1. Reference C 69156, 17 Nov 50 requesting comments and recommendations on W-96277, 11 Nov 50.
2. The sale of MPC's to United Nations Forces, less US troops, has been small up to this date and has not resulted in increase burden on supply system. The availability of articles in this area that can be purchased with MPC's is limited to PX supplies. MPC's are not converted for United Nations troops by Disbursing Officers except US troops.
3. It is not advisable to pay United Nations troops in part MPC's and part won. The increased accounting and handling would be a burden not only to the US Disbursing Officers but to all United Nations Disbursing Officers.
4. It is not considered advisable to limit the amount that can be paid to some of the United Nations troops and not all. It would never be considered good policy to limit the amount of money a US soldier could draw. It has always been the policy to pay every man, all he has due if he desires to have same.
5. American dollars are not authorized to be introduced into Korea. However, before this information was furnished all United Nations troops, some dollars were carried into Korea. These dollars are being collected as fast as possible.
6. It is recommended:
 - A. That no attempt be made to limit the amount of payments to United Nations troops.
 - B. That United Nations troops be advised to not draw all pay due but let balances accumulate to be drawn when returned to native land.

Following message was received from CO 10th BCT, Philippine Army with request that it be transmitted to the President of the Philippines:

"Request following msg be transmitted via channels to His Excellency The President Manila Philippines via CG Armed Forces of the Philippines, Camp Murphy Quezon City Philippines as follows: Your Excellency: Health and morale of my men rapidly deteriorating due to effects of severe cold weather and as yet without adequate winter clothing. So far even organic transportation barely fifth percent. Morale survey among my men shows state of apprehension, anxiety and outspoken preference for earliest return home. Today in my conference with CG Eighth US Army where I tried to express our difficulties find situation has convinced me that Gen Walker firmly determines above all else to employ my men merely as he and his other field comd to whom we may be attached deem fit as long as we are under his comd. New latest orders of CG 187th Abn ROT removes 4 of 6 combat companies from my direct comd which I understand is a gross violation of previous agreements between General MacArthur and our govt regarding maintenance of the integrity of my comd in Korea for combat opns to other bns of this ROT and resulting in severe demoralization of my officers and men. I am frankly doubtful of our fate here and not merely because of the enemy and the weather. In view of the foregoing I earnestly implore you in the name of my men to please arrange our earliest and immediately recall of my bn from Korea. Sgd Colonel Azurin, CO 10th BCT."

Request that Colonel Azuring, Philippine Army be immediately relieved from command of the 10th Battalion Combat Team, Philippine Army. A qualified replacement should be made available for this unit soonest. Colonel Azuring failed to obey the orders of Brigadier General Frank C Bowen, Commanding the 187th Regimental Combat Team, the unit to which Colonel Azuring's command has been attached for operational control.

2. This mission assigned Colonel Azuring's battalion was security of main supply route. This required dispersion of individual companies and in some instances the attachment of such companies to other units for operational control and logistical support. Colonel Azuring's refusal to obey is based upon his objection to missions which caused dispersion of his companies and attachment of some to other units. The orders given by General Bowen are within the operational capacity of the 10th Battalion Combat Team. Col Azuring reported to this hq at 181500 I and stated that he was complying with his orders. Notwithstanding this the relief and replacement of this officer is desired.

Every effort is being made to expedite winter clothing to your units. See that issues are expedited from railheads and airheads to using troops. I desire you personally insist on a Command Channel of Responsibility for proper instruction in cold weather training and enforcement thereof. Trench feet and other cold injuries can only be minimized by vigorous command action. See Training Directive Nbr 2-8 Oct and Circular Nbr 58-18 Oct both this headquarters. I desire this receive your personal attention.
