Re URMSG ZX 29619, 21 Nov 49. This is Reports Control Symbol QTO-(OT)-50, and confirms information transmitted in telecon 6 Dec 49. Assumptions used are those specified in Part 3 your reference msg and previous directives your Hqs except as noted in following.

This msg in 4 parts.

Part 1. Military spaces to be loaned to MSTB as programmed in T/O or T/D as follows: (Note all military personnel are TC branch and on shoreside duty).

Guam Army Port: 1 Maj, 1 Capt, 1 Lt, 2 grade 2, 1 grade 3, 3 grade 4, 3 grade 5.

Saipan Army Port (programmed under Guam Army Port in troop basis changes anticipated on or about 1 Jan 50): 1 Lt, 1 grade 4.

MARBO Transportation Depot (correction of telecon figures): 1 grade 3, 2 grade 4, 4 grade 5, 4 grade 6/7.

Part 2. Civilian spaces authorized, and personnel employed as of 30 Sept 49, to be transferred to MSTB:

Col 1 Installation	Col 2 A Authorized Marine	Col 2 B {Marine employed 30 Sept 49}	Col 3 {Shore-ung}	Col 4 {Shore GR}

LF 357	23	22	0	0
LF 643	23	22	0	0
Totals	176	154	0	15

Part 3 A. Above excludes repairs barge BCL 1790 immediate disposition of which was approved by CINCPAC msg ZX 30777, 3 Dec 49.

Part 3 B. LF 643 is included in above figures, as reply to OMRMSG C 18221, 1 Dec 49, requesting disposition has not been received. If LF 643 is eliminated, Marine civilian would be reduced by 23 (22) for vessel and 1 at Guam Army Port in standby pool. Reduction of supply personnel would reduce military personnel by 1 grade 4 from Guam Army Port, 1 grade 5 from Trans Depot, and civilian personnel by 1 Shore grade employee at Depot.

Part 4 A. Marine civilian personnel figures are given in Part 2 above to show both authorized strength and actual state of employment on 30 Sept 49 as requested. Employment on that date distorted by absence of LST 898. It is expected that manning of all vessels will be virtually at authorized levels from now on, and therefore assume that authorized strengths are desired for planning purposes.

Part 4 B. Non-citizens are rapidly being replaced and it is expected that all personnel will be US citizens by time MSTB transfers are effective. All Marine personnel are on American pay scale.

This msg in 5 parts.

Part 1. Repair barge BCL 1790, assigned MARGO by CINCPAC in May 1948, did not reach effective crew strength until July 1949 due to recruiting difficulties. Since early FY 1949 number of vessels and marine repair work at MARBO have declined steadily. Barge operations July through October 1949 resulted in repairs amounting to \$6,200; crew cost during same period was \$31,000.

Part 2. Above results do not warrant retention of facility under present fleet strength. Current incidental repairs, not handled by Navy here, can be covered adequately by 3 to 5 marine repairmen on shore until MSTs transfers are effected.

Part 3. Part 3 A URMSG ZX 29619, 21 Nov 49, indicates all repair facilities will be transferred to Navy but Navy states barge will not be required even after contemplated MSTs vessel transfers are effected.

Part 4. Therefore, for maximum economy and to assist in meeting December 1949 command force reduction requirements, request soonest authority and instructions for disposition of BCL 1700 as excess. Navy here concurs in disposal at this time. Barge drydocked Guam February 1949. Barge and machinery in good operating condition except for minor hull repairs which can be accomplished Guam without delay.

Part 5. If authority to discontinue is received without immediate disposition instructions, crew will be terminated and barge placed in wet storage.

Fence and stage of outdoor theaters damaged extensively. Unable to ascertain extent of damage to equipment as Engineer is presently on TDY to Saipan and could not return due to unavailability of transportation. Equipment not believed to be damaged greatly as a quick survey indicates only slight water damage. Three theaters in operation at present then with possibility of more at an early date. Full report will be forwarded via mail as soon as Engineer returns and extent of damage can be determined. Also survey will be made to determine the extent of damage of outside storage on equipment awaiting port call to Tokyo.

Francisco requesting if additional water spaces could be made

San Francisco, by msg TCSFP 3458 GMMB dtd 16 Nov 49 replied  
that upon previous msgs with Marbo, arrangements had been made  
with CCT to change the itinerary for the USAT DARBY, ETD  
19 Dec, to lift approximately 300 of the 400 dops who appeared

Subject is purchase of land occupied by Army on Guam. Request information as to status of purchase request submitted by CINCPAC to Department of Army on or about 13 July 49 for the purchase of privately owned lands occupied by the Army on Guam.

Decision necessary since cost of operation of land and claims commission rapidly reducing appropriations available for land purchase and due to time required to clear sale and transfer to title through Guam Courts.

MEMO FOR RECORD: CG MARBO in cited radio above requests permission under  
par 16, AR 410-5, 17 Aug 49, to detail officer to represent PM, MARBO  
in civil suit for damages resulting from action taken in official  
capacity. Lt Col Hoult, MARBO JA, now temporary DS in Tokyo, indicates  
informally that this action probably was one which arose from an  
altercation following minor traffic incident on Guam, and that ad-  
ministrative reprimand was administered in MARBO to the PM. While this  
incident may not be the one involved, it is considered essential that  
officers on Guam being sued in civil courts for acts arising out of  
performance of official duties be furnished Government counsel. AR 410-5  
forbids the appearance of Army officers in civil courts except by  
approval of the Judge Advocate General in the ZI and the Theater JA  
in overseas commands. Instant radio authorizes such counsel in addition  
to suggesting request be made upon the Attorney General, Guam, for  
assistance.

Reference your letter AG 563.5 (5 Oct 49) MBYTR subject: Theater Tonnage Projection, 8 Oct 49 with Incl No. 1 thereto and CINCFE letter AG 400.703 (19 Sep 49) GD subject: Disposition of MARBO Excess Stocks, 19 Sep 49. This radio in four parts.

Part I. The QTC-08-R3 consolidated tonnage projections 1 Oct 49 pertaining to outshipments from Guam and Saipan does not comply with the provisions of CINCFE letter 19 Sep 49 referred to above. The projection as submitted reports that no tonnage of transportation, medical and chemical stocks will be outshipped from MARBO up to and including Oct 50. The projections for outshipment of Quartermaster, Signal and Engineer stocks from Guam as reported are negligible. Ordnance projections as submitted are sufficient.

Part II. The consolidated tonnage projection is the basis upon which shipping is made available to the Far East Command by D/A; therefore, the submission of inaccurate projections cannot be accepted particularly in view of the outshipment program which must be accomplished by MARBO.

Part III. CINCFE has been informed that General Collins, Chief of Staff, U. S. Army was told in MARBO that outshipment of all technical service excess stocks from MARBO, except Engineer stocks, would be outshipped by 1 Jan 50. This commitment cannot be fulfilled unless projections for November and December 49 are accurate.

Part IV. It is desired that the Consolidated Tonnage Projections Report, 1 Oct 49 for Guam and Saipan be reviewed by the technical services-MARBO and a corrected report of projections be submitted to

G-1 in C/N No 1 to AG, ARC, Chap and SS req comments and recommendations  
to CG MARBO's query.

AG states that in the absence of information to the contrary, it  
would appear that the ARC could, as it has in the past, provide any  
emergency financial assistance required by personnel of MARBO. It would  
further appear that authority for establishment of an Army Emergency Relief  
Section in MARBO is a matter for determination between the CG, MARBO and the

concur in comments and recommendations of AG.

that Engineer situation was becoming critical due to limitations of tentative funding program. CINCFE radio CX 51997, 17 August, to DA, info to CG MARBO, advised DA of the serious effects of the critically deficient FEC FY 50 ESA tentative funding program and requested immediate allocation authorization to meet current payroll requirements.

2. CX 52207, 30 August 1949, to DA reiterated the seriousness of the FEC FY 50 ESA Tentative Funding Program and re-emphasized the urgent need for relief.

3. MARBO radio S 9478 MHFIS, 30 August 1949, advised that employee situation had become serious due to non-payment of payrolls and requested immediate relief.

4. CINCFE radio C 52223, 31 August, increased MARBO O1 - Personal Services allotment authorization in amount of \$120,000 and requested re-analysis of Engineer situation.

5. DA radio W 93788, 3 September 1949, increased 1st quarter allocation authorization from 30% to 56% under FEC FY 50 ESA Tentative Funding Program excluding funds for deferred maintenance and transfer to DAF.

6. MARBO radio S 9490 MBACS, 31 September 1949, advised CINCFE of the following:

- a. Additional allotment authorization of \$120,000 (C 52223, 31 Aug) insufficient to meet payrolls beyond 20 August.
- b. Reductions in force seriously hampered by lack of transportation.
- c. Further reductions in force and this time would necessitate change in MARBO mission.
- d. Obligations, except for POL, under Object 99 are incurred on a quarterly basis.
- e. MARBO cannot operate under presently established ceiling.

7. Subject radio advises MARBO of increased FY 50 allotment authorization to permit fulfillment of current obligations and to further effect required reductions in force. The increased authorization of 60% for O1 and 75% for 99 exceeds the overall 56% authorization for FEC as a whole but is compensated by holding 8th Army and Hq and Sv Gp to the original 30% limitation for the 1st quarter.

8. Transportation situation to be alleviated by re-scheduling transports to Guam. Separate radio to MARBO requests space requirements
