CURRENT DEVELOPMENTS IN THE BUREAU OF CONSTABULARY  
10 October 1944

This study is a compilation of the best available data on the Philippine Bureau of Constabulary as organized by the Japanese. It is based on an authentic roster of BC officers dated March 1944. To this has been added information from other sources (local informants, broadcasts, etc.) bringing the study to current date, especially for Mindanao and the Visayas

The BC was organized to maintain peace and order and to suppress outlawry in the islands. The present BC strength is estimated at 15,000, distributed approximately as follows: 3,000 in Mindanao, 5,000 in the Visayas and 7,000 in Luzon (See Incl 9 for details). The force was organized, trained and equipped by the Japanese and is nominally under their control. Commanders and Hq officers appear to be about 30 per cent pre-war Constabulary officers, the remainder being impressed from FW or recruited since the organization of the BC. The Filipino BC has been very lukewarm to the Japanese and cumulative evidence indicates that they have not been of great assistance to the Japanese in combatting the guerrillas except at the point of a gun. All information suggests that it is not likely that the BC will oppose our forces with power commensurate with their numerical strength.

Trends since March 1944 when the roster was published may have altered the actual status of the organization as herein depicted. There have been numerous reports that the BC are: deserting the Japanese; being disarmed; being disbanded or interned. Note following extracts from messages:

- Mindanao, 31 August : Recently 7 BCs surrendered with arms and ammunition to the guerrilla commander near Davao City. They state the entire BC company is planning on surrendering soon. 18th August, the District Supervisor ordered all BC from Santa Ana and Davao City to report to BC Hq, City proper. These said to have been disarmed. Questioning of BCs disclosed that Japs do not trust them. (Later information suggested that the Japanese had concentrated these BC for fear they would surrender with equipment to the guerrillas.)
- Mindanao, 29 September : In Surigao most of the BC officials surrendered to the guerrillas but the others were imprisoned by the Japs.
- Samar, 3 October : From southern Samar, the BC have fled to the mountains and joined the guerrillas.
- Panay, 19 September : Antique BC disarmed by Japs 14 September, Iloilo PC 15 September. Others deserted.
- Bicols, 3 October : Bureau of Constabulary soldiers in Bicol region disarmed and disbanded by the Japs. Some able to escape to mountains with arms; this includes the entire 4th Company of Albay.
- Luzon, 19 June : Many new Philippine Constabulary units are secretly organized under this command. Some want to desert assigned duty now and report.
- Manila, 20 September : Japs have started to disarm BC onlisted men.

Note: At the time the BC roster, from which these names have been taken, was published (March 1944), no officers were listed assigned to the Third District and there was no other indication that this District had been activated. However, in June 1944 the Manila Metropolitan Constabulary was absorbed into the Bureau of Constabulary and in July officers were assigned to the "MANILA CONSTABULARY DISTRICT." It may be that this is the Third District, only planned at the time of publication of the roster.

The Presidential Guard was transferred from the Constabulary to the Metropolitan Constabulary in June 1943 and has presumably been placed under the MANILA CONSTABULARY DISTRICT with the Metropolitan Constabulary.

Only officers with serial numbers are members of the pre-war Philippine Constabulary. Others have been inducted into the Bureau of Constabulary since its organization.

This study is a compilation of the best available data on the Philippine Bureau of Constabulary as organized by the Japanese. It is based on an authentic roster of BC officers dated March 1944. To this has been added information from other sources (local informants, broadcasts, etc.) bringing the study to current date, especially for Mindanao and the Visayas

The BC was organized to maintain peace and order and to suppress outlawry in the islands. The present BC strength is estimated at 15,000, distributed approximately as follows: 3,000 in Mindanao, 5,000 in the Visayas and 7,000 in Luzon (See Incl 9 for details). The force was organized, trained and equipped by the Japanese and is nominally under their control. Commanders and Hq officers appear to be about 30 per cent pre-war Constabulary officers, the remainder being impressed from PW or recruited since the organization of the BC. The Filipino BC has been very lukewarm to the Japanese and cumulative evidence indicates that they have not been of great assistance to the Japanese in combatting the guerrillas except at the point of a gun. All information suggests that it is not likely that the BC will oppose our forces with power commensurate with their numerical strength.

Trends since March 1944 when the roster was published may have altered the actual status of the organization as herein depicted. There have been numerous reports that the BC are: deserting the Japanese; being disarmed; being disbanded or interned. Note following extracts from messages:

- Mindanao, 31 August : Recently 7 BCs surrendered with arms and ammunition to the guerrilla commander near Davao City. They state the entire BC company is planning on surrendering soon. 18th August, the District Supervisor ordered all BC from Santa Ana and Davao City to report to BC Hq, City proper. These said to have been disarmed. Questioning of BCs disclosed that Japs do not trust them. (Later information suggested that the Japanese had concentrated these BC for fear they would surrender with equipment to the guerrillas.)
- Mindanao, 29 September : In Surigao most of the BC officials surrendered to the guerrillas but the others were imprisoned by the Japs.
- Samar, 3 October : From southern Samar, the BC have fled to the mountains and joined the guerrillas.
- Panay, 19 September : Antique BC disarmed by Japs 14 September, Iloilo PC 15 September. Others deserted.
- Bicols, 3 October : Bureau of Constabulary soldiers in Bicol region disarmed and disbanded by the Japs. Some able to escape to mountains with arms; this includes the entire 4th Company of Albay.
- Luzon, 19 June : Many new Philippine Constabulary units are secretly organized under this command. Some want to desert assigned duty now and report.
- Manila, 20 September : Japs have started to disarm BC enlisted men.
