FROM: CINCPAC TOKYO JAPAN

TO : ECA WASHINGTON DC ROUTINE

C-63331 This is TOECA nbr 548 September 15, 1950.
Re ECATO 307. Subject: Baltic Coasters

Breakdown lay-up cost in state of readiness per vessel per month: POL \$2500, crews wages and subsistence \$1000, dockage and other expenses \$300. Alternative is dead ship lay-up. Estimated cost per ship: moving vessel to safe haven \$3500, decommissioning \$3300, monthly maintenance \$400. These figures submitted by Japanese shipping companies believed too high, will obtain other bids.

ECATO 209 indicates amendment PFEL contract to provide supervision of vessels in lay-up status. Non-concurrence ROK makes this impracticable. Contract should be made by ECA with Japanese company. Vessels in protective custody of Army awaiting further action by ECA. Instructors have no access to ships and no duties to perform. Their presence only aggravates critical housing problem. In view foregoing you may wish reconsider desirability immediate termination PFEL contract. End Signed Anderson.

Subject Petroleum Experts

Re Ulsan refinery project. Prior hostilities ROK repeatedly requested aid to carry out project on which considerable work had been done by ROK. Installation completed March 31, 1950, of first step to permit topping still operation of crude oils according to ROK. Petroleum economic, engineering and production facts not clear and controversial viewpoints existed between ECA and ROK. Both felt need of more expert analysis whole situation. Estimate four to six weeks in Korea and Japan adequate for survey. Job requires one expert in petroleum economics and one in engineering and technical production. Refinery site freely accessible now and **expected** remain so. Suggest ECA/W determine availability such experts from Government agencies such as Bureau of Mines and Oil and Gas Division of Department of Interior, and make earliest arrangements for services to have results available when hostilities **cease**. ECA/WLD/fwr
15 September 1950
No. TOECA 549

~~RESTRICTED~~

FROM: CINCFE TOKYO JAPAN

TO : ECA WASHINGTON DC.....ROUTINE

This is TOECA Nbr 54949 September 15. Re ECATO 362.

Subject is SCAP/MITI Cotton Loan. This message in four parts.

Part I. SCAP/MITI understanding additional quantity M.S. 7/8 required balance account should be determined basis 8 February 10-spot market average of 31.65¢ less 529 pnts off per 13 June market discounts. This in view Part 3 ECATO 212, though all other price computations used in settlement including cotton originally loaned were based on 13 June 10-spot market average of 34.01¢ less points off as per 13 June market discounts. This premise increased quantity M.S. 7/8 still due to 28,817 lbs. from 26,449 lbs. as reported TOECA 442.

Part II. Mission does not concur SCAP/MITI interpretation as pricing basis to determine money value credit for the additional quantity due would be different from that used in determining money value originally owed for cotton loaned. Through misunderstanding it was believed that SCAP/MITI had concurred in pricing basis on which the 26,449 lb. quantity was determined when TOECA 442 dispatched.

Part III. Further study of settlement basis shows money value credit given for the 965 bales MSS 15/16 previously turned over to SCAP/MITI is figured at 556 pnts off of 13 June 10-spot market average of 34.01¢ which does not balance out the debit for the 1000 bales LM 15/16 it was intended to replace.

Part IV. In view above, recapitulation of settlement to date being forwarded your concurrence before authorizing delivery of any balance referred to Part I. End signed Anderson.

B

14 Sep 50

FROM : STATE DEPT

TO : DA, SCAP (USPOLAD) (BUNCE ECA)

DECLASSIFIED PER TA6820374

NR : 140432 Z (SENT TOKYO ECATO CIRCULAR 132 SEPT 13, 9 PM)

Under the terms of a memorandum approved by the President simultaneously with the issuance of an executive order under defense production act of 1950, ECA is designated as claimant agency for the materials and facilities required for export to countries in which the ECA has a program. (Documents pouched to you). Therefore, ECA/W must be prepared when controls are initiated to present to the officials authorized to issue priority and allocation orders its claim for materials and facilities essential to the recovery program, the AMP portion of the MDAP Program as well as for free dollar procurement.

The extent of information required to justify these claims will vary according to the scarcity of the material supply. It is anticipated that some of the non-ferrous metals and certain forms of steel may in the near future be made subject to export quota and later to firm allocation. In the event that allocation procedure is adopted, then undoubtedly detailed end use justification will be required. Such materials will require specification of tonnages by calendar quarters with estimates to be submitted for a series of 4 quarterly periods the first of which (which may be the first quarter of 1951) to be firm and the following quarters to be subject to revision and firming up quarterly. You will be advised soonest on these.

For other materials it may be decided to employ only a single

FROM : STATE DEPT NR : 140432 Z 14 SEP 50 CONT'D

band priority rating applicable only to the supply of materials as required by military or AMP purchase orders. In certain instances, it may follow that the volume of defense requirements will thus reduce US civilian availabilities to the point where they merely meet US current civilian demand. In such cases, ECA/W will be faced with the problem of justifying a foreign civilian recovery program which would call for some curtailment of supply to the US civilian economy and obviously the most convincing proof of foreign need must be presented to justify such curtailment.

Unless otherwise recommended, it is our present thinking that the existing ECA procedural pattern should be followed in presentation and justification of each country's requirements for selected materials within present broad programs namely, that the statement of requirements be presented to the ECA country mission at the same time it is forwarded to the Foreign Mission in Washington for presentation to ECA/W and that the ECA/W and that the ECA Missions abroad cable their comments to Washington in a manner similar to that applying to 202's but requiring closer scrutiny and probably more detailed comment.

It may be that a number of the countries will prefer to employ ECA financing for the most essential commodities, thus utilizing ECA and PC procedural controls. Your comment requested on this point.

This mere outline is submitted for information and comment of ECA Missions and OSR.

INFO: AMEMBASSY PUEBLO.....ROUTINE

CX62983

This is TOECA nbr. 515 and CIVKOR 29 September 13.
Re ECATO 316 (KORCIV 11) and ECATO 325 (KORCIV 13). Subject is coordination
of Non-Military Assistance to Korea.

Both messages received here 30 August and ECA staff meeting
discussions held 31 August. September first informal talks same subject
with HSW, G-4, and ESS. On September second after issuance of General
Order Nbr. 5 establishing HSW as section under Unified Command, conference
was held General Sans presiding primarily concerning KORCIV 11. In
coordination with Army and interested agencies it was determined no reply
to KORCIV 11 was necessary. However HSW transmitted CIVKOR 17 dated
September third which referred to message. Further joint meeting ECA, G-4,
ESS, HSW on Tuesday September fifth developed concurrences all agencies in
Tokyo with both KORCIV 11 and 13. CIVKOR message was then despatched Korea
to secure concurrences EUSA, Muccio and agencies Korea. Apparently due to
transmission difficulties there was delay in receipt KORCIV 13 in Korea.
EUSA now has copy and reply to our message is expected today or tomorrow.
UN representatives and other interested agencies in Tokyo have been instructed
emergency relief requirements must be submitted through Unified Command channels.
Anticipate ROK will be advised by Muccio. Replies were made to KORCIVs 14, 15,
16, 17 and 18 on September eighth and ninth. Delay caused by establishing
procedure for replies to KORCIV messages. This is interim reply only. Official
reply to KORCIV 13 will follow when comments received from Korea. This message
coordinated with G-4. End signed Anderson.

This is TOECA 516. Subject: Personnel Recruitment.

B

Mission urgently requires for Requirement Division person to establish, maintain and control records to accurately reflect status of purchase requests and procurement authorizations in collaboration with Controller. Must be able to analyze all materials in pipeline and estimate ship arrivals. In addition prepare procedures for coordination ECA budget requests and for requirements estimates submitted by ROK. Act as liaison officer with ROK, FSS and segments of Mission relative to specific requirements. Perform miscellaneous duties such as drafting and replying to cables requesting information on status of purchase requests and expected requirements.

For this proposed position (KOR-89) FSS-4 Mission recommends appointment by transfer of Leslie Fickett presently FSS-7 with State-JAS. Fickett performed in an excellent manner while Acting Chief Personal Services Branch, Seoul, and has been recommended by JAS to Department for termination or reassignment. Since Fickett interested and available request his personnel file at State be reviewed and clearance obtained from State for his appointment at FSS-4 for immediate journal action here. Information here is that Fickett's previous earning and experience record will support grade requested. Please reply by priority cable.

This is TOECA Nbr 499 September 12.
Subject is personnel. Re para 7, TOECA 398 and ECATO 373.

1. ECA/W may assume that Acting Chief Mission has exhausted available measures for retaining key personnel, including those suggested urad, before accepting resignation or agreeing to transfer. Despite these endeavors many key people have resigned. Attention invited to greatly reduced staff Requirements Division which now consists Eskildsen, Don Carroll and Warnecke in Tokyo and Falk in Pusan, plus clerical personnel assigned as available. Difficult to carry on heavy work-load this division without more qualified personnel. To meet emergency we assigned Thorn and Nottingham temporarily to assist on requirements. This arrangement not satisfactory since men unfamiliar with work and find it difficult generate required interest and enthusiasm. Nottingham to-day reassigned back to Marine activities with Ritchie. Carroll has shown little interest in requirements work other than petroleum. Back-log accumulating and quality of work likely to deteriorate. Mission cannot function effectively without competent requirement analysts. Urgently request Johnson give consideration this situation before departure. Similar situation prevails Program Review Staff.

2. Nottingham, Meschter and Barbara Scott somewhat reluctantly agree to withhold action on resignations and transfers until after review as indicated urad. End signed Anderson

This is TOECA Nbr 493 Sept 11.
Re ECATO 345. Subject is FY1952 Budget. This cable in 3 parts.

PART 1. Mission will undertake l-line estimates as requested and forward by cable.

PART 2. Mission unanimous in judgment that nature and magnitude of reconstruction program resulting from devastation of war and of economic rehabilitation in view of intrinsic poverty of Korea require major change in Enabling Act and ROK Aid Agreement. Suggestions will follow. Tentative judgment pending end hostilities is that cost of reconstruction essential installations and facilities destroyed by war will far exceed pre-hostilities ECA annual aid. Budgeting will proceed on assumption that war damage to immediate necessities for livelihood such as shelter, clothing, food, farm equipment, medical facilities, public facilities necessary to education, health and welfare will be repaired largely by community efforts of Korean people with such assistance as other countries contribute and with minimum ECA aid and that rehabilitation and reconstruction other areas of economy will proceed under terms of amended legislation within limits of absorptive capacity of economy. Budget also assumes that United Nations Armed Forces will leave Korea all fixed installations required in prosecution of war in addition to replacing substantial part of ROK equipment used in course of war.

PART 3. Suggest changes in assumptions stated Part 2 urtel as follows:

AA. Suggest assumption unification of all Korea within near future in conformance with UN objective. This assumption necessary to establish realistic goals for economic rehabilitation to be achieved after FY1952 in many segments of economy such as coal mines, power and chemical industry.

EE. Our understanding of acceptable arrangements for domestic financing includes revised legislation and Aid Agreement to permit waiver of long term financing of counterpart deposits on substantial portion of aid goods used in enterprises which are not immediately revenue producing. Proceeds from sale ECA fertilizer, raw materials, salt and other consumption goods should equal won requirements to implement rehabilitation and recovery projects.

Sept 11. SITREP 47, Sept 8, 9 and 10.

Personnel: Dr. Anderson returned from Korea Sept 9.

Administration: KORCIV cables not ordinarily answered as promptly as other communications due necessity for coordination in writing with two other agencies.

Requirements: Revised program for 1951 requirements cleared with CIA, United Nations Command and three copies forwarded by them to DA G-4. Ten copies forwarded to ECA Washington by this office Sept 10 via air mail.

Revised estimated on rolling stock for railroads indicate costs will total approximately 4.5 million. PA already issued for 3.2 million not sufficient and request for additional funds to cover difference may be expected. Emergency PA 89-1000 now shows unexpended balance of about \$470,000. Requirements of emergency nature still being presented in large volume and it is anticipated that additional funds will be needed.

General: Harold Lady, recently resigned as advisor to President Rhee, states he is considering remaining in Tokyo to open public accounting office. End signed Anderson

DECLASSIFIED PER TA6820374

INFO : DA (OAFE)

NR : 090830 Z (ECA SRL NR ECATO 373, SEP 8, 8 PM)

Reference: TOECA 429, 446, 452, 460, ECATO 188.

Subject: Release of Personnel.

ECA/W aware of manifold problems Mission facing in requests for transfer and resignation of personnel during interim emergency period when both organizational pattern and individual assignments remain unsettled and in many instances unsatisfactory. Wash deeply concerned, however, over continuing loss of key personnel whose services not only valuable in present emergency but essential to future efficient operation of Mission Program.

Implementation of a future sound rehabilitation and recovery program in Korea can only be accomplished by a well-integrated staff possessing both the calibre and experience of our remaining personnel. An further loss of trained employees will militate seriously against the balance and success of the future organization.

To off-set increasing morale and personnel problems Mission is encountering ECA/W strongly urges following 3 steps be adopted:

(1) That acting Mission chief personally and individually urge each member of staff who is contemplating transfer or resignation to hold such plans in abeyance at least until review of organization and program referred to in ECATO 188 is completed. This will permit a sound evaluation by the Mission and ECA/W of the needs for each individuals services and a concomitant review by the employee of his interest in remaining with Mission in terms of his future assignment or revised staffing plan. It is hoped that proposed program may be reviewed by Sep 30 and sufficient period will be granted then for employees review and decision.

Govt expense travel will be authorized those wishing to resign at that time.

(2) That every effort be made to determine reasons for dissatisfaction with present assignment or other morale factors leading to resignation. Where present assignments are proving temporarily untenable and reasons cannot be overcome strongly urge detail of employee to other temporary duties such as Nottingham's Use Requirements Division mentioned TOECA 446.

(3) That employees be assured revised staffing plan and consequent reassignment of duties will envisage maximum use of capabilities of present staff. ECA/W confident future organization and program will offer tremendous challenge as well as the practical opportunities for increased responsibilities created by the establishment of a new operation.

In line with above suggest Nottingham, Meschter and Barbara Scott be urged to reconsider request for immediate release. All reports past services Nottingham indicate exceptionally qualified assume greater responsibilities in new organization and ECA/W believes his continued assignment to Mission most effective utilization his capabilities by agency. If Mission feels any these employees or future cases requesting release unable make satisfactory performance or other factors not previously mentioned, request reasons be specifically stated in cables requesting ECA/W concurrence.

September 8. Re TOKYO 331 (KORCIV 14). Subject is Offers by UN Member States. This radio in three parts.

Part I. Unable indicate phasing offered requirements at this time. In general medical supplies required immediately. Food in increasing quantities can be used beginning this month. Prefer indicate delivery against each individual firm request as received.

Part II. Recommend acceptance sulfa drugs and procaine. Do not recommend acceptance opiates (narcotics), sedatives, stimulants, and dicumarol. Narcotics in general use Korea are synonymous with Japanese narcotics which are available immediate procurement or may be manufactured in minimum time. Such narcotics made to standards established 5th edition Japanese Pharmacopoeia and world standard acceptable. Necessary maintain rigid control narcotics to prevent illicit use and assure quality. Any accepted as donations would have to be reanalyzed, repackaged, and relabeled before being usable Korea. Expect to distribute opiates through U. S. Army channels for Korean civilian and military population until ROK strict control available.

Part III. Soap and rice acceptable. Vaccines not required at this time and when procured must meet acceptable standards. Believe difficulties encountered in transporting biologics from other countries would enhance deterioration rendering unsatisfactory for use on arrival Korea. End signed Walker.

1. Recommend Vada Dodge Boucher (formerly FSS-8) for KOR-91, Analyst, FSS-8. If position abolished recommend reinstatement. Her previous experience in Korea particularly valuable for Requirements Division. Requirements Division key segment of Mission under present operations. Mission now detailing personnel from other divisions in order keep Requirements staff at workable level. If Boucher cannot be employed KOR-91 suggest temporary appointment to KOR-90 until appropriate position can be established.

2. Recommend transfer Clarence Eskildsen to KOR-83, Director, FSS-2. Transfer arranged by Mission before invasion. Eskildsen especially qualified this position due previous experience with Dept. of Agriculture.

3. Recommend transfer Howard Gaetz FSS-3 to unnumbered position, Acting Chief FSS-2, Mechanical Industry Branch, Industry and Mining Division. Believe well qualified for position due broad background in industry. Transfer promised pre-hostilities.

4. Request priority reply. End signed Walker

SITREP 45, Sept 6.

DECLASSIFIED PER TA6 820374

Power: Power vessel DE 699 now in Yokosuka. ECA Strauss checking today to determine materials needed to connect with system at Pusan. ETA Pusan Sept 15. Received Toyo Babcock Company recommendations for rebuilding Pusan steam power plant. Have requested this company to provide estimate of cost of repairs and number Japanese technicians needed to supervise work at Pusan. Approval SCAP for use Japanese nationals has been secured.

Personnel: Dr. Anderson departed Pusan today for approximately three days.

Requirements budget: This document for FY 51 now mimeographed and being hand carried through CINCFE G-4, Public Health and Welfare, and copies to be airmailed soonest after concurrence.

Procurement: ECA Lindeman reports from Pusan two refrigerator plants need supplies and repair parts to increase output approximately 40 percent. Procurement in process.

Request for 2,000 metric tons rice for immediate shipment to Korea received from Public Health and Welfare. This to be shipped from total amount to be borrowed from Japanese government. They also request medical supplies for basic treatment of 1,500,000 people for 30 days plus urgently needed vaccines. Procurement in process.

Conclusions reached in discussions with United Nations and Public Health and Welfare authorities that all medical supplies procured or contributed by UN member nations or other agencies should be sent to Japan for storage, repackaging

This is Toeca No. 452 Sept 5.

Ref Ecato 353 Sept 1. Subject: Resignation of Personnel.

Request ECA/W amend Ecato 353 to authorize Mission to complete written agreement to effect that if employee will remain after Sept 26, ECA will provide return transportation at Government expense until December 1 unless position abolished sooner.

Believe this request necessary to prevent further resignations. Discussion with Army has indicated no improvement in billeting likely. End signed Anderson

(PASS OSLO, STOCKHOLM), AMEMBASSY COPENHAGEN, AMEMBASSY ROME,
AMEMBASSY ATHENS, USPOLAD TRIESTE, AMEMBASSY MANILA (PASS
BANGKOK) (BOOK MSG)

NR : 020440 Z (BOOK MESSAGE) (ECATO Cir 131 1ST)

Following explanation of Amendment 5 has been

prepared by Price Br for release to PC representatives in Wash.

1. Amend 5 to ECA reg I which was publ on Aug 24, 1950 amends
Sec 201.22 (D) (4) of that regulation and deals with maximum prices
for petroleum products with particular reference to shipments from
the Middle East. Amendment does not apply to crude oil prices.
The amendment will apply to all lifting beginning Sep 15, 1950
regardless of any existing contracts.

2. The Amendment states that a price for a petroleum product
purchased from sources other than the US will be eligible for ECA
financing if in addition to complying with the requirements of
Sec 201.22 (E) (2) of ECA Reg I it does not exceed the lowest
competitive market price in the US with the following qualifications:
Middle East prices (the realized FOB price or realized Netback)
for petroleum products may not exceed the aforementioned US price
less \$3.50 per lton for loadings from Arabian ports or Bahrein
Island. \$4.00 per lton for loadings from Kuwait ports, \$4.20 per
lton for loadings from Iranian ports. These reductions apply to
all shipments except those to NW Europe, UK and Scandinavia.
On shipments to the latter destinations prices are to be further
reduced as follows:

(over)
ROUTINE
UNCLASSIFIED

36072

UNCLASSIFIED
ROUTINE

FROM : STATE DEPT NR : 020440 Z 3 Sep 50 CONT'D: - - - -

Port of Destination:	Additional Reductions:
Incl and between Bordeaux, Hamburg and the United Kingdom	\$0.85.
Sweden	\$1.15
Denmark	1.25
Norway	1.35

3. The above price limitations affect only the FOB source or Netback price of petroleum products.

4. The action was taken by ECA to limit prices eligible for financing to levels which could properly be considered as approximating the lowest competitive price in the supplying market. The Amendment substantially eliminates the discrimination existing between the lower FOB prices charged on shipments to NW Europe, UK and Scandinavia (herein referred to as "most distant countries" and the prices charged FOB Middle East on shipments to other countries. For example, prior to the Amendment, Arabia and Bahrein suppliers charged FOB prices of the low of Platts (equivalent to the US market price on shipments to Greece and Turkey and they charged the low of Platts reduced by amounts ranging from \$4.35 to \$4.85 per lton on shipments to the "most distant countries".

5. The Amendment establishes as the max price eligible for ECA financing the US market price less for example \$3.50 per lton on shipments from Arabia and Bahrein to all destinations except the "most distant countries". This reduction of \$3.50 is the same as the allowance which has been historically granted by the supplying companies in Arabia and Bahrein on shipments to the area known as the Portugal, Gibraltar and Casablanca Range. In view of the fact that Portugal, Gibraltar and Casablanca are the limits of the marketing area West of Suez which is predominately supplied by the Middle East, it has been decided that ECA should not finance Middle East shipments at prices exceeding prices charged on shipments to Portugal, Gibraltar and Casablanca. With respect to the "most distant countries" the prices historically charged for shipments from Saudi Arabia and Bahrein Island reflected reductions of \$4.35 to \$4.85 per lton. The Amendment recognizes these historical reductions by requiring that on shipments from Saudi Arabia and Bahrein Island to the "most distant countries" the reduction of \$3.50 per lton be supplemented by the further reductions listed above in Para 2 for example on a shipment to the UK, the US price would be reduced by \$3.50 and additionally reduced by \$0.85 making a total reduction of \$4.35.

ROUTINE
UNCLASSIFIED

36072

INCOMING MESSAGE
UNCLASSIFIED
ROUTINE

FROM : STATE DEPT NR : 020440 Z 3 Sep 50 CONT'D: - - - -

6. The Amendment also reiterates existing policy that ECA will not finance:

(A) Shipments procured from sources which result in a delivered cost to a participating country which is in excess of the lowest prevailing delivered cost from any alternative source of supply from which the commodity is available for export in sufficient quantity on the date of lifting.

(B) Shipments from sources other than US priced higher than the lowest competitive market price in the US on the date of lifting.

7. Eligibility for ECA financing under Para 6 (A) above will be determined in the following manner:

(A) Sales in which the supplier or an affiliated company provides freight payable in US dollars the sum of the FOB price plus the ocean freight charged will be compared with the sum of the eligible FOB price from the alternative source of supply plus lowest competitive transport cost from the alternative source to destination.

(B) All other sales, the sum of the FOB price charged plus lowest competitive transport cost from actual source to destination will be compared with the sum of the eligible FOB price from the alternative source of supply plus lowest competitive transport cost from alternative source of destination.

8. The low quotation of Platts oil gram will be accepted by ECA as the lowest competitive market price in the US so long as it continues to reflect this price.

DATE: 2 SEPTEMBER 1950

NO:

FROM: CINCPAC TOKYO JAPAN

TO: ECA WASH DC ROUTINE

[c-61909] This is Toeca no. 444 September 2.
Subj: Korean Power System. This message in three parts.

Part 1. Reference Scato 308 and 318, and Toeca 391, following comments made your recommendations:

(a) Army requested Pusan Steam Plant be converted to oil fire. Study by Strauss and Toyo Babcock Engineers indicate conversion not feasible. Condition of plant does not justify purchase of additional boiler. Investigation indicates that plant can be patched up for two year operating period.

(B) Mokpo area supplied through series of 7 substations which must be replaced before service from grid is available. With only source of generation at Pusan, distance over grid to Mokpo is 300 miles. Thermal plant at Mokpo necessary to supply energy during first two years of rehabilitation and to supplement output from hydro plants in that area when restored to service.

(c) The purchase of 10,000 kw of Diesel capacity was recommended for the following reasons:

(1) Army's assumption that all retaken areas will have no generating capacity due to scorched earth policy.

(2) There will be great need for power supply in major cities like Taejon, Taegu, Chonju, Chonan, Chungju, long before extensive repairs can be made to transmission system. In some cases, six months to one year will elapse before power from grid system can be furnished for water pumping, communications and essential loads.

(d) Recruitment of personnel for Power Division, Mission Staff, will be discussed at later date.

DECLASSIFIED PER TA6820374

~~SECRET~~

Page 1 of 2 pages.

5

SD 070349 *Rekins*

~~SECRET~~

FROM: CINCPAC TOKYO JAPAN TO: ECA WASH DC ECA/VSM/MTT 2 SEPTEMBER 1950

Part 2. It will not be possible, with present capacity, to transmit power north of Taegu as all generating capacity now available or contemplated for Pusan is for loads in that area. Present load 19,000 kw. Power Barge Impedance will not be available before 1954. Therefore, it will be desirable to build an additional thermal electric plant in Pusan area. A 30,000 kw plant will take 18 to 24 months to complete. Suggest considering Samchok Plant design be adopted to new site in Pusan area.

Part 3. Request travel authorization soonest for Vincent Madison to Washington, 7 days tdy, for consultation power facilities in ROK. End signed Anderson

This is TOECA no. 443 Sep 2. Re ECATO 309.

Subject Cotton.

Increased power available from Jacons, recent surveys by Mission personnel in occupied area, recent population data by areas from ROK, locations and capacities of Korean cotton mills and approved rollback schedule are bases for following new data regarding raw cotton requirements.

Proposed barter arrangement to make cotton sheeting in Japan from Korean cotton abandoned since power availability is improved.

Answers to questions in ECATO 309 are: first, daily rate raw cotton consumption now in occupied area -- 70 bales per day. Second, estimated number bales that will be consumed in this area and in recovered area in next six months:

September	2,000
October	3,000
November	4,000
December	4,500
January	5,000
February	6,000

Third, estimated number of bales of cotton on hand in presently held area Sep 1 -- 2,600 bales; fourth, estimated number yards cotton cloth to be obtained in Japan for use in Korea from Korean cotton -- none. Fifth, estimated total number yards cotton cloth needed for distribution in presently held area for Sep and each following month through Feb is 4 million yards per month. Following table shows estimated cotton cloth requirements in millions of yards in areas now held and expected to be recovered in next six months:

September	4.0
October	4.0

no significant external interference with econ rehabilitation and reconstruction.

BB. Post-ECA post 1952 foreign assistance for two years minimum to finance projects. Objectives of FY 51, FY 52 and post-ECA aid continue to be establishment of viability of Korean Econ and Balance in imports and exports.

CC. Substantial fulfillment of strategic and Econ assumptions, stated Aug 24 for FY 51 and TORCA 380 (CIVKOR Nbr 11). Assumption cost of major surveys of damage will have been met out of FY 51 funds.

DD. Substantial coverage of such of these FY 51 rqmts as actually become firm, through financing from all sources, and firm determination, ECA rqst supplemental FY 51 ECA appropriation if necessary.

EE. Effective distribution and utilization of import supplies and services financed during FY 51 as they are delivered during FY 51 and FY 52, with acceptable arrangements for domestic financing.

FF. Maintenance of ROK foreign exchange holdings and acquisitions through FY 51 without major expenditures for required civilian supply imports, but normal utilization avail ROK exchange in FY 52 along lines prehostilities principles and policies.

GG. Reconstitution of ROK administrative apparatus and exercise of control over economy during FY 51 at levels of efficiency not below those prevailing prior hostilities, but with increased provision of foreign technical assistance in public administrations, technical skills, organization and operation of industrial and public enterprises.

HH. UN contributed support during FY 52 to consist primarily of health and welfare supplies and limited technical services in these and other fields.

Part 3. In preparing estimates by broad categories under major activities per Part 1 above, rqst mission take into account following factors:

AA. Magnitude of continuing need, if any, for food imports in first half of FY 52.

This is TOECA no. 438 Sept 1.

SITREP 42, Aug 31.

DECLASSIFIED PER TAG 820374

Procurement: All August funds encumbered. Mission holding several requests for spot requirements but purchase requests will not be processed until return ECA budget team from Korea permits reevaluation these requirements.

Meeting held with W. P. Kim, Korean Office Supply, on President Rhee's proposal that Korea assume procurement with ECA funds. Kim reorganizing Pusan office with 6-8 persons for won procurement indigenous commodities and placing 4-5 persons Tokyo for procurement with ROK dollar funds and possibly for pilot procurement with ECA funds in order gain experience.

Meeting held with Army regarding establishment coordinated procurement program for cross ties including some bridge ties. Army obtaining 460,000 from Japan with first shipment in few days and completed delivery by Oct 15. FSS has already contracted for procurement 342,000 cross ties for Korea from Philippines, delivered to begin October except for 14,000 now enroute.

Korean organization: Harold Lady, economic advisor President Rhee, informed Mission representative his contract expired midnight Aug 31. Not yet known whether contract will be renewed.

Power: Power Division arranging obtain parts and supplies in accordance list of needs Pusan steam plant brought by Strauss from Pusan.

Budget: ECA three-man budget group achieved concurrence and ~~agreement~~ agreement in Pusan on alterations and recommended changes which will increase overall 51 budget ~~\$20 million to \$250 million~~. Changes involve reduction procurement fertilizer and cement owing lack transportation and distribution facilities and increase in industrial equipment items of less bulk but relatively higher value; welfare items also increased.

This is TOECA nbr. 139 September 1, info to
Wuado. Subject is Cement. Re ECATO 286. This radio in three parts.

Part I. Cement contracts entered into under PA 89-640-88-6019 total
50,991 M/T; final shipment reached Korea 14 April 1950. Cement contracts
under PA 89-640-88-6023 total 6,856 M/T; final shipment reached Korea
10 May 1950. Cement contracts under PA 89-640-88-6217 total 90,570 M/T,
of which 3,306.5 M/T arrived Inohon 25 June 1950; 6,643.5 M/T stockpiled
at Moji, Kyushu, Japan. Also will stockpile additional 23,356.5 M/T in
Japan. Remainder of approximately 50,630 M/T will remain undelivered
under the contract until called forward by ECA. Request concurrence this
action.

Part II. FY 1951 program, as yet not approved, contains total re-
quirement 222,000 M/T cement.

Part III. Quantity on hand and to be delivered not in excess of
requirements. Expect call forward to Korea of stockpiled and remaining
contracted amount within three months at about 30,000 monthly. End signed
Anderson.
