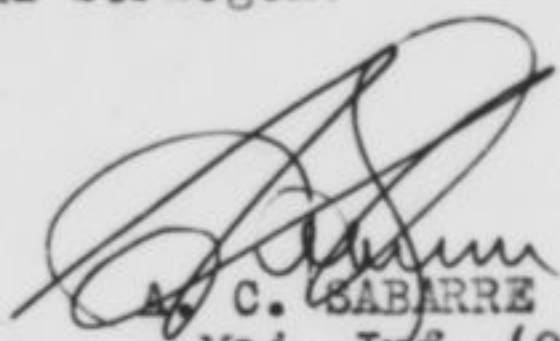

TO : G-3, (PSS) GHQ - SWPA

1. ESTABLISHMENT OF SUB-STATIONS. On 5 March '45, Sub.Stn. 8AV was sent to Tabaco, Albay to collaborate and coordinate the intelligence reports about the enemy in the sector occupied by Flor Guerilla. On March 17, Sub-Stn. SEV was assigned to Headquarters of Sandico Guerilla to cover up intelligence reports about the enemy in his sector. On March 27, Sub-Stn. 3MB was assigned to Zabat's Headquarters for the same purpose. This assignments of Sub-Stns. to different Guerilla headquarters was made after consultation with Lt. W. Nellist, Alamo Scout Officer, and in accordance with his policy.

2. TRANSFER OF STATION. Station 32V was transferred from Sn. Juan, Casiguran, Sorsogon to Pariaan, Camalig, Albay, on 15, March 1945. As security precaution to my new station against enemy infiltration, I have attached to my Station a small group of neutral guerilla unit in Sorsogon under Lt. Magno. This group is composed of some ex-service men with twenty five carbines, given to them by Col. Chaffe last February. This group had been working with me since 17 March 1945.

3. ACTIVITIES AT MY NEW STN. I have closer supervision of my agents in Albay. Intelligence reports are verified before they are reported to the higher headquarters. When Maj. Barros was designated Commander of all guerillas in Camarines Sur, Sub-Stn. QC7 in that area was instructed to report to him all intelligence reports of enemy activities in his province. This was done after Maj. Barros requested me to have the said Stn. attached to him. Lt. Hobbs of Camarines Norte, likewise, requested me to attach to him Sub-Stn. 9NFL which was located in his sector. Henceforth, activities of Stn. 32V was concentrated in the Provinces of Albay and Sorsogon.

1. The Station remained in San Juan, Casiguran, Sorsogon. On 11 February 1945, instruction was received from GHQ that control of Station 32V was transferred to the U. S. Sixth Army. Accordingly Stn. JD2M was contacted. This call sign was later changed to JJ12.
2. On 3 Feb. 1945, a conference of twenty four (24) officers, (fifteen (15) Escudero and nine (9) Lapas) representing the Escudero and Lapas Guerillas, was held at Sn. Juan, Casiguran, Sorsogon at my suggestion, for the purpose of unification. The conference failed on its desired motive but it succeeded in having a mutual understanding not to fight each other anymore. (See Special Report 4, Feb. 1945)
3. On 23 Feb. 1945, an airdrop was made at San Juan. Among those dropped were ten (10) M-1 rifles, ten (10) pistols, cal. 45 and a number of ammo. cases. The arms were intended for the protection of my Stations and for use of my field operatives, respectively. Gov. Escudero had turned over to me only the ten (10) M-1 rifles and two (2) cases of M-1 ammo. The rest were claimed by him including the pistols which were distributed to his officers. My field operatives and some of my officers in charge of Sub-Stns. were never given arms for their own protections against enemy action.
4. On 27 Feb. 1945, Sub-Stn. VQ9 was assigned to Escudero Guerilla to collaborate and coordinate intelligence reports on enemy activities in his sector.
