REF : OFLC 10832

Contents of this dispatch concern the Island of Iwo Jima. Article 3 of a recent amendment to the Sulfur Sale to China Agreement states "Removal by United States."

This article hereby constitutes authority for the withdrawal by the United States (without further specific approval by China) from any deposits established by Article 3 of the agreement, which withdrawals shall be for the payment of reimbursement of any obligation or expenses incurred by the United States in connection with the removal of any surplus property sold under said agreement that has not been completely removed from non-Chinese Territory on or before 1 May 1949. The said authority may be exercised by the United States, only upon the expiration of 30 days notice in writing to China. All such notices to China shall be made on or before 30 June 1949. Any prior arrangements or agreements which are inconsistent herewith are hereby rescinded."

Whereas Article 4 B of the same amendment states,

"With respect to the surplus property sold U.S. to China Agreement and located on islands under the jurisdiction of the United States, where less than the complete physical removal of such surplus property is acceptable to the appropriate authorities, such disposition shall be deemed to comply with Article 3 hereof."

It is requested that you advise this office prior to 1 May 1949 to the effect that it is necessary for the United

Cite TFIC 868. Closeout proceeding on schedule. Believe all aspects finalizing contracts and accounts, personnel and administrative actions will have been completely cleared COB 19 March. Overall history Tokyo office finished in draft but not yet reproduced. In view completeness of closeout, necessity my presence in Washington appears doubtful. Unless you deem my presence there necessary or advisable from administrative viewpoint, request my trip be cancelled entirely, that I be granted annual leave period 20 March through 30 April, leave to be spent in Japan. During interim, transfer to CINCFE could be processed with EDCMR 1 May. Final records and files could be forwarded via security courier or accompany Col Johnson. If you still deem my presence in Washington advisable I will depart immediately after reproduction of history. Immediate reply greatly appreciated. New but related subj. Request Weaver travel orders be amended by radio to provide transportation 500 pounds household goods. Akin

Your CX 6528 being repeated FLC Manila for further comment or recommendations. FLC Wash obtain from DA and refer Maritime Commission. Contracts involve are FLC Manila WANL (PA-1) 7895-A and Maritime Commission MCC-61074 originally with China Merchants Engineers Seattle reassigned Mollers Suidah Shipbreakers Hong Kong.

Analysis basis limited info here indicates RYCOM's proposed action would break contracts subj US damage claims require entirely new disposal effort. If new effort failed within limited life OFLC disposal responsibility would revert RYCOM. Existing contracts and subsequent scrapping arrangements apparently were then most feasible means disposal under Sur Prop Act and US scrap. policy. Overall US interest would seem to require RYCOM find means within basic security requirements to permit salvage operations now long delayed in past by security objections.

( CX65528 ) Subject is Mollers Inc contract for salvage operations in RYCOM. RYCOM rad E 20986 AIB, 9 Nov 48, as clarified by RYCOM rad E 21005 AIB, 16 Nov 48, is quoted below:

"This rad in three parts.

Part 1. Captain Charlie V Maxwell arr Okinawa 8 Nov, replacing T E Carr. Maxwell states that he has approval for the towing of floating equip to Hongkong where it will be broke up; also for collection of other equip on the beach and the conversion of this to scrap of standard sizes for shipment to US. He wants to take over the Okinawan Salvage Co, employing native labor to perform this work. He still desires to purchase rations and POL, and to build housing to establish camps ashore.

Part 2. The utilization of Okinawan labor will obviate the need for bringing Chinese labor. However, it is objectionable to place Okinawan labor at the disposal of foreign enterprise. Such employers will probably offer inducements that we cannot match and RYCOM will lose badly needed technical skill among native labor. Mollers has no salvage equip here at this time. One 17 ton crane is now enroute.

Part 3. In view of the current situation in the Far East, the uncertainty over the ultimate disposition of salvage after it leaves here, and undesirability of permitting foreign nationals to establish camps ashore and using Okinawan labor, it is recommended that for the present Mollers be refused permission to bring in any pers or equip for the purpose of conducting salvage operations or making preparations for salvage. Request reply soonest."

RYCOM further indicates that the intent is that Mollers be refused permission to proceed with preparation for operations or to conduct operations of any kind even if done wholly from craft at sea and no parties come ashore. Comments and recommendations are requested.

Part 1, reference CG 13th AF rad K 5310. Agreement reached that charges for any missing acft will be made at the OFLC-BOSEY level. Not necessary for Lt Col Chen Chinese AF representative at Tainan to sign VSDs for acft not delivered. For above reason essential that FLC Shanghai be officially advised of final nbr of acft contract Nbr W-ANL (CH) 1575 provides "That delivery to Tainan will be at rate of not more than 12 acft per day."

BOSEY basing arguments that they are not liable for any loss of acft over 12 on this clause. In our opinion their reasoning untenable.

Nevertheless recommend in the future FEAMCOM limits flts to 12 ea acft. Also advise fully for purpose of discussion basis for past scheduled delivery of 16 acft.

INFO : CG PEARF, CINCPAC, CG 13TH AF, CHIEF AAG NANKING

NR : SFLC 3162

Project Officer arrived OFLC Shanghai 25 Aug 48 with declaration for 52 aircraft. No spare part declarations included. Inasmuch as spare parts declarations are awaiting completion of requirements screening AS 13th AF, FEAMCOM Project Officer will be unable to safe hand declarations to OFLC Shanghai when they are completed due to delays which would be incurred in aircraft deliveries. It is therefore recommended that an additional FEAMCOM Project Officer be designated to safe hand spare parts declarations to OFLC Shanghai and return VSDs to Lt Phillips in Formosa. If no FEAMCOM officer available, suggest that 13th AF officer be designated as safe hand courier.

Further recommend that if suggestion is concurred in, action on same be expedited in order to utilize all available air lift for parts on C-54 navigational escort. Advise Lt Phillips action desired at 13th AF address.

DECLASSIFIED PER DA CIRC. #127  
23 DEC. 53

"Pls advise location of spare parts in order Maj David Hsiung may tvl to receive for Chinese AF. Chinese AF very short pers and facility in Philippines also foreign exchange difficulties and Philippine Govt export regulations.

"Pls also advise if practicable that USAF do packing. Local trans and arrange export license. All these at buyers expenses."

FLC Shanghai would concur in any exception to Article 7 Contract 1575 that CINCPAC permits and FEAF could accomplish. However, it should be most definitely understood that the exception is specific and in this instance only. Background is that on former trip to PI Maj Hsiung had great difficulties and was getting nowhere until a USAF Col came to his aid.

DECLASSIFIED PER JCS LTR OF  
20 AUG. 75

Maj Gen Ting Marianas Service Command Board of Supplies Executive Yuan National Govt of the Republic of China advise OFLC Guam following ltr received from MARAMA dtd 20 Jul 48.

"1. The contract between the US and China Nbr W-ANL (CHF)-1554 dtd 30 Aug 46 covering AF surplus property on Harmon Fld expired at mid-night 30 Jun-1 Jul 48 and all of the property can be reverted to the control of the USAF.

"2. No property can be removed by the Chinese Govt after mid-night 30 Jun-1 Jul 48 and no sales agreements entered into by the Chinese Govt with any individual, corp, or other agency, wherein the property was not removed prior to mid-night 30 Jun-1 Jul 48 will be honored by MARAMA."

Gen Ting further advised this office that MARAMA has refused to permit BOSEY to enter AF areas to inventory property made available to China. Further he states he has not been permitted to place Chinese MP's to guard property which belongs to China. You are advised position taken by MARAMA re bulk sale property transfer to China at Harmon Fld is prejudicial to Chinese rights.

The fact that China has not removed property by 30 Jun 48 or within 6 months after title passed to China does not give Tsning Agencies right to repossess property even though property remains on installation.

Further, FLC is only agent of the US Govt which at present is authorized to administer China bulk sale agreement.

Par 1. OFLC Guam has advised CINCFE By FLC 6027, 2 July that General C. T. Chein desired to obtain the following from the Marianas:

- a. 500 each M 26 type 500 lb fragmentation clusters.
- b. 500 each M 19 type 500 lb incendiary clusters.
- c. 5 million caliber 50 links.
- d. 100,000 M 9 pyrotechnic projector cartridges.

Par 2. CG FEAF indicates that items a and b above can be furnished. Ability to furnish item c unknown. Item d cannot be furnished.

Par 3. In view of FEAF's ability to furnish part of requested items, CINCFE is agreeable to extend for twenty days the declaration cut-off date provided for in W-ANL (CH) 1557. Request the extension period begin 12 July 48 and include all types of ammo desired by Chinese. Other provisions of contract to remain in full force and effect. Confirm.

MEMORANDUM FOR RECORD:

CWF/SSB/EHM/1g 8 Jly 48

1. By FLC 6027, 2 July 48 OFLC Guam advised CINCFE that the Chinese (Gen C. T. Chien) would like to obtain the following items in the Marianas:

- a. 500 each M 26 type 500 lb fragmentation clusters.
- b. 500 each M 19 type 500 lb incendiary clusters.
- c. 5 million caliber 50 links.
- d. 100,000 M 9 pyrotechnic projector cartridges.

2. In view of the fact that the items stated in FLC 6027 were all AF type ammo, this action was passed to CG FEAF on 2 July 48.

3. CG FEAF has advised informally that items a and b above are available in the quantities required. Item c availability is unknown at this time, however Col. Jones, A-4 FEAF stated that he was almost positive there would be no links available within FEAF because the links now on hand are far below the FEAF requirement. Item d is not available.

4. In view of the fact that the Contract W-ANL (CH) 1557, dated 22 May 48, provides that no declaration will be made subsequent to 5 July, it is deemed advisable to query FLC Shanghai regarding the advisability of extending the cut-off date for an additional period of 20 days. During this period of 20 days it is felt that the declarations for the avammo desired by Chinese could be declared and if any other ammo is required by the Chinese (ground) same could be declared concurrently with the avammo indicated in FLC Guam radio. To this extension CINCFE is agreeable. However, all other provisions of the contract must remain in full force and affect.

5. By instant radio to FLC Shanghai, with info copies to CG FEAF, MARBO, RYCOM, MARAMA AND FEAMCOM, FLC Shanghai is requested to confirm the requested extension of 20 days for declaration of ammunition presently available in Marianas.

- 6. Initiated case, G-4, action complete.
- 7. The interests of Korea are not involved.
- 8. Supply Division suspense date - 10 July 48.

**6X61281**

( ) Subject is request for tonnage shipped as indicated in urad SFLC 2788, 17 May 48 to CG FEAF. References SFLC 2755 (not received by CINCFE), A 7228 Sup-4-E, 17 May 48, and SFLC 2813.

1. a. Contract 1365 of 6 Nov 47 covered civilian type items only for CAF 8-1/3 Group Program.

b. Supplement I to contract 1365 dated 31 Jan 48 covered military type items (including ammunition) in CAF 8-1/3 Group Program. The ammunition requests for the 8-1/3 Group Program included both ground and avammo types. ~~(Statement in SFLC 2813 is misleading and not accurate in fact).~~ MM

*Re SFLC 2813*

c. Nothing in contract 1397, 7 Jan 48, specifies ground ammo only will be sold thereunder, and ~~in fact~~ it was contemplated here that both ground and avammo declared in Marianas would be sold thereunder.

d. The difference between ammo to be sold under Supplement I to 1365 and that to be sold under 1397 lies in the specific item requests for definitely serviceable ammo under Supplement I, as contrasted to the bulk, by area, sale of ammo of unknown serviceability under 1397.

2. Reference surplus items for CAF 8-1/3 Group Program. Look at CINCFE rad CX 59363, 20 March, for previous report on equipment. All outloadings of equipment have been completed for FEC availabilities for the CAF 8-1/3 Group Program except ammo declared to meet Chinese requirements. Commands have completed outloadings as follows:

a. Eighth Army. All ground and air equipment availabilities in Japan for subject program (333 MT) were outloaded 13 Mar 48 aboard the LAKEWOOD VICTORY.

b. Marbo. All air and ground equipment availabilities for subject program (667 MT) were outloaded on the CLARKSBURG VICTORY 4 Apr 48.

c. Philippines. All air and ground equipment availabilities (11,133.8 MT) were outloaded aboard the HAI TEE, 7 May 48.

d. Rycoa. All Ryukyus equipment availabilities, subject program (30.8 MT) were outloaded aboard the MEI LI G, 17 Mar 48.

e. Outloading of items declared available indicated above, total 12,165 MT.

f. Ammo availabilities for requirements which were restated in CINCFE rad CX 58284, 30 Jan 48, and confirmed by WAR 95469, 7 Feb 48, are not included in this report. This will be the subject of a separate report. In view of the basis of serviceability upon which it was necessary to declare and offer ammo to China under the Bulk Ammo for China Program, and the operational necessity for declaration on a tonnage by area, rather than by item basis, it is doubtful that further reduction of itemized ammo commitments under the 8-1/3 Group Program can be effected.

3. Status of offer, acceptance, tonnage by area, and outloading of accepted ammo by Chinese from FEC under contract 1397 will be the subject of a separate action.

**CX60504**

( ) For info Department of Army  
CSGSP D/3 and pass to OFLC. Subject is transfer of surplus ammo  
to China. Reurads 030410 Z May 48, SPIC 2741, 5 May, and ourads  
CX 59904 and CX 60203.

1. Ammo contract V-ANI-(CH)-1574 has been received here and upon  
review has been found to be not repeat not desirable from an operational  
standpoint. It is not operationally possible within present budget or  
personnel limits, for FIC to declare current excess ground ammo surplus,  
except in certain specific cases, on other than a bulk, by area and  
tonnage, basis.

DECLASSIFIED PER JCS LTR OF  
20 AUG. 75

2. CINCPAC position regarding transfer of ammo in the Ryukyus and  
Bonins Islands to the Chinese as contained in instructions covering  
declarations outlined in Part VI, ourad CX 58836, and as later inter-  
preted by ourad CX 59904 to assist the Chinese to the greatest extent  
possible, remains firm.

3. In view of pars 1 and 2 above, recommend draft of new contract  
covering sale of ammo in the Ryukyus and Bonins Islands be prepared for  
CINCPAC concurrence to include full consideration of instructions and  
conditions outlined in CX 58836 and CX 58939 and in addition incorporate  
the following points:

a. The declaring agency will be notified, within 45 days after  
the signing date of the new contract, of the acceptance or non-acceptance  
of all ammo which had already been declared prior to the signing date of  
the new contract.

b. The declaring agency be informed of Chinese acceptance or  
non-acceptance within 45 days of the date of declaration of any ammo  
declared subsequent to signing date of the contract.

~~SECRET~~

INFORMATION COPY

Copy to C-In-C

Secret

CINCPT RAD TO WJC-SHANGHAI (CONT'D)

c. Conditions for passage of title and removal should be based on the principle of effecting earliest possible consummation of actual delivery of ammo to China.

4. In the interest of simplicity of operation and in view of the fact that contract W-ANL-(CH)-1397 of 7 January 48 covering sale of ammo in the Marianas Islands does not contain any stipulations regarding acceptance or refusal of declared ammo by specific date, or within a specific time after date of declaration, it is suggested that contract W-ANL-(CH)-1397 also be terminated and the sale of ammo in the Marianas be incorporated in the new contract discussed in par 3 above. In this way one contract would cover sale of surplus ammo in all areas of FEC where such ammo is available.

5. Suggest you prepare draft of new contract in general along the lines indicated above and bring or send same to Tokyo for coordination with CINCPT with a view to early consummation of a renegotiated contract which will resolve present difficulties.

FROM : OFLC MANILA  
TO : OFLC WASHINGTON  
INFO : CINCFE (OFLC)  
NR : MFIC 10334

Reurad WCL 46254 referred Manila for comment, our latest observation these planes was only 6 weeks ago. Dating back to first negotiations with Dutch in Sept 1945 exact status these planes has never been clear to this office and to our best knowledge have never been declared. These planes were subject to an IG investigation by FEAF as they were all combat planes and had been physically abandoned without demilitarization. They were specifically excluded from FLC sale to Dutch (See Manila Contract 375) by Wordingscup IV therein confining property sold to "noncombat scrap as determined by Base Commanders." Chappalears compliance report 6 Feb 1947 contains pertinent information.

Subsequent to Contract 357 we sold remaining declared property Biak to George Howard. This contract likewise did not include the plane dumps see ourad 15 Nov 1946 to Aircraft Division Wash no cite sent thru Embassy. It would appear therefore that such of these planes as remain are still United States property unless Air Corps has taken any official abandonment action and notified Dutch of such action.

INFO: CG MARBO . . . . . PRIORITY  
FLC GUAM . . . . . PRIORITY

NR : ZX 45858

1. Reference is made to declaration of surplus property form SPB-3 WGA-354 which declared 6000 bayonet knives M4 and 6000 scabbards M8-A1 to FLC for sale to Chinese. As indicated in CX 58638 these items were declared for sale under Supplement 1 to contract W-ANL (CH)-1365 (6 November contract for sale of items to CAF 8 1/3). Vendors' Shipping Document procurement directive #B-230 dated 7 April 48 indicates that above items were sold to Chinese under contract W-ANL (CH)-1354 (bulk sales agreement).

2. In view United States Government commitment by item under Chinese Air Force 8 1/3 and necessity same be met maximum extent possible, request VSD #B-230, 7 April 48 be corrected accordingly.

OFFICIAL:

APPROVED BY:

R. M. LEVY  
Colonel, AGD  
Adjutant General

H. E. EASTWOOD  
Colonel, GSC  
Asst C/S, G-4

MEMO FOR RECORD:

1. Incident to receipt of VSD procurement directive #B-230 dated 7 April 48 from CG MARBO, it was found upon comparison of the VSDs with the SPB form, declaring items for sale to Chinese under reporting agency code WG-A-354, that the items on the VSDs were sold to the Chinese under the bulk sale agreement (W-ANL (CH)-1354) when they were declared for sale under the CAF 8 1/3 program (supplement 1 to W-ANL(CH)-1365).

2. In view of the fact that it is desirable that the U. S. Government meet to the fullest extent possible the requirements of the CAF Program, it is

45858-2-2015

deemed advisable to have SFLC correct the VSDs so that the items declared therein will be reflected against the requirement for the CAF Program rather than the bulk sale agreement.

3. Therefore, by instant radio to SFLC, with info to CG MARBO and FLC Guam, SFLC is requested to correct the VSD's so that the items sold therein will be applied against the CAF Program.

4. Initiated case - G-4 Action complete.

5. The interests of Korea are not concerned.

6. Supply Division suspense date - 26 April 48.

Re SFLC 2588 and urad ZX 44314. Following change to info submitted to ourad SFLC 2588 concerning Slater. Although possesses British pass port issued by British Consulate Honolulu Slater is Canadian citizen. In this light opinion Canadian Consulate here case should be referred to Canadian Liaison Mission in Japan as Slater would come under Canadian quota of which there are more available visas. Canadian Consulate here anxious to assist Slater. He is maintaining Liaison with them as well as British Consulate.

(ZX 44314) Reur SFLC 2588, 26 March 48, because of British nationality of Slater his request for entry has been referred to United Kingdom Liaison Mission in Japan for such action as deemed appropriate. Issuance of military permit not in order in this case. Mission has been requested, if no objection to entry, to notify interested British authorities Shanghai. For follow up action your part suggest you maintain contact with British Consulate Shanghai.

M/R: 1. SFLC 2588 fr FLC Shanghai rqsts entry of Donald Slater, British subject, for purpose of purchase and shipment of surplus property. This cable is directed to CINCFE with info Dept of Army, State Dept and Amconsul Shanghai, and is so framed as to facilitate issuance of military permit by Dept of Army thru Amconsul Shanghai.

2. Military Permits are issued only to US citizens. For this reason the inst rqst has been referred by memo this date to UKLM for such action as they deem desirable with rqst that if there is no objection to entry on part of the Mission, interested British agencies in Shanghai be informed of clearance.

3. G-2 (CIS - Lt Miwa) has no derogatory info on file.

4. FLC (Capt Galaway) states that in view of fact that surplus tractors will not be completely processed out of Japan until 30 Apr, entry of Slater may be permitted in interests of expediting this shipment out of Japan thru possible purchase fr successful bidders.

DATE... 5 Jan 75

Subsequent to JCS decision on JCS 1380/97 (airmailed to you on 9 Mar) Secy Defense has auth DEPTAR to reqst funds for spt of a program for equipping up to 10 JNPR Divs by 1 Jul 52. However, G-3 expects further delays before actual shipment of equipment can begin.

Incls to your letter of 25 Jan on "Army Program Guidance for Formulation of FY 51 3d Supplemental and FY 52 Revised Budget Ests" provide latest info avail here on your reqmts for 4 JNPR Divs.

For planning purposes only pending actual receipt of funds and to insure that DEPTAR estimates may accurately reflect your requirements for 10 divs, request soonest answers to folg ques:

A. Can DEPTAR assume that requirements for 6 additional divs will be six fourths of your requirements for 4 divs as submitted in letter referred to in Para 2 Above? If not, what are requirements for 6 additional divs?

B. In view of second sentence of Para 6 b URMSG C 57817 of 16 Mar, do you contemplate adding to list of requirement folg general purpose vehicles for each of 10 divs: Truck, 1/4 ton, 4 x 4, 1020; truck, 3/4 ton, 4 x 4, cargo W and WO/W, 273; truck, 2 1/2 ton, 6 x 6, cargo, LWB and SWB, 742; trailer, 1/4 ton, 2 W, cargo, 636; trailer, 1 ton, 2 W, cargo, 647; trailer, 2 ton, 2 W, ammo, M-10, 87; truck, 2 1/2 ton, 6 x 6, damp, 75; truck, 4 ton, 6 x 6 cargo, LWB, 9.

28 Mar 51

FROM : DEPTAR (DEPUTY CHIEF OF STAFF FOR PLANS) WASH DC  
TO : CINCPAC TOKYO JAPAN  
NR : DA 86891

DA has completed a preliminary study on the Army plan with respect to future commitments in Korea based on the following assumptions:

A. At some time in the not too distant future UN Forces will be able to so stabilize the ground action that ROK Forces can contain the enemy without the aid of major allied ground forces.

B. Communist Chinese Forces will be withdrawn from Korea.

The conclusions of the study are:

A. The size of the post hostilities ROK Army should be 10 infantry divs with nec combat and support units, not to exceed a total str of 300,000.

B. The ROK Div TOME should be restudied in light of current operations in Korea.

C. The present training doctrines and methods are adequate. The continuation of the Korean Military Advisory Group is essential.

D. An ROK Army of 10 divs is capable of maintaining internal security, resisting attacks by other than a major power, and if evacuated, can materially assist the US in the execution of its war plans in the Pacific.

E. The determination of logistics implications is dependent upon the final detailed organization and priorities established for the proposed ROK Army.

REURMSG C 52610 of 3 Jan, C 52979 of 8 Jan, C 53602 of 17 Jan,  
and OURMSG DA 80467 of 6 Jan.

Part 1.

1. On 5 Feb JCS in substance recommended to Secy Def that he authorize Dept Army:

- (a) To take favorable action on your 3 Jan msg;
- (b) To plan and budget for equipping up to 10 NPRJ divisions by 1 July 52.

2. On 15 Feb Secy Def in substance:

- (a) Informed State Dept that he concurred on JCS recommendations;
- (b) Requested State views before presenting these recommendations to President for approval.

Part 2.

On 1 Mar State replied to Secy Def. Pertinent extracts from this reply follow:

1. State fully shares your concern over Security Japan and desires it be strengthened rapidly as possible. However, in determining specific steps that should be taken, it will, as suggested in your letter, be desirable at each stage to give full consideration to international political implications. Present recommendations of JCS relate very directly to relationship of United States to Far Eastern Commission, and present negotiations looking toward an early peace treaty with Japan.

2. Decisions of Far Eastern Commission are very explicit with regard to armament permitted to Japanese. These decisions, which are in effect international obligations of United States,

FROM : DEPTAR (0-3) NR : DA 85078 8 MAR 51 CONT'D

were in a large part proposed and strongly supported by United States at time of their adoption.

3. At time of discussions between our 2 depts looking toward present mission of Mister Dulles, it was recognized that most practicable means of removing those restrictions on Japanese ability to contribute to their own defense was conclusion of a peace treaty. One of the principal purposes of Mister Dulles recent mission was to obtain as great a degree as possible of international support for type treaty which United States desires to see concluded with Japan, particularly support of Philippines, Australia and New Zealand which had evidenced much concern over Japanese rearmament. If Japanese are provided heavy armament prior to successful conclusion of present treaty negotiations, it could well seriously jeopardize international support which could otherwise be obtained for type treaty which United States is seeking.

4. A unilateral decision by United States fully to arm Japanese Divisions prior to a treaty of peace in direct violation of decisions of Far Eastern Commission could also well lead to breakup of commission with prejudice to our relations with even our best friends and largely isolate United States in its policy toward Japan. This possibility could only partially be minimized if United States were in position to persuade a few of countries most likely to be receptive that danger of Soviet invasion of Japan was so great as to justify extraordinary measures prior to such time as Japan can be rearmed in accordance with orderly international decisions.

5. It was also recognized that probably only by a treaty of type desired by United States would it be possible to obtain from Japanese people their maximum identification with cause of free world and willingness to accept increased responsibility for contributing to their own defense. Unless presented in context of such an immediate and extreme emergency as to admit of no choice (with the repercussions that would flow therefrom), it would appear that all elements in Japan opposed to type treaty desired by United States would be able to foment opposition to treaty on grounds that furnishing of heavy equipment to NPRJ constituted rearmament of country, in contradiction to principles accepted by them at time of their surrender and, until recently, inculcated by occupation authorities, at unilateral decision of United States and without their being given an opportunity to participate in decision. This would also give Communist propaganda base upon which to build intensified campaign of propaganda and intimidation of increased effectiveness in Japan.

OPERATIONAL IMMEDIATE

FROM : DEPTAR (G-3) NR : DA 85078 8 MAR 51 CONT'D

6. Therefore, if Soviets should, for any reason, initiate localized attack on Japan on pretext of violations by ourselves and Japanese of disarmament decisions of Far Eastern Commission, they would be in position effectively to exploit differences of opinion between ourselves and our allies on subject, and we would probably encounter great difficulty in obtaining support in such of Europe and Asia for counteraction against USSR. Thus, if Soviet purpose is to attack Japan, furnishing of Japanese Divisions with heavy equipment prior to our obtaining some understanding with friendly countries on subject of Japanese rearmament might enable Soviets carry out attack under conditions which would make it very difficult for United States to obtain support from its allies.

7. It must also be mentioned that if, as now appears possible, council of foreign ministers is in session at time receipt this equipment by Japanese becomes known it would probably result in very adverse effects on possibility any degree of success being achieved at those sessions.

8. Therefore, while State entirely concurs with recommendation that heavy armament for 4 divisions be shipped to FECOM so as to be immediately available for any emergency, and that defense undertake planning and budgeting for FY 52 for equipment for an additional 6 divisions, it believes that timing of placing of any such equipment in hands of Japanese should be carefully considered so as, if possible, not jeopardize achievement long range objectives of United States policy toward Japan.

9. In concurring with shipment this equipment to Japan and planning and budgeting by Defense for an additional 6 divisions for FY 52 it is understanding of State that none of equipment will be placed in hands of Japanese without specific prior agreement of State. It would be appreciated if defense would confirm this understanding.

10. With return of Mister Dulles from his recent trip it will be necessary during next few months for State and Defense to give full consideration to all questions that will arise with

DECLASSIFIED PER SA (TIA) 077274

FROM : DEPTAR (G-3) NR : DA 85078 8 MAR 51 CONFID

regard to possible early peace settlement with Japan. It is suggested that question of timing of turnover of heavy armament to Japanese is one of questions which should be considered during that period by both departments.

Part 3.

1. State reply is now under study as a matter of priority by a JCS committee.

2. Processing action on your 3 Jan msg Dept Army has made strong representations concerning urgency of immediate favorable action thereon and has urged that you have free hand in making decision as to timing and method of making avail to NPRJ equipment you have requested. Dept Army has assumed that you could loan immediately to NPRJ some training equipment from current FECOM stocks, provided you have assurances that equipment you have requested is entering pipeline in 21.

3. In order to assist Dept Army in continuing to press for favorable action on your 3 Jan msg, request your comments and recommendations regarding State reply, including answers to following specific questions:

A. Could you make avail to NPRJ necessary equipment to permit immediate initiation of training on heavy armament without awaiting arrival of equipment you have requested?

B. What is absolute minimum time for NPRJ divisions to become combat effective under following assumptions:

(1) That you utilize equipment now in FECOM stocks to initiate training with heavy armament and that major portion of equipment you have requested will arrive approx 60 days thereafter?

(2) That training in heavy armament will not begin until arrival of majority of equipment you have requested?

Do you consider urgency of current threat to Japan to be so compelling that despite considerations in Part 2 above the United States should authorize:

(1) Immediate initiation of training of NPRJ with heavy armament, without actually turning this armament over to Japanese, or

(2) Immediate loan of heavy armament to NPRJ?

War Office London quoted fol low grade rept:

- (1). Early Dec 50, 1 Soviet Div arrived in Szepingkai Manchuria.
- (2). Div arrival accompanied by "usual incidents" with Soviets so unpopular they soon withdrawn to psn outside city.
- (3). Div reportedly constructed def works around city and to be equipped with 60 "60-ton" tanks fitted with AA guns.

War Office comment:

This rept apparently confirms in part, info in previous rept which stated 6 Soviet div had arrived various towns Manchuria, including Szepingkai. While we not prepared to go firm on any est Soviet troops Manchuria we consider suf weight of evidence now (albeit low grade info) warrant acceptance theory that some Soviet Army formations are now stationed Manchuria (exclusive Kwantung Peninsula).

G-2 Comment:

"Prev rept" referred to in War Office comment was same as CIAPD-604, 31 Dec which you rec. Subsequently, in Telecon discussion, War Office summed up psn as fol: (1) have been "Sitting on fence" long enough; now is time finally to accept presence Soviet divs Manchuria/China. (2) Although evidence admittedly flimsy, we can not expect much better info from this area. (3) Finally, we accept probable arrival Soviet divs in unknown str Manchuria during Dec.

We do not agree with British psn. Their latest rept appears even less reliable than some others on same subj. It is considered on basis of aval intel it is extremely unlikely that only one div would be lent to Manchuria; if any, at all, then at least a complete rifle or mecz army. Furthermore, the MI

The following is in substance a memo forwarded by the JCS to Sec Def and is furnished for your information. Full text at JCS 2118/10 being forwarded by mail: The JCS have tentatively agreed upon following objectives relative to Communist China and Korea and actions to be taken.

A. Objectives:

1. Maintain security of off shore defense line: Japan, Ryukyus, Philippines.
2. Deny Formosa to Communists.
3. Delay general war with Russia until we have achieved requisite degree military and industrial mobilization.
4. Prevent, by all appropriate means, further spread by force of Communism on mainland of Asia, particularly into Indo-China, Siam and Malaya.
5. Support South Koreans as much and as long as practicable, keeping alive Govt of Korea, if forced to evacuate Korean territory.
6. Support establishment in China of a govt friendly to the US.

B. Actions to be taken:

1. Stabilize situation in Korea or evacuate to Japan if forced out of Korea.
2. Limit major US ground forces in the Far East to those now committed, unless: The outcome of Chinese offensive

should indicate that we can profitably remain in Korea with the number of US Divs now committed, in which event, if the Army could provide them and at the same time meet our commitments in Europe, not to exceed two partly trained divs might be deployed to Japan to increase its security.

3. Expedite buildup of Japanese defense forces.
4. Move troops to Japan from Korea necessary to defend Japan.
5. Continue and intensify now an economic blockade of trade with China.
6. Prepare now impose Naval blockade of China and place into effect as soon as our position in Korea is stabilized, or when we have evacuated Korea.
7. Remove now restrictions on air reconnaissance on China coastal areas and of Manchuria.
8. Remove now the restrictions on operations of Chinese Nationalist Forces and give such logistic support to those forces as will contribute to effective operations against the Communists.
9. Continue bomb military targets in Korea.
10. Press now for UN action branding Communist China aggressor.
11. Send military training mission and increase MDAP to Chinese Nationalists on Formosa.
12. Furnish now practicable covert aid to effective Nationalists guerrilla forces in China.
13. Initiate damaging naval and air attacks on objectives in Communist China at such time as the Chinese Communists attack any of our forces outside Korea.
14. Increase MDAP to Indo-China and assist training of Viet Nam Forces if requested by French authorities.
15. Consult with Siamese authorities and, if requested, furnish a military mission and increase MDAP aid to Siam.
16. Strengthen the Philippines primarily by exerting pressure on the Philippine Govt to establish internal security.

For your additional info, the above subject has been placed before the National Security Council for consideration.

Subj is introduction new mil pmt cert series.

1. Because of long circulation present series mil pmt cert, which undoubtedly has encouraged mil pmt cert t/c by unauthd pers, and impending augmentation US Forces in mil pmt cert areas, view here that conversion to new mil pmt cert series should be effd in near future. Recogd that conversion with its attending administrative burden makes it undesirable for initiation of normal conversion procedure in FECOM because of combat opn in Korea. However since DA would be confronted with same problem should it be nec to have conversion in wartime, believed conversion should not be deferred. Accordingly folg proposed:

A. EUCOM to eff conversion to new series under normal conversion procedures.

B.

(1) FECOM to eff conversion to new series under normal conversion procedures, except in combat areas and areas determined by FECOM as being affected by combat opn.

(2) In combat areas and areas determined by FECOM as excepted from normal conversion procedure, new series mil pmt cert will be introduced as normal pay to pers. Present 472 series mil pmt cert will cont circulate concurrently with new series mil pmt cert and be retired from circulation within subsequent 15 or 30 days period, whichever recmd by FECOM. After this circulation period 472 series mil pmt cert no longer will be acceptable by United States Mil establishment and will have to be turned in to designated off for conversion to new

series in accordance with normal conversion procedures.

2. Recogd amended procedure in FE will fail to have effect on unauthd pers normally discouraged by loss suffered as result conversion and that some 472 mil pmt certs may be transmitted within withdrawal by unauthd mil pmt cert holders from areas effg normal conversion procedure to areas using amended conversion procedure. However desirability of converting now outweighs deferring conversion to some future more fav time. Rost comments and recommendations particularly regards:

A. Date of conversion (contemplated here should be on Pay Day.)

B. Adequacy of new series mil pmt cert stocks in cond for conversion purposes and to fill one years rqmts.

C. Feasibility of using amended procedure.

D. Designation of areas in which normal conversion procedure would be effd and areas in which amended procedure would apply.

E. Withdrawal pd ie, 15 or 30 days. (Item C, D and E-only FECON need reply).

REURMSGs:

- (A). C 51522 of 18 Dec 50 and,
- (B). C 52486 of 2 Jan 51.

This cable in 4 parts.

Part 1. Decision on JCS 2006/11 reached prior to receipt your reference A and in contrary to your points reference A Part 3 C and Part 4 A. If you still desire presentation your views on these points reqst DA be advised. For your info shakedown being revised based on current capabilities with D Day 1 Jan 51.

[SHAKEDOWN] Part 2. Ref your comment Part 3 Para F, ref A. Contents of JCS 1844/70 and 1844/84 consolidated and dispatched to you as registered document titled "directive for logistics planning for shakedown" on 26 Jul 50.

Part 3. JCS 2006/8, 2006/9 and 2006/10 not forwarded since they are not decisions. However service comments forwarded you are identical with exceptions indicated below:

A. JCS 2006/8 same as Army comments except that "Chief of Staff US Army" is substituted wherever "Dept of Army" appears.

B. JCS 2006/9 same as AF comments. However comment 2 B (5) should read: "The US AF emergency war plan establishes, by assumption, D plus 6 months (D plus 180 days) as the attainment date for 100% table of orgn and equip strength (except acft). Therefore Para 2 A (2), Volume 3 Annex H, Part 1 should be changed to read 'wartime authorization will be attained on D plus 180.'"

C. JCS 2006/10 same as Navy comments.

Part 4. Fol revisions prescribed in Para 9 of JCS 2006/11 are to be made as outlined in your cable ref A. JCS 2006/8 (Army comments) Paras 7 A, 7 C and 10. Wartime Army authorization, 7 B

This msg in 2 parts. For US eyes only.

1. Gen Romulo has asked Depts State Defense assist Phils in creation 10 additional battalion combat teams. Phil economy considered here unable to support expansion. Existing 15 battalion combat teams considered by JCS 1519/54 sufficient to maintain internal security. Request your views re mil necessity expansion Phil army at this time.

2. Understood that Phil Govt may send group to US to discuss mobilization of 5 divisions. Pursuant to provisions for defense of the Phils as prescribed in JCS 2006/11, request your recommendation on a phased mobilization of Phil manpower in case of an emergency which will minimize or nullify possible requirement for deployment of US ground troops for defense of Phils and upon which DA can initiate planning for equipping such forces.

USALO Hongkong reports the fol info received from sensitive source which furnished reliable info in past.

"A. Gen atk in Korean theater during first days January in order liquidate theater. Soon as American troops retire from Korea atks to be launched simultaneously on Ku Yie peninsula (1655/7306/2497), Formosa and Indo China in order absorb foes forces from all sides. B. Final objective- atk upon Japan. Details: 12 Divs have been sent these days to Ku Yie peninsula with 500 acft for support. 5 Divs formed from Japanese prisoners ready be sent this theater for participation in war. Departure will be from South and North Korea to accupy Tsushima between Korea and Japan. Assault to be by Japanese. The liberation Japan has been planned by Japanese Communist Party. C. Preparations for atk on Formosa: Land forces contributed by Chinese Reds. Air and Naval Forces shared with Russia. Interior revolution to be led by Hsieh Hsueh Hung (6200/7185/4767), leader Formosan Democratic League. She is now in Peking"

Reporting officer unable identify place names given. Believes Ku Yie may refer Kurile Islands.

G-2 comment: G-2 unable identify Ku Yie peninsula mentioned report. Info para B appears similar prev report received concerning mvmt 12 Soviet Divs to Sakhalin which you commented on in DATT 4196 of 4 January.
