Re Rotation. Request decisions and clarification ASAP
on following points:

Point 1. Para 21 c, Change 1, dtd 13 Jan 51, SR
605-25-1 specifies that "full 1-year competitive tour will be
served in either the ZI or in the oversea command". How will
this policy affect Army Eight officers on competitive tour who
are selected for rotation? Recommend this policy not apply
and that officer be permitted rotation to ZI when selected.

Point 2. Certain members of this command are legal
residents of Territory of Hawaii and have dependents resident
there. May such personnel be rotated only to Hawaii rather
than to ZI? What will policy be?

Maj Gen Frank E Lowe, O170395, USA, retired, has distinguished himself by exceptionally meritorious service to the Government of the United States and to the United Nations Forces in Korea while performing duties of great responsibility in this command. In recognition of his outstanding achievements and significant contributions to the United Nations Korean Operation, I recommend with sincere gratitude that General Lowe be awarded the nations highest meritorious decoration-The Distinguished Service Medal-for his signal achievements in Korea. Citation as follows:

General Lowe, USA, Retired, distinguished himself by exceptional meritorious service to the United States Government in a duty of great responsibility as Special Representative in Korea of the President of the United States from 10 August 1950 to 7 April 1951. General Lowe constantly visited all echelons of the United Nations Forces in order to gain complete, accurate and first hand information of all matters relating to personnel, tactics and logistics affecting combat operations. To accomplish his mission General Lowe has driven himself unsparingly. His keen perception, personal contact with combat troops, sound judgement and broad experience have enabled him to acquire a complete grasp of the complex problems affecting the mission of the United Nations Forces. His intense desire to serve and his complete devotion to duty regardless of personal sacrifice, have been so outstanding as to earn for him the highest recognition. This ordinary performance of duty reflects the greatest credit on himself, the government he serves, and is in keeping with the esteemed traditions of the military service.

URMSG Z 45916. Msg in 7 parts.

Part 1. No change is contemplated at this time in the present mode of operating the 7 clubmobiles allocated to the div of this Army. (1 clubmobile is allocated to the 5th AF N Korea).

Part 2. The mode of operating 20 additional clubmobiles would be the same as that curr employed. MYMSG GX-2-1742 KODV sets forth planned allocations to div, corps, 187th Abn RCT, 5th AF in Korea, and member nations. Three clubmobiles allocated to Eighth Army will be used for standby, fill in, and special or emerg purposes as needed.

Part 3. Control of clubmobiles will be exercised by the comd of corps, div, member nations and 187th Abn RCT to which they are or will be allocated. Comd will determine what recreational and other sup, equip, equipage, magazines and book dits aval through normal sup channels, will be used in connection with clubmobiles.

Part 4. Clubmobiles are operated by mil pers.

Part 5. Light refreshments will be served from these mbl fac. Cost per clubmobile per month will be aprx 676.00 dollars. Funds are aval in the Eighth Army Gen Welfare Fund to meet during FY 1951 the reimb rqmt of URMSG CX 58507. This facet of clubmobile opn will be utilized during FY 1952 prov either nonaprop funds are made aval or the reimb rqmt is lifted.

Part 6. The use of a limited nr of Army Svc Club Dir Pers in connection with the opn of these mbl facilities is under consideration. This hq has been informally advised by JLCOM that qual

URMSG Z 44216. This msg in 5 parts.

Part 1. Rqmt for cans for remainder of FY 51 is 7,200,000 each. This represents reduction from 12,000,000 mentioned in subj msg. Reduction deemed advisable because avail facilities not capable of handling materials which were not shipped in Jan, Feb, and Mar.

Part 2. Total quan of materials reqd to manufacture cans is as fol:

- (A) Tinplate, 95 lbs wt, 20 inch by 28 inch sheet, for 1 lb tall fish can with capacity 420 grams: 600,000 sheets.
- (B) Lid, with sealing wax, Nr 45-4, for 1 lb fish cans: 14,400,000 each.
- (C) Solder: 6 short tons.

Part 3. Shoya souce not satisfactory substitute for oil. Sweetened shoya oil is satisfactory substitute. Total rqmt for oil for remainder of FY 51 is 5,400 gal. If sweetened oil is not shipped, sugar will be reqd at rate of .020 kilograms per can.

Part 4. Schedule shipments for delivery in Apr, May and June in 3 equal increments as fols:

- (A) Tinplate: 200,000 sheets.
- (B) Lids: 4,800,000 each. Sealing wax may be shipped in bulk.
- (C) Solder: 2 Short tons.
- (D) 1,800 gal.

REURMSG ZX 35088 23 Jan 51. Results of completed invest substantiate interim report of 1 Feb and disclosed no additional significant facts requiring further report.

Rigid preventive measures to minimize losses from Army supply channels units and individuals are being aggressively enforced. Cooperation of EOK has been obtained and Korean Directives have been issued which make possession or disposal of Army supplies and equipment by unauthorized persons an offense. Authorities ordered confiscation of certain specified items and positive action has been taken thereunder.

Medicinal whiskey and narcotics continue to be rigidly controlled and none have been found on the Korean market.

Please convey the following message to COMNAVFE, CG FEAF and to the members of your staff for their full and unswerving support in making recent Eighth Army successes possible.

"I wish to express to all members of your command my admiration for the manner in which they have supported combat operations during the past three months. Their courage, tenacity and determination to win over seemingly unsurmountable odds have resulted in the inflicting of severe defeats and exceedingly heavy casualties on the enemy.

"During the next few months enemy action will perhaps bring us even greater challenges than those which were confronted and conquered during the winter and I feel certain that the actions of our combined forces will permit us to emerge victorious.

"I have complete and unswerving confidence in this battle tested team of Army, Navy and Air Force, bound together by mutual respect and confidence - a respect and confidence built upon steadfastness in battle and devotion to one common purpose."

This msg in 2 parts.
REURAD Z-41871.

Part 1. Following items of equip lost or destroyed during 8 months operation in Korea:

Fixed tactical bridging, 100 feet M 2 Bailey destroyed;

Floating bridging, 2616 feet destroyed;

Bridge trks (Brockway) approx 65 operational losses.

In addition it is estimated that quantities of materials listed below used in construction of fixed railway and hwy brdgs have been destroyed through demolitions and or bombing;

Structural steel (I beams, channel and angle) 4000 tons;

Filling (timber creosoted) 6500 tons;

Bridge timbers, 7300 tons;

Hardware and welding supplies for above, 300 tons.

Part 2. Impossible at this time to cite exact losses with regard to cranes, tractors and trailers; however from losses sustained by older units here in approx 8 months, following loss percentages from all causes can be reasonably established for like items now in Korea:

Tractors, D 7, 25%;

Tractors, D 8, 44%;

Cranes crawler type, 38%;

Cranes truck mounted 43%;

Trailers, 4 wheel pole type, flat bed, 50%;

Two wheel utility pole type, 2 1/2 ton, 43%;

20 ton front or rear loading 22%.

RRMSG ZX 39733. This msg in 3 parts.

Part 1. The fol changes in TM 38-705 are recommended: 34 (D) Seal Nrs. The Seal Nrs will be shown on all shpmts, except LCL shpm's and CL shpmts where type of trans precludes sealing, IE; flat cars, Gondolas and open trks.

35 (C) after the order copy has been thoroughly checked, it will be fwd to the typist for entry of the info on the Master, then to the Billing Sec where descriptions of articles are converted to freight nomenclature by frt classification clerks. It then goes to the Billing Clerk as a basis for the preparation of bill of lading.

Part 2. Specific Comments: 34 (H) a specific space should be provided on and for insertion of trans allotment. (The appropriation chargeable must be shown on a Bill of Lading and the designation of a specific space for this nr would facilitate the work of the billing clerk who uses the order copy of and a basis for the preparation of the bill of lading).

39 (C) and (F) these sub-paras prescribe that shipping documents on LCL and LTL shpmt will be attached to the lowest numbered case and that this case will be placed near the car or trk door. In some cases the nr of shpmts loaded in a trk LCL or an LTL trk make it impracticable from the standpoint of stowage and door space. (B) the separation of 1 case from the remainder of the shmt increases the possibility of part shpmts going astray. (C) As a rule the LCL shpmts are trfd a nr of times before reaching

dest. Railway car cannot be expected to and do not follow this procedure when shpt is reloaded into a different car at RR transfer pts. Therefore, the original purpose for placing documents near the door, so that they will be readily accessible to the consignee, is defeated. The procedure outlined in sub-para 39 (C) and (F) is workable only if a few large LFL or ICL shpts are loaded in 1 car or 1 trk, for 1 consignee.

Part 3. Comments on the end: More space should be provided in body of document under "Description of Articles" for insertion of frt classification. A half inch space for line items instead of the present five sixths inch space would provide room for use by classification clerks in the trans div. (The frt classification is inserted only on the order copy which is used as a basis for the preparation of the bill of lading). REMARK should be included on the document as to total quantity reqd, the consignee and consignor can usually establish the amount of reqd but it is difficult for anyone else to do so. The identification symbol of the reqd should also be included as an aid in tracing a particular shpt.
