31 March 1946

FROM: SCAP

TO: WARCOS PRIORITY 310719

Concur in procedures outlined in W-81333. Will permit Japanese repatriating from Canada to bring in personal effects, yen currency, yen securities, yen obligations, evidences of property in Japan, Canadian receipts identifying individuals entitled to yen remittances, and receipts of unliquidated property held by Canadian enemy property custodian, as passed by Canadian authorities at port of embarkation. Jap repatriates normally permitted to bring in personal effects, any combination yen currency, Jap Government bonds and exchange certificates up to 1,000 yen, personal jewelry of value to owner, insurance policies issued by Japanese companies, Japanese bank deposits and postal savings books. Consider reasons for not permitting repatriates from other areas to bring in valuable jewelry, Jap securities, evidences of ownership of property in Japan or of obligations of persons in Japan not applicable to Canada. Remittance procedure similar to Urad WX 95166 satisfactory. Will arrange here for payment of yen at port of debarkation in accordance with schedules received, subject to Japanese currency regulations, and to furnish Canadian Government evidence of receipt.

WAR 94766 REF

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

MEMO FOR THE RECORD:

1. Washington radip W81333 states that Canadian Embassy, Washington, has informed the State Department that the Canadian Government desires to permit Japanese being repatriated from Canada to repatriate the value of their properties in Canada. The embassy has inquired as to the procedures to be followed to effect such repatriation.

2. The embassy has been informed that Japanese repatriated from Canada will be permitted to bring into Japan personal effects including household furniture and jewelry, yen currency not in excess of 1,000 yen and Japanese bank deposit and postal savings books. This is in accord with existing SCAP directives except that Japanese repatriates from other areas are only permitted to bring in jewelry in the category of personal trinkets of value only to the owner. This latter restriction was imposed to prevent the return to Japan of looted property. It is considered that this restriction may be waived in the case of repatriates returning from Canada.

3. The embassy was also informed that it was believed that SCAP would permit the entry of Japanese securities and evidences of ownerships of property in Japan or of obligations of persons in Japan. Such items are not permitted entry under existing directives with the exception of a limited amount of Japanese Government bonds, Japanese pass books and insurance policies. The reason for this restriction of rights is to prevent the repatriation to Japan of rights over property in Japan which may have been obtained by duress or other illegal means from persons abroad. This reason does not apply in the case of property of Jap nationals in Canada which the Canadian Government proposes to release.

4. The embassy was correctly informed that foreign currencies and other non-Japanese foreign exchange instruments and evidences of ownership of external assets would not be permitted entry to Japan. Paragraph 5 of radio W-81333 states that repatriates will be screened to remove such items before they leave Canada. This procedure is in line with processing of repatriates returning from other areas.

5. Principal problem raised by Canadian Government is procedure for repatriating proceeds of liquidation of Jap property in Canada. Canadian embassy has been informed that U. S. Government will accept dollar equivalent of proceeds of liquidation on behalf of SCAP for deposit in SCAP account in U. S. Treasury. This account was established in response to SCAP request for facilities by which benevolent remittances could be made from the United States to Japan and Korea. Procedure, involving deposit of dollars in Treasury and payment of equivalent yen at military rate here by the Bank of Japan, was described in Washington radio WX 95166. Jap government has received instructions to open an account in Bank of Japan for making payments to remittees here. Dollar funds in the SCAP account in the Treasury may be used to pay for imports to Japan.

6. In essence same procedure would be used for repatriating investments of Japanese repatriates in Canada as has been adopted for benevolent remittances. At time Canadian Government receives the proceeds of liquidated property the Japanese repatriates will be given a receipt which will entitle him to receive a yen remittance. Amount of yen each individual is entitled to receive will depend on U. S.-Canadian and U. S. dollar - yen exchange rates in effect at time US dollars are deposited in SCAP account. Canadian dollar is now 90.5 U.S. Canadian Government will furnish schedule specifying names and amounts of dollars allocated each repatriate. WD will forward schedules to SCAP which is to instruct the Bank of Japan to make payments in yen at military rate of conversion which is in effect at time dollars are deposited in SCAP account. It is suggested that such out payments to repatriates be made at ports of embarkation. If payments in yen exceed amount persons may draw in cash under Jap financial ordinances, balance may be held in blocked accounts.

7. Washington radio W 81333 recognized that proposed procedure provides more liberal treatment for repatriates from Canada than from other areas. Procedure is approved by State, War and Treasury on ground that:

a. A United Nation has right to Jap property within its area (See Washington Radio WX 87118) and can remove such claim if it wishes.

b. Dollar proceeds of liquidation of Jap property may be used to pay for imports to Japan.

8. It has not been considered advisable to require the Japanese to compensate their nationals for property left abroad in view of financial burden imposed on the Japanese Government and in view of that policy established in Washington radio WX 87118 which says such reimbursement is responsibility of Japanese Government. Japanese Government has been consulted on the Canadian proposal and raises no objection to compensating repatriates from Canada in full equivalent yen value of dollars deposited in SCAP account. Reasons for position is attitude of Canadian Government in compensating Jap owners for property taken over in Canada and further fact that dollars in Treasury account may be used to pay for imports or other approved purposes. The Canadian proposal is therefore concurred in by this Headquarters.

9. Necessary instructions will be issued to the Japanese Government informing it of the arrangements and requiring it to furnish this Headquarters individual receipts indicating that yen payments have been made to repatriates at the military rate against dollars deposited by the Canadian Government.

10. The interests of USAFIK have been considered. This matter does not concern Korean areas.

11. Concurrence: G-3 (Lt Col Strauss) Verbal.

Items on Korea follow:

UP dispatch fr Walter Logan in Chungking states "An authoritative source said large numbers of Russian Troops were leaving Manchuria to reinforce the Soviet occupation garrison north of the 38th parallel in Korea. Some of the Red Army Forces stationed in Manchuria were returning to Siberia, this source said. But the reinforcement of the Russian Troops in Korea, coincident with the strengthening of the Dairen and Port Arthur garrisons, was causing concern in the Chinese Govt. . ."

Richard Johnston writes in today's New York Times "Soviet Military authorities in He'jo, capitol of the Russian Zone of Occupation, today refused to permit the landing of a United States plane bearing a msg fr Lt Gen John R. Hodge, Commanding the US Forces here, to Col Gen Ivan M. Chistiakov, Commander of the Russian Forces in north Korea. . ."

John Kennedy said over ABC yesterday "In Seoul, Korea Russian authorities refused to permit an American plane to land at Pyong Yang. Then were told its Anti-Russian even to report what the Russians do that is Anti-American. For instance, official Russian newspaper Izvestia charging today that Japanese elections must be postponed. These are the elections that Gen MacArthur has authorized. "In order to insure," says Izvestia, "The naming of a truly Japanese democratic cabinet." Now what do they mean by that? And who and what is Izvestia lecturing Gen MacArthur on Democracy? Again as the quaint old Russian phrase has it-Nutsy".

Ken Evans on ABC reported yesterday "In the Far East Korea has been notified that she had better hurry up and develop a modern economy. That advice comes from a 3 man American Commission making a survey of economic conditions in Korea. The Commission warned that unless the Korean economy is brought up-to-date, the country may sink back to a primitive level and become a land of farmers, woodchoppers and fishermen."

Mutual Network voice of Washington said yesterday "Across the world in Korea. An American official revealed this morning that Russian authorities have refused a request for an American plane to land at the Russian Occupation Capitol. The pilot was carrying a msg to the Soviet Commander from Lt Gen John Hodge the American Commander. There was no explanation for the refusal but to observers it seems significant in view of an atmosphere of bitterness and bickering which recently has surrendered meetings of the American Soviet Commission on Korea."

1. Nominations for students to attend the National War College are now being prepared by this Hq. Duration of the course is 9 months and is scheduled to begin 2 Sep 46. Qualifications of Air Corps and ASWAAF Officers will be as follows:

- A. Highest temporary or permanent rank of Lt Col, Col, General.
- B. Regular Army or category I (1)
- C. Minimum age for all grades 35 years.
- D. Maximum age for Lt Col 40 years and for others 48 years.
- E. Must be graduate of Command and General Staff School unless Officer has had considerable Command and/or staff experience.

2. Records of all RA Offs will be reviewed in this Hq and nominations submitted direct to TAGO. In order to insure that no RA ASWAAF Offs will be overlooked in making these nominations, a list of all RA ASWAAF Offs asgd to your Command who are within the prescribed age limits will be submitted to this Hq showing complete info outlined above, including length of time Officer has been under jurisdiction of your comd and present duty asgmt.

3. Since the records available in this Hq are not complete enough to insure proper selection of category 1 Offs it will be necessary for your Hq to submit complete info on qualified category 1 Offs (AC and ASWAAF) whom you desire to nominate to attend this course. Nominations for only those Offs who feel are qualified for the highest Comd or Staff duties will be submitted.

4. This info will be submitted so as to reach this Hq not later than 8 April 1946.

DECLASSIFIED PER *Is. ltr of 9 Jul 73*

With reference to inactivation of China Theater which is being directed by the JCS in a separate message and your CFBX 26553 not to allow needed an announcement proposed by General Marshall in a memorandum for the Secretary of State is here quoted for your information. This has not yet and may not be used by Mr Byrnes but you should use it as a guide for any publicity on the inactivation. Memorandum begins, "The so called China Theater of operations will be inactivated on May 1 next. As a result the only United States Forces, other than Naval, remaining in China will consist of those required to dispose of surplus US property, to complete assistance to the Chinese Government in the repatriation of the Japanese and in the movement of Chinese Armies and equipment and to participate in the operation of executive headquarters in Peiping which was established by the president's special envoy, General Marshall to implement the agreements he reached with the representatives of the Chinese Government and the Communist Party to terminate hostilities, restore communications, and effect demobilization and reorganization of the armies.

In anticipation of the inactivation, the US Army Forces have already been reduced by 60,000, that is by 90 %, and there are now no army combat units, either air or ground remaining in China.

The Marine Forces in China have already been reduced from about 53,000 to 34,000. The reduction in strength will be continued throughout the spring." Memorandum ends. You will be notified promptly if Mr Byrnes releases the above.

Being appointed by Secretaries of War and Navy is Joint Board to conduct survey for VHB deployment in Hawaiian Islands, with particular attention to use of Barbers Point Airfield. Army representation headed by Major General Willis Hale in place of Major General James E Parker formerly slated for that position. Now propose including on board Brigadier General Thomas D White, CG 7th Air Force, who could join board upon its arrival in Hawaii. Request your priority radio concurrence in naming White to Joint Board.

30 March 1946

FROM : WASHINGTON (DFAA 4880)
TO : USFET, USFET (PARIS), MED THQ CARIO NEW DELHI,
CINCAFPAC, CARR DEF COMD
NR : WX 82431

Reourads WX 87856 and WX 87726. Attention is invited to WX 87856 dated 10 December 1945, (WX 87726 dated 9 December 1945 to USFET Main and USFET Rear) and reports forwarded to War Department from respective theaters in response thereto.

In accordance with request of Treasury Department for information relative balances of foreign currencies to be held by the United States Army in the future, it is requested that an estimate be made of the total foreign currencies which will be held by the United States Army in foreign countries (broken down as to official, quasi official and personal funds) as of 1 July 1946. Theater replies to original War Department radio included LLSYTFU similar estimated balances as of 1 March 1946. Estimates of balances to be held on 1 July 1946 should take into account United States Army troop strengths as presently envisaged for the countries being reported on. Estimates for currency of the following countries requested:

- A. ETO-France, Belgium (Luxemburg), Netherlands, Czechoslovakia, United Kingdom, Denmark, Norway, Switzerland, Germany, Austria.
- B. MTO-Italy, Greece.
- C. AMET (Or residual Army Agency) - Algeria (TWDCMEA) Egypt, Morocco, French West Africa, Iraq, Iran, British East Africa, Thipolitania, Palestine, Arabia, Gold Coast, Turkey.
- D. Atlantic Wing ATC-Brazil.
- E. CDC-Argentina, Bolivia, Chile, Costa Rica, Columbia, Equador, Guatemala, Nicaragua, Paraguay, Peru, El Salvador, Venezuela, Honduras, French Guiana, British Guiana, Netherlands Guiana, Muracao, Arouba.

Reourad Mar WX 82130 this press statement will be released in United States by State Dept after notification Allied Govts reourad Mar WX 82130:

"The Department of State announced today that the Tokyo Branch of the National City Bank of New York would be permitted to reopen for limited operations solely related to the needs of the occupation. The reopening of a bank is essential for military reasons and this action should not be considered a relaxation of the general ban on the entrance of private business interests into Japan at this time made necessary by the lack of housing and food and by the generally unsettled conditions.

"The National City Bank Branch will not be permitted to engage in ordinary commercial banking activities, and to the extent that any yen earnings accrue to the bank, these will be blocked and subjected to the same disposition as accorded to assets in Japan of other American business concerns. In general, the activities of the branch will include:

"1. General depository for such public moneys of the United States as may be involved in occupation activities.

"2. Bank of deposit for members of the United States Armed Forces for accumulation of pay and allowances found excess to their local needs.

"3. Depository for yen proceeds of certain remittances of an Official nature after they have reached Japan.

"4. Depository for proceeds realized from local sales of civilian supplies introduced under United States Military authority into Japan.

"5. Safekeeping services for United States Military Forces and accredited personnel.

"Since the operations of the bank, it is recognized, could be performed by other American Banks with similar facilities, such banks prepared to operate in Japan under the same conditions as those prescribed for the National City Bank may make application to open or reopen branches in Japan. Similarly, since the Commanding Officer of the occupation forces of other Allied Nations in Japan may as a matter of Military necessity require non-commercial banking facilities for his troops, banks of other Allied Nations will be permitted to open or reopen branches in Japan under the same conditions applicable to American branch banks."

"For American banks authorized to open or reopen branches in Japan the State Department will arrange for the issuance of passports and the Treasury Department will issue licenses permitting communication subject to the following conditions:

"1. Such communication shall relate only to operations of the branch in Japan which are authorized by the Supreme Commander for the Allied Powers.

"2. The text of all incoming and outgoing communications will be submitted by the Representatives of the banks in Japan to the appropriate Staff Section of the Supreme Commander for the Allied Powers in Japan.

"3. In the event telecommunication facilities are utilized all messages from the United States to Japan are pre-paid in dollars and all messages from Japan to the United States are sent collect in dollars at the United States Terminal.

"4. All communications from the bank in the United States to its branch in Japan are addressed to the designated representatives in Japan in care of the appropriate Staff Section designated by the Supreme Commander for the Allied Powers in Japan.

23 DEC 57

Reurad 58426 American Council Voluntary Agencies representing U S Orgns interested in Japanese relief prepared to form new agency which would consolidate and ship supplies, bear all shipping costs and maintain liaison mission with you.

However as agreement could not be reached on all your recommendations request approval of following proposals:

(A) Distribution supplies through all local charitable agencies rather than Japanese Govt

American Council strongly feel this necessary on grounds such distribution in accordance with long-term objectives, proportionately much greater good will for American Institutions would be engendered thereby and present American support for such relief would deteriorate if distribution were to be made through Japanese Govt.

(B) Increase of liaison mission to maximum 5 persons deemed necessary to adequately represent divergent U S Orgns interested and because close supervision of distribution would be required for effectiveness due to relatively small amount supplies involved. Preliminary mission of this number would under your direction plan with local agencies and determine specific make-up of supplies. 1 of 2 individuals already in Japan would become members of mission and are in excess of total number. Later some individuals would be replaced to constitute membership of permanent mission.

(C) Begin shpmt with 200 tons per month as soon as practicable and stockpile in Japan until details of distribution are firm.

The following, received from the State, War and Navy Depts in reply to your CA 57441, is furnished for your guidance:

"This Government desires the repatriation of objectionable Japanese in the areas mentioned in ref telegram, but the interests of this Government do not warrant the furnishing of the necessary facilities for repatriation of all of these Japanese. No Japanese remain in Spain. The Canadian Government has already indicated its desire to repatriate 10,000 Japanese civilians and arrangements now being made for shipping space. Cuban Government desires repatriation of 200 civilians but will not undertake program until commercial shipping available. Inadvisable for political reasons to approach Argentina on question of repatriation beyond action already taken for repatriating 67 members of Diplomatic Corps.

"This Government is notifying the Governments of the UK (For the UK, British Guiana, and British East Africa), France, (For New Caledonia), and Australia of Japanese Government requests that necessary facilities be furnished for the repatriation of Japanese civilians within their territories. The US Government is recommending that if these Governments wish to undertake the repatriation of such Japanese, these Governments notify your Hq through Liaison Officers attached to your staff to facilitate the reception of repatriates. The Governments concerned have also been requested to inform the State Dept if they do not intend to carry out repatriation, such info to be forwarded to you."

The following amendment became effective March 15:
"SPA revised regulation 8, DTD Jan 3, 1946, entitled 'Foreign
Disposal' is hereby amended by deleting all of para 8308.16
(E) and substituting therefor the following: (E) consideration
for disposition of surplus property. (1) in general. Surplus
property may be disposed of for cash, credit or other prop-
erty.

(2) Disposal of surplus property for claims. Sur-
plus property may be disposed of in return for the settle-
ment of cancellation of any claim determined by any prop-
erly authorized Governmental Agency to be an appropriate claim
against the Gov't of the US, and for the settlement of which
appropriations exist; upon settlement, reimbursement will be
made from such appropriations in an amount equal to the claim.

(3) Disposal of surplus property for other property
or property rights. Surplus property may be exchanged for other
property, real, personal, tangible, or intangible, where this
course of action is determined by the Dept of State to be in
the best interests of the Gov't of the US. The property or
rights thus acquired may be disposed of by sale or by transfers
authorized by law, including transfers to the Gov't agencies
authorized to acquire such property and having appropriations
which can be charged with the value of the property so trfd.
Where surplus property is exchanged for property or rights
which are not appropriate for sale or transfer, the Dept of
State will be the Custodian of the Documents evidencing such
property or rights and will be charged with the responsibility
for any other Governmental Negotiations incident to the pro-

FROM: WASHINGTON, RADIO NR WCL 28447, 29 MARCH 1946, CON'T.

tection, enforcements or continuance of such property or rights. This amendment shall become effective March 15, 1946."

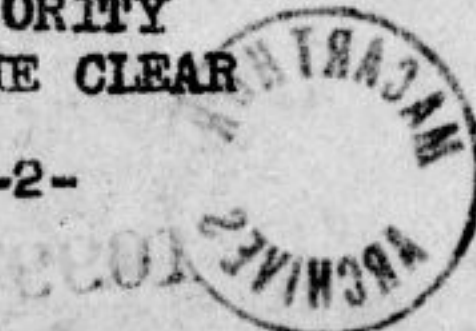

Under the new amendment surplus property may be disposed of to settle a claim which has been determined by the proper agency to be appropriate for settlement. This procedure will apply only to claims which the WD or other authorized agency could otherwise settle for cash. Claims which the WD or other departments of the Gov't are not authorized under existing law, to settle by the payment of cash may not be settled by transfer of surplus property.

The most immediate instance in which the new power to exchange surplus property for other tangible property will be utilized is in connection with a program of the State Dept to acquire improved and / or unimproved properties and improvements on properties including commitments to construct and rehabilitate building at the request of the US. This program is the responsibility of the Foreign Buildings Operations Division of the State Department and the Sec of State has instructed this Office to provide every cooperation in the acquisition of such properties. When programs are recd for particular countries these will be forwarded to you immediately and on the basis thereof you are free to work out with the Local Representatives of the Foreign Bldgs Operations Div or their designee transfers of surplus property for this purpose within the limits thereof. The properties to be obtained and the values to be placed thereon will be the responsibility of the Foreign Bldgs Operations Representative and you should ASDF:IKJJDJDJJ 421. Permanent transfer of the property to the State Dept will be made only after appropriations or other enabling Legislation has been passed. Meanwhile suitable arrangements can be worked out with Embassy for holding Title Documents in escrow under circumstances which would not complicate a subsequent sale of the property by FLC should permanent transfer of the property to the Department not be authorized. The nature, quantity and valuation of the surplus to be trfd will of course be your determination. In the event that specific properties have not been agreed upon between representatives of the Foreign Bldgs Operations Division and Representatives of the Foreign Gov't, you may, to the extent of any program recd by your for the acquisition. The contract should be so worded however as to create a clear obligation to pay for the surpluses in the event of the failure to arrive at an agreement as to properties to be transferred. Where credit agreements have

already been signed for surpluses already transferred which arrangements provide for accelerated payments in local currencies, the question of using such local currencies for the purchase of properties desired by FBO is a matter for which you as Field Commissioner have no responsibility. Under the new regulation other types of tangible property may be accepted in exchange for surplus, and we are presently requesting information as to any strategic materials desired by the Army or Navy for stockpiling which might be obtained in return for surplus property. Your comments are invited as to any other type of tangible property which you think we might possibly accept in exchange for surplus property which the State Department feels that surplus property can be advantageously exchanged for intangible interests desired by this Gov't, such as lending rights or a commitment to maintain operation of Navigational aids. Your suggestions as to other valuable rights which might be acquired in return for surplus are desired, as it is our desire to acquire intangible benefits for the US when such course seems to offer the best possible return for surplus.

Request you pass following to Secretary of Agriculture: "REURAD WAR

SVC 5405, this radio in 8 parts. Part 1. This confirms 1946 raw cotton requirements of 890,000 bales United States type or similar cotton, as outlined Telecons 5760 and 5776. No provision made in this estimate for normal carry-over end of year.

Part 2. Original schedule was 200,000 bales to arrive Japan by May. Your suggested schedule proposes only 100,000 bales to arrive May, followed by 195,000 bales to arrive June. The resulting initial month's reduction will present serious difficulty owing to negligible cotton stocks, and insufficient mixings in first shipment, unless 195,000 bales scheduled for May shipment can be assured. With this reservation, suggested shipping schedule is approved.

Part 3. It is important that distribution of grades of suggested revised shipments be in accordance with Telecons 5760 and 5776.

Part 4. Representative samples of first few shipments should be air mailed to assist working out appropriate blendings for allocation to mills. Many spinners not familiar with lowest utility grades accepted here and therefore desirable to examine samples in advance since it is proposed that Japanese accept American classifications without recourse. This procedure may eliminate need for re-sampling upon arrival.

- 1 -

~~CONFIDENTIAL~~

wch-44052-Sept 49-Refers

Page 2 - Radio to WARCOS, ESS-EX WFM/WTR/mr, 27 March 1946.

Part 5. Reasons for recommending Japanese acceptance of American classification and more particularly American port re-weights in Telecons 5760 and 5776 are

(a) inadequate number of cotton classers, and

(b) losses due to pilferage from bales which cause interminable claims and allowances and delay deliveries of cotton to mills. Advise action taken regarding recommendations in reference Telecons that official cotton controller be appointed to receive, unload and store cotton in Japan.

Part 6. Taylor of Textile Mission requests O.F.A.R. Agriculture submit promptly complete instructions as to their requirements for monthly cotton statistics from Japan covering stocks at mills, warehouses, at port and in transit as well as consumption reports, starting with first month's operations here.

Part 7. Fertilizer production in Japan being maximized with full use of all plants operable. Raw materials and fuel are limiting factors at this time, not repeat not plant capacity. More complete treatment of fertilizer production in Japan submitted in ourad C-59385 in reply to urad W 81033."

Part 8. Col. Harrison has seen and concurs.

Sir John MAFFEY has informed the US Legation in Dublin, Ireland that his Govt has expressed a desire for disciplinary action to be taken against the Japanese Consul General and Consul for their defiance of instructions. His communication suggested that with the cooperation of the Irish Govt, the Japanese Party be sent to England and there be interned.

The US Minister at Dublin stated that although he was in sympathy with the suggestion, the US Govt could not anticipate any assistance from the Irish Govt and that the German situation should be cleared up first. Sir John MAFLTY concurred.

The US Minister in a message to State Dept asked that verbatim copies of the last orders issued to Beppu by his Govt on SCAPS instructions be forwarded to the US Legation at Dublin. He has also requested that all previous orders and all future orders be transmitted to the US Legation at Dublin.

This is for your information only.

This is the 1st of a daily cable giving a press and radio coverage of the Korean Theater.

The following items on occupation of Korea appeared in press and radio during the past week. Dispatch from Seoul in papers on 19th said that "Dr. Syngman Rhee accused Russia of seeking to 'Communize our country' and announced he was resigning as chairman of the American-supported Democratic Council of Southern Korea...".

Morgan Beatty of NBC broadcast on the 20th that "Korea will forever temper her wishes to Russia's desires because Russia is a great power; and she will become a base for attack if the Russians have anything to do with them any more than we would consider allowing Cuba to be used in that way against the US so our General (Lt. Gen. John R. Hodge) avoided the facts; the Russian General stated them, but he also took the word Democracy for a tremendous ride—even the Russian kind of Democracy."

Richard Johnston wrote from Seoul in NY Times on 21st that "The 1st session of the Joint United States-Soviet Commission for Korea opened here. Col. Gen. Terenty Shtykov, Chief of the Soviet Delegation, declared the Soviet had a keen interest in seeing that Korea become 'A true Democratic and Independent country, friendly to the Soviet Union, so that in the future it will not become a base for an attack on the Soviet Union...' UP dispatch from Seoul in press of 23rd reported that 'Russian Forces are continuing to strip Northern Korea of heavy machinery and are transporting

IN THE CLEAR
INCOMING MESSAGE

WASHINGTON (BATTLE) RDO NR WCL 27985 DATED 27 MARCH 46 CONT'D:

similar booty from Manchuria through Korea to the Soviet Union, a Korean source claimed...".

Constantine Brown said in Washington Star last Saturday that "Col. Gen. Terenty Shtykov, Commanding Gen of the Red Army in Northern Korea, at his 1st meeting with his American Colleague, Lt. Gen. John R. Hodge did not hesitate to tell what his country's aim was in regard to Korea. He said that Russia wishes 'To see established in this country a true Democratic Government friendly to the U.S.S.R. so that in the future Korea will not become a base for an attack on the Soviet Union...' all doubt about the Russian intentions has now been dispelled. Soviet officials, regardless of whether they are in the armed or civil services, do not speak out of turn. There seems to be no question in the minds of American Officials that the Soviet General expressed the views of his Government when he stated bluntly what type of government Korea must have in the future."

Richard Johnston reported from Seoul in Sunday NY Time that "Getting off to an encouraging start, the Joint United States-Soviet Commission, meeting here in an effort to establish a Korean Interim Provisional Government as directed by the Moscow Decision, today issued its 2nd joint communique in which it was indicated that frequent and informative releases might be expected."

INS dispatch from Tokyo yesterday reported that "Gen. MacArthur today halted the repatriation of Koreans who live in the Russian Zone of Occupation. MacArthur's order, directed to the Japanese Government, explained that until an agreement can be reached between the Soviets and the Americans to permit free traffic between the 2 zones, repatriated Koreans are liable to become a relief problem until they are able to go north to their homes."

UP dispatch from Seoul yesterday stated that "General Lerch, said in a special press release today that he believed the Koreans were now ready for self-government and he hoped that their independence would be realized soon."

AP dispatch in noon papers today says that "The conviction

INCOMING MESSAGE

WASHINGTON (BATTLE) RDC NR WCL 27985 DATED 27 MARCH 46 CONT'D:

of a Korean Mining Official on charges of espionage brought to light today an alleged Japanese-sponsored plot to undermine the American Military Government. The defendant, Kim Keicho, who had been an official under the Japanese was sentenced to 5 years at hard labor and fined 3,100,000 yen (206,667 dollars). He was charged with having received that amount from Japanese for obtaining from American Officials information which might be used to undermine the Government. "

No editor or columnist comment on occupation of Korea has been noted in our coverage for over a week. About 3 weeks ago there was considerable discussion of our military government there, much of it critical, particularly in the so-called Leftist Press and Publications.

Re CFBX 25549.

1. Re occupation requirements, training and equipment program and CAF program have been discussed in separate radio. Subject this radio is Chinese peace time Army program.

2. In-as-much as the 39 Division program no longer applies it must be decided what additional equipment will be required for the peace time Chinese Army. Further early determination is required as to whether stocks presently available should be held or if requirements could be met from commercial production 18 months hence. This raises the following problems:

A. Present T/O & E appear not applicable to peace time Chinese Army. Most applicable appears to be CAI T/O & E published July 1944 with deletion of 105 Artillery.

B. If present stocks are held then what quantity if any of spare parts should be stored with them? Chinese may desire to develop own spare parts production or items which may be held for program might become obsolete making procurement of spare parts item therefor from commercial sources more difficult at a later date.

C. Will equipment be required for inactive Divisions on same scale as active Divisions and will equipment be required for Corps and Army troops and Headquarters? In this respect reorganization of present Army might make some supplies available.

3. Considering above factors request:

A. T/O & E you consider appropriate for peace time Army. List of principle military type items you desire would be helpful as preliminary information. These T/O & E need not be

25 March 1946

FROM : WASHINGTON
TO : CINCAFPAC, CG AFWESPAC, CG CHINA
NR : WX 81919

To CINCAFPAC:
Pending further clarification and firm determination of the requirement of the Chinese peace-time Army program, it is desired you retain in Japan the divisional military type equipment which is excess to your needs. It would be appreciated if you would confirm that there is available in Japan excess military type equipment of approximately 10 US divisions. Your concurrence in this procedure was noted in SX 40160 GSCS(not to AFPAC).

To CG AFWESPAC:
Appreciate your relaying SX 40160 GSCS to AFPAC

To CG CHINA:
Gen Marshall estimates that there may be additional supply requirements for integration of Communists International Army in addition to that given in CFBX 25549 and has expressed great interest in divisional military items located in Japan

Reurad W 81033, subject is fertilizer. This radio in 5 parts. References correspond to paragraphs in urad W 81033. Part 1. Reference paragraph 1, advise soonest when North Africa allocation becomes firm and ETA.

Part 2. Reference paragraph 2. On basis you propose, can use 166,500 metric tons ammonium nitrate equivalent to 265,000 metric tons ammonium sulphate for Fall crops during 1 July to 31 December. Request 166,500 metric tons ammonium nitrate fertilizers be imported as follows: July 42,000; August 42,000; September 42,000; October 40,500; total 166,500 metric tons. Advise soonest what tonnage ammonium nitrate fertilizer can be shipped to Japan for arrival starting 1 July 1946. It is emphasized that this amount will meet requirements of Fall crops only for the above period. It does not alleviate need for nitrogenous fertilizers before 1 July 1946 for rice and other crops.

Part 3. Reference paragraph 3a. Furnishing of chemical engineering personnel not necessary for conversion and repair of synthetic fertilizer plants. Sufficient Japanese technical personnel available. Conversion and repair program being maximized under supervision SCAP and Japanese government, with target of two million tons ammonium sulphate and equivalent production per year. Reference paragraph 3b, exact requirements for materials and supplies unobtainable in Japan are being compiled and will be forwarded soonest. Present conversion procedure includes concentration of equipment of industry in those plants most

- 1 -
~~CONFIDENTIAL~~

WCL-44052-Sept 49-Refus

quickly convertible. Reference paragraph 3c, public announcement of exclusion of fertilizer industry from reparations removal program is not repeat not required. Proposed interim reparations removals as outlined urads W 94752 and WX 90605 permits ample plant capacity for fertilizer production contemplated. Not considered desirable to make public announcement concerning only a portion of industrial reparations removal. Complete removal program will be announced by SCAP upon finalizing by Washington. Reference paragraph 3d, action being taken by SCAP to force operation fertilizer industry at maximum capacity.

Japanese government now granting top priority to this industry for supplies, labor and equipment. Reference paragraph 3e, concur your plan for negotiations regarding phosphate rock from island of Nauru. Suggest further negotiations regarding phosphate rock from Christmas Island (Straits Settlements), Makatea (French Oceania) and Ocean Island (Australia or UK Mandates). In providing shipping, materials, equipment and labor, recommend coordination with Navy Department as to which can better furnish some items, i.e., lighters and trucks, and especially whether preferable to import labor from Japan or move native labor or Japanese PWs between islands in mandated area. If desired, shipping, materials, labor and equipment can be supplied from Japan on whatever basis Navy requires. Heavy mining machinery required to mine phosphate rock on Angaur not available in Japan.

Part 4. Nitrogenous fertilizer production has increased under SCAP control and will show large gain this month. Production for 1946 now estimated at 925,000 metric tons, roughly 20% above earlier estimate of 760,000 metric tons.

Part 5. Request U. S. Department of Agriculture loan Dr. Frank Parker, Plant Industry Station, Beltsville, Maryland or person with similar qualifications for

6 months duty with Agriculture Division, Natural Resources Section, SCAP.

Dr. Parker to study use of nitrogenous fertilizers in Japan and make recommendations regarding use of all kinds such fertilizers including increased use of farm manures. Civil service rating and travel priority to be arranged by you.

Urgently request action be expedited.

DECLASSIFIED PER JCS LTR OE
20 AUG. 75

During course of recent investigation by Inspectors General conducted for Chief of Transportation on different subject, appreciable number of 2000 enlisted men interviewed requested special permission to see Inspectors General and made bitter complaints regarding treatment of enlisted personnel in Manila area.

Allegations were made that soldier prisoners were poorly fed and mistreated in stockades; that messing conditions were unsatisfactory in replacement depots; that severe court-martial sentences were given for petty offenses; that quantities of cotton clothing were wantonly destroyed while enlisted men were unable to secure sufficient to keep clean.

It is realized that the general nature of the allegations cited does not justify investigation of any specific case; however, the number and similarity of complaints indicate that a general inspection within the field covered by such complaints is warranted.

It is requested that an investigation of alleged conditions and practices be made, corrective action taken if necessary, and a report submitted to the War Department.

3. As to the training equipment program, no mention was made in your CFBX 25549 of requirements for school activities of MAG. However, supplies and equipment required from Army stocks for schools to be established by MAG must also be obtained before 30 June if Lend Lease method of transfer is used. OBLU other method now lawful which could be used in through FLC which would make obtaining many items difficult. While the approval of ourad W 81228 applies only to the requirements for communist units, similar method of requisitioning and transfer may be desirable for the balance of the training program and if so, it is urgent that complete requirements be ascertained and transmitted to WD for approval, indicating estimated dollar value, and to AFWESPAC for supply action. General Gallagher is being informed of this matter and of the urgency of submitting his recommendations to China Theater on equipment for Chinese service schools which he understands as part of his task here.

War Department is engaged in surveying and estimating costs of care, handling and transporting surplus property as basis for request to Congress for specific appropriation covering these activities for fiscal year 1947. For this purpose cable WX 81610, dated March 22, has been sent to all Theater Commanders, requiring estimates on enumerated subjects by 1 April. Please cooperate with theater commander your area furnishing all information available to you and estimates you can make on subjects which may assist army study, such as status of pending negotiations for surplus disposal, status of lend lease and surplus settlement negotiations and probable progress and termination of surplus disposal program in your area. If your projection of program extends beyond 30 June 1947 figure should be broken down extent applicable to period 1 July 1946 to 30 June 1947. Difficulty of making reliable estimates is appreciated but some estimate must be made in order to form a basis for appropriation request

NR : WX 81610

Budget for the fiscal year 1947 (1 July 1946 to 30 June 1947) for custodial costs pertaining to the care and handling, and transportation of overseas surplus property is Subj. This includes both ASF and AAF items.

1. Budget estimates have included no provisions covering such costs for surplus property other than as indicated in Para 2 below. Info req below from Theater Commanders, in cooperation with Field Commissioners and Dept of Interior Representatives in those Areas where Dept of Interior is active in surplus property, is necessary for purposes of preparation, presentation and justification of budget requirements to cover such costs.

2. Such estimates should exclude those items already included in budget for fiscal year 1947; IE such items as Troop pay, quarters, subsistence, POWs and warehouses required by Theater Commanders for discharge of Theater Mission and where surplus property therein is a small part of whole.

3. Theater Commanders will submit for their Theaters estimates to include all out-of-pocket costs, from the time such items are declared surplus until they are delivered or shipped to a buyer in accord with disposition instructions issued by Field Commissioner; as well as cost for such items as packaging, decayage, loading, civilian pay referred to in WCL 48330 etc.

4. The basis for this estimate should include (A) tonnages of surpluses to be cared for in the fiscal year 1947 (declared, but undisposed of as of 30 June 1946, plus surpluses to be declared and handled in the fiscal year 1947), (B) such inland and ocean transportation and shipping as may be necessary in the delivery of such surpluses to purchasers.

Reference CX 58093 February, WX 98447 February and W 80471 March received from State Department are information and advice passed herein to you for guidance refer CX 58093 February WX 98447 February and W 80471 March:

A. The rule as to breadth of territorial waters is not settled in International Law. 3 mile territorial waters limit is applied by majority of Maritime states including US, Great Britain, China, while other states have consistently applied 4, 6 or in the case of Russia, 12 mile limit. International Conferences to reconcile these differences have met with no success and no agreement has been reached to fix the breadth of territorial waters.

B. The problem under reference is further complicated by the fact that, although China retains sovereignty over the Port Arthur Base Area, the Chinese Government entrusts to the Soviet Government the defense of the Naval Base by Article 4, agreement on Port Arthur of 14 August 1945.

C. Correspondence with the Soviets in regard to this incident has been entirely on Military level (referring to the US Naval Representations to the Soviets through Naval Attache in Moscow). Raising the matter on Governmental level could only result in inconclusive conflicting statements of position between US and Soviet Governments.

While the validity of the 12 mile zone is not recognized, unless cogent Military reasons to the contrary exist and without making reference to territorial waters, it is desired that instructions be issued to Air Forces under your Command prohibiting flights closer than 12 miles to Russian occupied land areas including Port Arthur.

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

Reourads: Nov WX 82794 Dec WX 89765 Jan WX 95166 subject Yen payments for imports into Japan.

Presently under consideration by SWNCC is paper submitted by State with support of Treas which recommends that in order to adjust import procedure for Japan to those recommended ourads Nov WX 82794 Dec WX 89765 and to avoid future embarrassment from requests for conversion of Yen into dollars:

a. All existing authorizations for accumulation of Yen balances in payment for imported goods and services should be cancelled on 30 days notice.

b. In accordance with procedures set forth in WX 82794 and WX 89765, if SCAP certifies that Yen accumulated prior to date cancellation were derived from goods and services essential to prevent civilian disease and unrest or to accomplish objectives of occupation, such Yen accumulations would be converted into dollars and paid from War Dept appropriations for imports into Japan.

c. All future imports goods and services should be limited to those which SCAP certifies to be essential to prevent civilian disease and unrest or to accomplish objectives of occupation in accordance with procedures set forth in WX 82794 and WX 89765. Such imports would be paid for in dollars out of War Dept funds or in appropriate foreign exchange available in special deposit accounts established in accordance ourad Jan WX 95166.

Your comments requested re above.

Pending disposition above-mentioned paper, suggest you approve no new arrangements calling for aquisition of Yen in Japan by American or other foreign nationals on account goods and services supplies to Japan.

International Committee Red Cross has inquired of
State Dept:

- (A) Why there is distinction between prisoners of war and surrendered enemy personnel ;
- (B) Whether its representatives may visit camps where such personnel are interned;
- (C) Whether the distinction between surrendered enemy pers and POWs may now be discontinued.

In order that State Dept may be appropriately advised, following info requested:

- (A) Whether distinction is now made within your Command between POWs and disarmed enemy forces (surrendered enemy pers)
- (B) If such distinction exists do you object to entry of Red Cross representatives into existing camps?
- (C) Should any distinction between disarmed enemy forces and POWs be continued ?
- (D) In addition to answers to the foregoing specific questions, any other pertinent comments are invited.

CASERTA, ITALY., CAIRO, USAFIME.
NR : WCL 26463

Reference Cable Nr 49706 from G-1, War Dept, dtd 25 Feb 46, authorizing all overseas theaters to admit dependents upon a determination by theater commanders supported by priority lists that adequate facilities are available. The question has arisen as to whether dependents qualified for civilian positions may be recruited to fill requisitions without regard to their standing on such priority lists.

In view of above, auth to admit dependents, previous restrictions on the hiring of dependents as War Dept personnel have been lifted effective on the respective dates previously established for opening the European and Pacific Theaters other theaters, except the China Theater, may on their requisitions to this office have qualified dependents referred to fill vacancies. All dependents recruited will have the status of civilian employees and not of dependents until such time as the theater commander changes their status. In areas where theaters may not continue in existence for at least a year, employees will be required to sign the standard conditions of employment requiring minimum service of 1 year.

Reference civilian personnel circular Nr 51, 1944, subj, requisitions for civilian personnel for permanent duty overseas. Requisitions submitted for personnel by name will be prepared in the same manner as open requisitions with complete info as to qualification requirements. On name requisitions, Civ Pers Div Office Secretary War will review qualifications of those nominated by overseas commands to determine suitability for employment. This action will be taken regardless of whether or not nominees are dependents or non dependents. In event persons nominated are not qualified or not available other personnel will be selected for assignment against requisition.

FROM: SCAP

210247

TO : WARCOS. PRIORITY

Reurads W99601 and W80492. (C-59048) Ourad CA58020 does not propose SCAP entering into negotiations on a seller and buyer basis with any nations contemplating trade with Japan. Under present arrangement for exports to US, Japanese Government is seller and USCC buyer with indorsement only by SCAP. This arrangement avoids necessity for passing title from Japanese Government thereby saving one complete transaction including all commercial risks involved including shipping, insurance, storage, transfer and handling. This arrangement will not interfere with free trade operations when subsequently established. Reference first paragraph Urad W99601, trade representation of other governments at SCAP should be restricted to one qualified individual from each government. Individual should be attached to SCAP, and necessary stenographic and clerical staff will be provided. Since Japanese export goods will be delivered FOB vessel Japanese port, whenever practicable, either "As is" or on the basis of official Japanese certificates as to quantity, quality, and condition, inspection function should be handled separately for export commodities in which the government concerned is interested rather than as a permanent mission. To permit inspection in Japan by foreign government, entrance of the necessary inspector or inspectors will be approved by SCAP on ad hoc basis. Principal responsibility of foreign government trade representative as differentiated from commodity inspectors

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

~~SECRET~~

Jh 95445 refers

will be to receive goods on behalf of his government at time of shipment and his attachment to SCAP should be on permanent basis. Reference second paragraph Urad W99601 as amended by W80492, concur in extension of scope of such representatives as may be determined advisable from time to time or to meet special situations or for special negotiations including overall determinations as to availability and acceptability of various imports and exports. Trade will be on government to government basis and SCAP will not operate either as seller of exports or buyer of imports. SCAP will merely indorse each transaction on similar basis to that provided in USCC contract. Functions and scope of trade representatives of other governments attached to SCAP should be established prior to arrival in Japan of such representatives. They should include the following: To ascertain from their governments what items are desired for import from Japan and for export to Japan.

B, to keep SCAP currently informed as to the status of import and export programs and items requested or suggested by their governments.

C, To accept delivery of Japanese exports FOB Japanese port and to handle details of ocean shipping and insurance when appropriate as representatives of their governments just as USCC does in case of exports to USA.

D, To deliver to SCAP all documents covering imports from their respective governments and to facilitate such importation and delivery.

E, To supply SCAP with all financial data such as costs, sale prices and claims, and supporting documents and receipts affecting imports from or exports to their governments.

~~SECRET~~

- 2 -

W03549 refers

F, To maintain an operating relationship with the military or diplomatic liaison missions of their governments established in Japan for general coordinative action and on such routine matters as communications.

G, Any contact of representatives of the governments concerned with the Japanese government and other agencies or individuals on foreign trade matters to be made on specific authorization of SCAP and as a part of SCAP Headquarters.

Release of Eagle Farm Airdrome by 1 April, reference urad CX 58878, March, approved. ATC operating once weekly service Hickam to Tontouta at your request to service troops at New Caledonia. Extension this service to Brisbane necessary for turn-around maintenance not available Tontouta. Does mission to accommodate flights as stated in CX 58878 include ATC Aircraft on Hickam-Tontouta route? Release of all facilities at Eagle Farm agreeable to ATC providing maintenance facilities can be moved to Tontouta, or your presently operated Manila-Brisbane service could be extended to Tontouta. In latter case ATC service Hickam-Tontouta could be eliminated altogether. Desire your comments.

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

Reourad Jan WX 95166 Canadian Embassy Washington informed State Dept that Canadian Govt desires to permit Japanese being repatriated from Canada to repatriate their holdings in Canada. Embassy has inquired as to the procedures which should be followed.

Embassy was informed by State and Treasury Depts that it was their understanding that Japanese repatriates from Canada would be permitted to take in with them their personal effects such as clothing household furniture and jewelry yen currency not in excess of 1000 yen and Japanese Bank deposit or postal savings books. Embassy also informed that it was believed that SCAP would permit the entry of Japanese securities and evidences of property in Japan or of obligations of persons in Japan. Consequently any such property permitted to leave Canada would be allowed entry in Japan.

Embassy also advised that under present SCAP regulations non-Yen currencies, non-Japanese securities, checks, drafts and payment instructions expressed in non-Yen currencies and other non-Japanese obligations and evidences of property outside Japan would not be permitted entry and would be taken up by Japanese Customs officials. Eventual disposition of such items had not yet been determined.

Embassy was however informed subject to approval by SCAP that if Canadian Govt desired to permit Japanese repatriates to liquidate their property in Canada and to repatriate the proceeds, United States Govt would be willing to accept on behalf of SCAP the dollar equivalent of the proceeds of the liquidation for deposit in the SCAP account with the United States Treasury described in ourad Jan WX 95166 and to arrange for payment of the yen equivalent upon arrival of

Japanese repatriates in Japan. If you approve United States dollars will be accepted from Canadian Govt in unlimited amounts. At the time the Canadian Govt accepts the proceeds of property so liquidated the Japanese repatriate will be given a receipt which will identify him as entitled to receive a yen remittance but will not state the amount of yen to which he is entitled since that can only be determined at time United States dollars are deposited in SCAP account. Canadian Govt will furnish WD through the State Dept with schedule specifying names of Japanese repatriates on whose behalf the dollars were transferred and the amounts allocated to the respective repatriates. WD will forward appropriate schedule to SCAP which will instruct bank of Japan to make out payments in yen at mil rate of conversion which is in effect at the time the dollars are deposited in the SCAP account. In essence procedure will be similar to remittance procedures prescribed in ourad WX 95166. In the event the amount to which a repatriate is entitled exceeds the amount which he can withdraw in cash under Japanese currency regulations, no objection to retention of excess in blocked accounts. It is contemplated that schedules will be transmitted to you prior to arrival of repatriates in Japan; consequently it would be desirable if you could effect arrangements whereby Bank of Japan representative would make yen outpayments at port of embarkation.

Canadian Govt does not wish to force immediate liquidation of property by Japanese. Any property not liquidated before departure will be retained by Canadian enemy property custodian to be liquidated by him at his discretion and Japanese repatriate will be given receipt recording fact that Canadian enemy property custodian has retained the described property. It is present intention of Canadian Govt to remit proceeds of liquidation even though Japanese repatriate no longer is in Canada. Embassy has been advised subject to your approval that arrangements outlined in ourad WX 95166 will be applicable to remittance of proceeds upon liquidation and that you will permit Japanese to retain upon entry into Japan.

any receipts given them by Canadian Govt recording fact that they have surrendered property to Canadian enemy property custodian.

If proposed procedures are approved by you the Canadian authorities will examine repatriates at Canadian End to make certain they are not carrying over any items other than personal effects, yen currency, yen securities, yen obligations and evidences of property in Japan and receipts recording transactions described in paras 4 and 5 above. Under these arrangements it would not be necessary to conduct any examination at your End.

It is recognized here that proposed procedure represents very liberal treatment of Japanese repatriates from Canada and may cause resentment among repatriates from other countries receiving less liberal treatment. However since it is generally recognized that a United Nation can if it desires claim all Japanese property located within its jurisdiction it is difficult for United States Govt to object to a Renunciation of such claim by Canadian Govt which is conditioned upon the Japanese owner being permitted to repatriate his investment. Proposals have additional advantage in that the dollars will become available to SCAP for financing imports in Japan and for other approved purposes. State, treasury and War Depts recommend approval of procedures unless you perceive objections.

Ref paras 4 and 5 this cable, communication just received by State Dept from Canadian Govt states that it is essential that evidence of actual receipt of yen funds by the repatriates in Japan be provided to the Canadian authorities. It is essential that Bank of Japan be required to provide such evidence to your Headquarters for transmission to Dept of Labor, Ottawa Via State Dept.

DECLASSIFIED PER JCS LTR OE
20 AUG. 75

1. Following is rad just received by US Treasury from Treasury Representative in London "NIACT 2826 Mar 9 6PM for Treasury from Taylor:

Key of British War Office informed Tomlinson today that interested British Government Depts have reached decision to introduce special issue of 'Canteen Money' for use of British Army of the Rhine. According to Key British were reluctant to introduce a new currency but felt that this step had to be taken to combat speculative activities of Troops which continue on a deplorably large scale. What for the present scheme is designed primarily for Germany but will also be used by British Units stationed in Holland, Belgium and France. At a later period, scheme may be extended to British Troops in other areas.

General provisions of scheme are as follows:

A. British Troops will draw pay and allowances in Germany in 'Canteen Money' only.

B. 'Canteen Money' will specify that it is acceptable only at Official Canteens and Orgs of the British Armed Forces, although this may be modified in view of problem raised in Para 3 below.

C. 'Canteen Money' may be freely converted through British Army Channels into pounds sterling for remittances and other legitimate purposes.

D. British Army will withdraw from British Troops all facilities for converting marks including Am marks and other local currencies into sterling or 'Canteen Money'.

E. British Troops will be able to obtain marks and other legal currencies required for their purchases in local economy by converting 'Canteen Money' into marks or other local currency with British Paymasters.

F. 'Canteen Money' will be de nominated in pence, shillings and pounds. Smallest denomination will be 3 pence and largest denomination 1 pound. Consideration is being given to plastic 1 pence coins.

Key points out that in Berlin and other areas British Soldiers purchase in American Canteens and PXs and American Soldiers purchase from British Org. Key hopes that this can be continued and raises question as to whether 'Canteen Money' would be acceptable in

INCOMING MESSAGE

WASHINGTON MSG NR WX 80092 of 20 MAR 1946 continued;

American Army Orgs and if so, should notes specify that they can be used in American Orgs. He also points out that as British Orgs will accept only 'Canteen Money', arrangements will have to be made to place a supply in the hands of US Army Finance Officers. Key agrees to reimburse the US Army in sterling or dollars for 'Canteen Money' accepted and US Army in turn could obtain supplies of 'Canteen Money' against sterling or dollars.

It is suggested to Key that his decision is to accept 'Canteen Money' in American Army Orgs, 'Canteen Money' might specify that it would be acceptable in 'Organizations of the British Armed Forces and for other purposes as may be laid down by British Armed Forces'. This will avoid any reference to Allied or American Orgs on British Canteen Money.

Your attention is called to desirability of withdrawing reciprocal privileges to prevent dumping of marks held by British Soldiers in American Orgs or of closely controlling any reciprocal use of Canteen Money. If rate of 4 dollars to 1 pound can be used in all transactions, price difficulties should be negligible.

Key stresses that British wish to proceed with printing of notes and hopes that we may be able to give him our comments by March 20 at the latest. Tomlinson informed Key that he hoped to obtain comments, if any, on Para 2, Item B and Para 4 immediately. This would enable British to proceed with printing and other questions could be worked out subsequently.

It is requested that copy of this message be made available to General Richards of War Dept soonest. Signed CALLMAN."

2. Your comments on a similar proposal of US Treasury were requested in WX 99066.

3. With respect to British proposal your attention is particularly invited to Paras 3 and 4 of Treasury message concerning acceptability of British 'Canteen Money' in American Orgs; and to Para 5 of Treasury message concerning dumping of marks held by British Soldiers.

4. It is desired that immediate steps be taken to prevent British or any other Allied Soldiers from dumping foreign currency of any kind in American Installations and to rigidly enforce exchange control as it affects US Military and all other Personnel who remit funds through US Army and related facilities.

Post Independence Philippine Army is subject.

Reference letter from GHQ USAFPAC to TAG, File AG 322 (9 Oct 45) PA, subject "Plans for Philippine Army," dated 26 Oct 45. The Joint Chiefs of Staff have recommended certain United States Military assistance to the Post Independence Philippine Army Ground Force of 33000 men and Airforce of 1000 men organized exactly as recommended by you in exhibit 1, inclosure 2 to above referenced letter. Section 5, "Philippine Army", of the supply supplement to the WD Troop Deployment incorporating above JCS recommendations will be extracted and airmailed to you before 22 Mar 46. In order for the WD to make computations of the organizational equipment and supplies for all units, it is necessary that you furnish the WD with the tables of organization for all the units in exhibit 1, inclosure 2 which have "Special" listed under the table of organization column opposite the unit. A minimum of civilian type items should be included in the tables of organization and equipment. When may these tables of organization and equipment be expected? If you have already computed requirements of initial equipment only for these units please forward.

TO : CINCPAC (TO MACARTHUR)
INFO : CG AFWESPAC
NR : WX 98182

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

Severe shortage of cargo ships to meet requirements from the United States in the months of March and April has prompted the WSA to request all possible cooperation from the Army and Navy in releasing shipping allocated to the military services and now in Western Pacific. In this connection ACTREP reports through number 58 from CG AFWESPAC indicate 64 Army allocated cargo ships in your area for over 20 days. Request schedule of releases through 5 April, which is critical period.

ACTREP also shows that, in addition to vessels permanently assigned, local fleet contains 56 trans Pacific retentions exclusive of 43 Liberties nominated for bareboat to Army for repatriation of Japanese. This does not bear out our understanding that local fleet would be sharply reduced in numbers. Therefore request statement of your requirements for rotational retentions by month through June 1946 together with schedules of their employment. This statement should not include the 100 Liberty type cargo ships now being transferred to Army as part of Japanese repatriation program.

State Department has suggested the following for your guidance:

"At your discretion, should you have any reason to question Soviet bona fides in delaying unduly the meeting of the Joint Commission, you may wish to address a communication to the Soviet Comdr in Northern Korea pointing out your continuing interest in mutual consideration of problems of urgent interest to Koreans. To this end, you might suggest the possibility of holding preliminary sessions pending the recovery of the ailing Soviet member of the Commission."

"It is felt here that such a letter would serve the purpose of preserving the record as to our interest in carrying out the terms of agreement on Korea at Moscow."

War and Navy Departments concur.

Sec I. Re your MFLC 1291 of Feb 14 and all other outstanding rules referred to in part 5 thereof.

Sec II. Preliminary negotiations with Australians have been going on here for some time re Lend Lease and Surplus Settlements.

It is important that all negotiations affecting Australia either here or abroad should be closely coordinated. Otherwise there will be scope for misunderstanding on policy matters which might adversely affect US interests. Lend Lease and Surplus Settlement will include following general points:

A. Pipeline supplies. Supplies in process of manufacture or supply as of Sep 2 45, formerly furnished under L-L or reverse L-L, to be paid for at cost by recipient Govt, either for cash, or under financial terms to be agreed or matched off under offsetting arrangements.

B. Inventories as of Sep 2 45 fair values of:

1. Services and articles furnished under L-L
 - (a) Under control of Australia Govt in civilian inventories of undistributed consumable and capital goods ("undistributed" means not yet having entered into normal channels of distribution and consumption such as raw materials not yet distributed by Australian Govt to processors)
 - (b) Distributed capital goods whether or not under control of Govt.
 - (c) Articles under control of _____ or in possession of Australian Armed Forces.
2. Fair values if services and of articles furnished US under reverse L-L
 - (a) In US civilian inventory

COPY NO.

THE MAKING OF AN EXACT COPY OF THIS MESSAGE IS FORBIDDEN

INCOMING MESSAGE

NR: WX 99506, FROM: OFLC WASHINGTON 17 March 1946 CONTINUED:

- (b) In possession of US Armed Forces.
- (c) Claims to US against Australia and vice versa, validity of which not previously agreed to and for which procedures of settlement not yet determined.
- (d) Aircraft. L-L combat and non combat types to be recaptured by US and fair value of non combats to be sold to Australia.
- (e) Petroleum. Rear dual value, etc.
- (f) For claims. Claims to be settled by Australia for account of US and vice versa.
- (g) Commercial policy. Matters concerning adherence by Australia to "US proposals for expansion of world trade and employment" as agreed to by British on Dec 6 45.
- (h) Shipping. L-L, reverse L-L, and WSA matters.
- (i) Surplus. Whether surplus settlement is arranged previously in field or in overall settlement, it will manifestly affect total final settlement as to Australia's capacity for and terms of total payment.
- (j) Final settlement. See separate cable.

Sec III. Arthur Moore, official Australian representative in current settlement negotiations, stated Feb 26 in meeting with US representatives that Australia interested only in selected surplus items to total value not to exceed one and one half million dollars (\$1,500,000), and that he believed such reflections had already been made and reported to US Surplus Officials by Brigadier Binne RPT Binne. Capt Fetzer advises that Moore is presumably referring to contracts signed by Melbourne Office.

Sec IV. As we see it here there will be a continuing market in Australia for US surpluses having a commercial value, for some months to come, especially for such items as tractors, trucks, machine tools, etc and for consumer goods supplied under L-L, provided Australia permits sales. Now base this assumption on inability of Australian industry to produce in quantity sufficient to meet even immediate needs and apparent lag in production making it impossible for empire efficiency to be supplied from that source. We also believe that certain US fixed installations or portions thereof should be of use to and have value for Australians. In case of Port Moresby for example we feel sure that Australia will necessarily use part of

INCOMING MESSAGE

NR: WX 99506, FROM: OFLC WASHINGTON 17 March 1946 CONTINUED:

our installation and should agree to make fair payment.
Sec V. In view of facts recited in Sec 4 we question whether Moore is correct in stating that Australia will have no further interest in our surpluses. In any event we answered him by saying that any interest which Australia might have must be promptly expressed, and that you would be instructed to seek other customers or to permit return to US of any surpluses which Australia did not purchase promptly. In latter connection see Cable WX 97838, Feb 19 to CINCAFPAC, Tokyo, Japan, which gives MacArthur broadest possible latitude to declare surplus or to return to US articles in critical need here for which FLC has no ready market. Against the possibility of inaccurate statements by Australians to you as to status of negotiations here, you are informed that no negotiations are pending here which would preclude your selling surplus to Australians on such terms as you benefit on your selling surplus to other customers or permitting its return to US. We suggest that you repeat to Australian Govt for final verification Moore's statement referred to in Sec III and proceed accordingly. In discussing fixed installations with Australians you should stress our position that they should agree to pay fair price for US interest in installations which will be of actual use to them when no longer required by US Forces.

Export of silk is subject.

1. Announcement by USCC of method by which Japanese silk is to be marketed in United States has occasioned considerable inquiry concerning methods by which program is being handled in Japan. In particular Congressman Flood of Pa, member of House Foreign Relations Committee, in conference 12 Mar with state and WD and USCC, on basis of info furnished him by Mr Magagna, requested silk export be deferred pending receipt info concerning silk program in Japan, what arrangements are being made for paying silk producers and who are beneficiaries in Japan of silk procurement program. Question raised by Congressman Flood is essentially whether silk procurement and export program conforms to basic policy, particularly with respect to long range economic disarmament and rehabilitation occupation objectives.

2. Although there is no info available here to indicate silk program is inconsistent in any respect with basic policy, State and War Depts believe you should be apprised of fact this question has been raised at congressional level. It would be most helpful to have your comment as basis for reply to Congressman Flood and others who make similar inquiries concerning silk program in Japan.

Taken from NA messages NCR 8115, 8290, 8293 following forwarded for your information. 3 Soviet Ships have arrived from Manchuria carrying heavy industrial equipment. Materials identified: motors, overhead cranes, electrical cable, foundry material marked for shipyards at Komsomolsk and Krasoyarsk. Other ship noted; deck cargo of railroad cars and electric engines. Latter cargo being loaded on flatcars because wheel trucks were taken off due to narrower gauge. Anti-Tank unit arrived by rail in Vladivostok on 5th, commanded by unknown General. That unit now embarking for unknown destination, best guess Manchuria. Soviet Steamship Dalstroj shipped out on 10th with unit heavy tanks destination probably Manchuria. Foreign trade GYJP explained that heavy tanks and industrial cargo sent by ship because bridges and railroad bed not in condition to carry heavy load. 30 Kilometers north of Vladivostok near Anpum is heavy concentration of Soviet Troops. Unit has anti-tank mobile rocket projectors, light artillery, anti-aircraft, light tanks, armored cars and American Truck Transport. Crew member of Soviet Steamer Smolny says on first trip irregular service professional propaganda agents comprised most of Soviet passengers. Instructions to agents were to get White Russian population in Shanghai apply for Soviet passports. Next trip to Shanghai and Japan will carry more agents although trip to Japan is not definite. No confirmation here.

Public Law 301, approved by the President on 18 February 1946, authorizes the transfer of 200 million dollars from other War Dept appropriations to the appropriation "Expenses, Army of the Philippines". With this transfer authorization, the total available for obligation under this appropriation for the Fiscal Year 1946 amounts to 385,642,378 dollars. Of this amount 185,335,000 dollars has been allocated to you, leaving a balance of 200,307,378 dollars available for allocation. In requesting from the Congress the additional 200 million dollars, representation was made that this amount was required to make final payment for all expenses of the United States Govt for the maintenance of the Philippine Army and that no further requirement would exist under this appropriation. On the basis of 3rd quarter requests submitted to this office by your Hq indications are that additional funds in excess of those presently available will be required. It is requested that you immediately determine whether these funds will be sufficient to terminate United States responsibility for the Army of the Philippines. If not, full information regarding additional amounts required for balance of 1946 should be forwarded as soon as possible. Also requested any appropriation under the subject heading is required for the Fiscal Year 1947.

In approving the additional amount for the Army of the Philippines, Public Law 301 carries the following provision on page 10: "Provided, that service in the organized military forces of the Government of the Commonwealth of the Philippines while such members were in the service of the armed forces of the United States pursuant to the military order of the President of the United States dated July 26, 1941, shall not be deemed to be or to have been service in the military or naval forces of the United States or any component thereof for the purposes of any law of the United States conferring rights, privileges, or benefits upon any person by reason of the service of such person or the

In view of the long term interest of the United States in the areas covered by J.C.S. 671 and J.C.S. 1231 (Both papers being forwarded by air courier) excepting Kuriles, and in view of the protracted nature of military government responsibility in these areas, you are authorized with respect to food, clothing and other essential supplies, housing, education and welfare to take such action as availability of supplies and funds will permit to restore to the population of these areas standards of living consistent with those existing prior to the war, and any provisions of present directives conflicting with the foregoing AIHQ be regarded as modified accordingly. In the exercise of the foregoing authority it is expected that except when essential for purpose of emergency relief, any of the above categories ordinarily made available to the population through cash sales will be distributed through sales channels as prescribed in J.C.D. 671 and J.C.SURBREV 1231. In view of present world shortages, this authorization will be subject to such directives as the Navy department may issue from time to time. This is interim measure pending Joint Chiefs of Staff review of directives for Civil Affairs/Military Government for these areas.

Following memorandum received here from State Department: "The Department of State has received a request from the Swedish Legation for forwarding certain official mail matters received from the Swedish Ministry for Foreign Affairs at Stockholm to the Swedish Legation in Tokyo.

The Department of State is of the view that neutral Diplomatic Agents in Tokyo designated to maintain contact with the Headquarters of SCAP should be permitted some measure of written communication with their governments, without which their presence in Tokyo would be meaningless.

An opinion is requested as to the proper procedural channel for the handling of such mail matters as those above mentioned." Request your comments earliest.

MICROFILM CAMERA OPERATOR'S CERTIFICATE

This is to certify that the microphotographs appearing on this reel are true and accurate reproductions of the records listed on the title sheet preceding each volume or series of records microfilmed thereon; that the records were microfilmed on the date, or during the period and at the reduction ratio indicated; and that when microfilmed the records were in the custody of the department, office or individual listed on the title sheet.
