DECLASSIFIED PER JCS LTR OE
20 AUG. 75

URLTR Subject:

"Integrated Const Dev Program" dtd 24 May. Msg in 3 parts.

Part 1. Review incl 1 TL ref ltr indicates total PX, Chapel, refrg bldg cover and misc bldg same as auth and justified to bureau BUD. However, PX increased \$321,000 Chapel increased \$152,000, misc bldg decreased \$290,000 and refrg bldg elim.

Part 2. In view bureau BUD deletion PX and similar projects from FY 51 aprop and Part 3 MYMSG 34875 considered inadvisable increase this item. However attempt will be made for Chapel using saving from refrg bldg since if Bureau BUD nonconcurs they are unlikely to delete item. On this basis misc bldg savings can be used for additional bldgs this nature within auth and aprop justification.

Part 3. Rqst prior 2 May recm bldg to add in this cat furn name, proposed use, sq ft, est cost and location ref incl URLTR. Consider several small bldg with total sq ft closely aprx prev justification preferable.

extend to Arab Palestine provisions 1948 Anglo-Jordanian Military Agreement guaranteeing Jordan's frontiers against external aggression which Israel would resent. This move following Soviet reversal position on internationalization Jerusalem further reduces prospect latter.

Soviet Peace Campaign appears timed to reach high point in autumn when second "World Peace Congress" scheduled for Rome. This suggests USSR at September United Nations General Assembly will use petitions to claim world public opinion demands United Nations adoption of Soviet-sponsored resolution on prohibition of atomic weapons.

Red Fleet, Soviet Navy organ, 19 Apr, demanded revision of Montreal Convention. First USSR demand regarding straits since Turkey rejected Soviet request in 1946 to bar warships of non-Black Sea powers from passage and to establish joint Soviet-Turkish defense of straits. Revival now reflects not only Moscow's current sensitivity over maritime approaches, but also increasing attention during past 2 months on relations with all states along southern border.

Turkish newspaper Ulus on 22 Apr refuted this demand on grounds that convention provides for revision by agreement of all signatories. Editorial denies discrimination against or danger to any country because of straits regime and points out that visits of United States and United Kingdom fleet units are not contrary to convention. It is believed to represent official Turkish views and demonstrates their determination resist Soviet attempts impair Turkish sovereignty.

Apparent USSR attempts to build network of trade agreements with Moslem countries in Near and Middle East indicate Soviet drive to capitalize on current dissatisfaction of Arab League and Iran with United States and British policy. Moscow has given no indication that its efforts to establish friendlier relations with Near Eastern governments include diminution in its clandestine activities.

April departure over 2,000 Soviet troops from Vienna towards Hungary may represent either leave contingents or demobilization of veteran 1925 non-commissioned officers and 1926 privates. No firm indications of demobilization of 2 classes have been received.

Soviet note 20 Apr, demanding withdrawal of United States

and British forces from Trieste, appears to be chiefly the application of Soviet harassing tactics. No results from move expected.

Following extensive preparation by "infiltration" Chinese Communists, on 16 Apr, launched successful attack against Hainan Island, establishing beachhead 50 miles west of capital city Haikow. In 5 days got estimated 2,000 regulars ashore. Nationalist Navy reportedly hampered by lack of 3-inch ammunition to bombard beachhead and by accurate fire Communist shore batteries on southern tip Liuchow Peninsula. Nationalist ground forces failed to exploit temporary Communist shortage of ammunition and reportedly offered little resistance. Following fall of Haikow on 23 Apr Nationalist military and air headquarters retired to southern tip of island whence high officials evacuated with no attempt get bulk estimated 110,000 troops out. Hainans loss deprives Nationalists of their main South China operations base and will drastically reduce effectiveness of blockade that area as well as deal body blow to Nationalist morale and to remaining prestige. Also indicates Communists increased knowledge of amphibious tactics. Communist control poses threat French position in Indo-China should island be used as base for support of Ho Chi-Minh. Operational effects of Hainans fall further accentuated by loss of Lintin Island in Pearl River Estuary. Indications are that Communists will imminently attack Wanshan Islands and Lafsami Naval Patrol Base on Pearl River.

Although Chusan Area quiet last few days, early Communist assault, for which preparation believed completed, expected.

Hong Kong fired on small Royal Navy vessel 19 Apr just outside Hong Kong territorial waters. Royal Navy reported suprisingly accurate Communist gunfire but slight damage - no casualties.

Firm evacuation plans now provide for General Gordon load 1,000 passengers at Taku Bar 28 Apr sailing following day. Special train to Tangku left Shanghai 26 Apr. After evacuation over 2,000 registered American Citizens will remain in China.

Local authorities on Arbom Island in East Indonesia, supported by Indonesian soldiers of former Royal Netherlands Indies Army, have revolted against Central Indonesian Govt and have proclaimed independent state of South Moluccas.

Embassy Cairo reports that Ho Chi-Minh has sent letters to prominent leaders in Egypt asking them to urge Egyptian Govt to respond favorably to his bid for recognition and to organize boycott at Suez Canal of French ships transporting munitions to Indo-China. In spite of anti-imperialist and anti-French sentiment in Arab circles, Ho Chi-Minh's representatives to Egyptian Govt are certain to be rejected because of present govts pro-Western orientation.

First National Assembly election held under auspices of Republic of Korea now set for 30 May. Adverse opinion within and outside republic forced President Rhee to abandon his efforts to postpone election and thereby give his supporters more time to organize campaigns against better coordinated and financed rightist Democratic Nationalist Party. In shortened period remaining before election Rhee must now greatly intensify efforts to organize followers and political tension will mount further.

Army:

Recent maneuvers of Belgian Army units at Houx on Meuse River reportedly indicated substantial improvement in Belgian troop training during past year.

Navy:

Soviet dry dock anchored outside of Colombo 15-16 April en route Far East from Black Sea. Another Soviet dry dock sighted off Danish Island, Zealand, 19 April, on northerly course, possibly en route to Black Sea.

Air:

Marcel Dassault 315 light transport aircraft, 295 of which ordered by French Air Force, to be equipped with 2 paired-in machine guns aimed by pilot and fired forward from

reported to be on contract for purchase from United States firm, will bring Royal Egyptian Air Forces advanced trainer strength close to planned 50.

Fairly reliable source reports following:

A. 6 jet aircraft recently sighted over Shanghai came from Chou Shi Tzu Air Field at Daicou;

B. There are over 86 aircraft now at Shanghai, some with wing markings in Russian;

C. A new gasoline pipeline has been constructed from Shanghai to Lungwa Air Field;

D. There are presently 1,600,000 gallons of aviation gasoline in Shanghai.

Nationalist Air Force officials deny build up of air strength in Chusan Islands although they admit Taishan Air Strip now operational. Large-scale operations reportedly planned against Shanghai and Nanking air fields in near future, using both strafing and bombing attacks. Over 100 aircraft allegedly to participate in what will be CNAF largest operation to date.

The Ch of Trans is currently engaged in a research project entitled The Standardization of Trans of Mil Cargo. He has engaged a firm of consultants to perform the work under a contract approved by the Asst Sec Army.

Briefly the work consists of an overall survey, study and investigation of the present mil and commercial methods of mvmt of cargo, to include the preparation for trans actual trans and delivery of mil cargo from the initial point of supply "factory" in the ZI to the user smallest administrative unit in the theater of opns.

In order to complete the study it is desired to send 3 of the contractors representatives Messrs Charles S Cobb, Jr, Richard J Sweeney and Morris Bradt, Jr, to ur theater approx 2 to 3 weeks, 15 May to 10 Jun to obtain curr info on present and planned opns and the Project Manager Mr J D Sheahan to visit for the first week in Jun. Although all representatives visiting ur theater will be cleared for top secret, info re opns plans will be revealed only to extent essential to this study. It is considered particularly appropriate for this gp to observe trans opns at Okinawa. Your concurrence is requested.

Folg msg 2 parts contains statements made at 191st meeting of FEC, re FEC 371 (concurrent criminal and civil jurisdiction in Japan).

Part 1. UK Statement.

"I should like to give in the com a gen indication of the views of my govt on the US proposal contained in FEC-371. We see no good grounds for the introduction of a proposal on these lines at this stage in the occupation of Japan. On the other hand, though we doubt whether a good case has been made for action at this time, we do not intend to oppose a proposal of this character, if it is the view of the majority of the com that a modified policy is required.

"In the discussions in the Working Committee we may have a nr of suggestions to put fwd. One of them, to which we attach importance, relates to the procedure in the case of a capital charge being preferred against a UN national. Another pt which we think needs careful consideration is the ques of the access to the accused of consuls. These, however, are matters which can be more properly dealt with in the Working Committee, and all that I wish to do here is to suggest that there are aspects of FEC-371 which need careful and expert study."

Part 2. Philippine statement.

"The conferring upon Japanese courts jurisdiction over nationals of the members of the UN as envisaged in document FEC-371 is considered by the Philippine Govt as opening another way leading toward the assumption by Japan of full international juridical status. It has been the view of my govt that Japan should not acquire a semblance of international personality before a treaty is signed ending the last World War.

"In the status of an occupied enemy territory, nationals of the UN members, especially those of the Allied Powers, should not be placed under jurisdiction of the Japanese Govt. Such jurisdiction should be exercised directly by the SCAP and should not be delegated to any branch of the Japanese Govt. We share the Chinese view that the present Far East Com Policy decision on the exercise of criminal and civil jurisdiction of nationals of members of the UN (FEC-038/1) reasonably meets the needs of the present situation in Japan.

"In view of the foregoing, Mr Chairman, my delegation registers strong opposition to the proposed policy decision."

"Commentary in 13 Apr Pravda on PB 4 Y incident presents to Russian people more concrete threat of war than any other propaganda statement previously issued. Popular alarm is reported from Moscow and evident Soviets utilizing incident to improve national cohesion.

1. Effect of PB 4 Y incident and consequent accidental overflights of Swedish defense areas by US search aircraft, has been shaking of Sweden's confidence that Baltic is isolated lake of little consequence in the great power cold war. Swedish public has been forced to question reality of its concept that Scandinavia is relatively immune to cold, as well as hot, war. This shaken complacency, however, will not necessarily stimulate any change in Sweden's policy of neutrality.

"Belgian leaders 3 principal parties reportedly agreed accept Leopold's compromise,

A. Restore him to throne,
B. Temporarily transfer royal prerogatives to son Baudouin.

C. Leopold reassume full power later date subject Government's approval.

This compromise merely postpones indefinitely Parliamentary decision whether Leopold be permanently restored.

"Best German Socialist leader, Kurt Schumacher, reportedly arguing with Adenauer that Federal Republic should not take sides in East-West struggle, but should provide meeting ground for solution. No evidence that Socialists in Bundestay support this concept. Meanwhile, Chancellor Adenauer is concerned with the possibility that the Allies will approve Berlin's status as the 12th West German land, since the injection of Berlin radical elements may weaken his Parliamentary position.

"Communist led general strike of Farm Day-Laborers in Italy may erupt with considerable violence during next month. Italian Farm Laborers constitute poorest class in Italy and are easily susceptible to Communist excitation. Landholders reportedly assisting in strengthening of Neo-Fascist contingents near Communist strongholds. Suppression of anticipated violence may tax police power.

"Soviet-Satellites expected to have total production of 121 million tons of grain during 1950, increase of 6.1 million over 1949, but only 92% of 1935-39 average. Estimated 19.5 million of grain may be available for export or stockpiling in 1950.

"Center Coalition Cabinet formed in Greece under Mastiras, controlling 136 out of 250 Parliamentary votes. Chance of survival appears greater than that of Venizelos Cabinet, but threatened by rightist opposition and by King. Previous leftist leanings some members not likely to sway orientation of Govt in direction Moscow. Yugoslavia indicated interest in discussing outstanding differences between 2 countries with new Govt.

"Because of lack of genuine unity and enthusiasm for implementing Arab League collective security pact, Jordan and Israel may resume separate peace negotiations. King Abdullah has much to gain from separate peace and may get additional concessions from Israel but will be risking Arab League boycott in negotiating peace separately. Jordan Assembly and new Premier, however, are opposed.

"Official of Anglo-Iranian Oil Co reported recent increase in Communist activities throughout oil company areas Middle East.

"Although India-Pakistan relations generally improved following minorities agreement concluded at Delhi Conference, India reportedly continuing move military supplies into East Punjab. However, relations between the 2 countries, which are still potentially explosive, expected to be further improved as result

77742

trade conference scheduled Karachi 19 Apr and 25 Apr visit
Nehru to Karachi.

"Tibetan Government Mission announced yesterday in India
that Tibet has proposed to Peking that this Mission meet with
Communist representatives somewhere outside China in order to
work out better relations between Tibet and Peking. First in-
dication that present Tibetan Government, representing progress-
ive, pro-Western Group, willing to negotiate with Chinese Com-
munists.

"Burmese Govt forces, having successfully concluded cam-
paign against Karens North East of Rangoon, now concentrating
efforts against areas along Irrawaddy under control of White
Flag Communists. Movements of Burmese forces indicates pre-
paration for major attack against Communist "capital" of Prome
prior to beginning of Monsoon. Success of operation will depend
largely on swing away from Communists of leftist Peoples Vol-
unteer Organization, link-up of Govt troops North and South of
Prome, and capability or intention of Communists to make organized
effort to defend city.

"As result of reported political intrigue in Burmese Navy in-
stigated by General Ne Win (Defense Minister and Commander in
Chief Armed Forces), many of higher ranks are being purged and
replaced by loyal but professionally incompetent officers.
British feel this will have adverse effect on the work of their
Naval Mission as well as on Burmese Govt.

"Following reported landing of Indonesian Govt troops near
Macassar, rebel-held Capital of East Indonesia, Federal Govt
announced unconditional surrender rebel troops. Failure of
peace effort may result in junction of rebel Netherlands Indies
Army personnel and East Indonesia Govt in effort expel Central
Govt Forces. Basic issue is East Indonesia's desire to retain
identity as separate state, as opposed to Indo Republic desire
absorb all of Indonesia. From view point of Federal Govt, prin-
ciple that member states may not maintain separate Armies, and
right of Central Govt to station its troops throughout country
are involved. Superior military strength of Federal Govt in-
dicates peaceful settlement likely.

"Establishment diplomatic relations between Mongolian People's Republic and East German Regime 13 April and Poland 15 April, followed Soviet-Mongolian Agreement 4 Apr to raise Missions to Embassies. These tactics increase MPR prestige and fit current pattern Soviet actions and propaganda in Far East.

"Chinese Communist Party workers experiencing increasing difficulty converting masses in face of growing opposition to regime. Opposition, which is already beyond nuisance stage in many areas, is, however, spontaneous, sporadic, unorganized, and has not yet seriously threaten power monopoly of regime. Repeated calls for suppression guerrilla movement, following claims of successful anti-guerrilla operation, indicates guerrilla activities becoming more widespread.

"Chinese Communist authorities have given written approval for call of American President Lines General Gordon at Taku Bar 28 April. Shuttle service to Gordon to be provided by 3 lighter, each having capacity approximately 350 passengers. Negotiations underway to obtain special train from Shanghai to Tientsin. Nationalists expected give Gordon assurance of safe conduct.

"Nationalists have announced mining of Yangtze North Channel, thus sealing off last sea approach to Shanghai.

"Communist attack on Hainan Island, now underway, may be beginning of Communist effort to take remaining Nationalist-held Pearl River Islands. Largest Communist attack on Hainan Island to date now in progress.

"Salvadoran Presidential election potentially explosive. Should pro-Govt candidate Caserio victory prove doubtful, Army, may stage coup to prevent leftist and Communist-supported rival Menendez taking office. Menendez on other hand, likely cause trouble if defeated or denied Presidency. Covert aid from Guatemala to Menendez Party has increased strain in Guatemalan-Salvadoran relations.

"Army. Major Gen Chae Byong Duk, who was relieved as Chief of Staff Korean Army last October, was restored to that position on 14 April in succession to Maj Gen Shin Tae Yung, who had been acting Chief of Staff.

"Navy. Polish ship yard previously supervised by association of Polish shipyards now under Govt Agency.

"Two Soviet Mer-ships Pakov and Vladivostok requested permission from British to enter Portland to transfer fuel. Request denied and Weymouth offered as alternate, which was refused. Then Plymouth was offered. 2 ships later sighted, 1 heading north and 1 heading south, having transferred no fuel.

REURMSG Apr C 55892. In proposing to place add 90 undergraduate stus or 50 graduate stus, IIE intended to indicate that saturation pt is being reached for Sept 50 sch yr entrance. Age limit of 30 or under would make it easier for IIE to place stus at this rather late date and leave fewer to be placed next year. Do not recommend you change system or rules of selection, but if 50 could be selected with most NR number under 30 it would help. If this not practicable, send 50 applications as presently set up and we will try to get them placed.

Para 2. Difficulties reviewed in OURMSG Mar WC: 45331 were clarified by URMSG Apr C 55737. DA in complete agreement with your views and in urging acceptance by IIE, OUSRO has agreed to assume responsibility should maladjustments result fr implementing your policy. Believed here that IIE views based not on desire to control policy, but on lack of thorough understanding of real objective of program.

REURMSGs Apr CX 55872 and Apr C 55838. Folg msg
transmitted at rqst Dept of State:

"Dept of State is postponing notifying FEC that SCAP
has authd participation of Japanese observer in Assembly
World Health Organization in view of fact that it is not
clear whether invitation has been issued to Jap Govt to
send observer. At time notification, Dept State fears some
member FEC will re to Para 1 Interim Directive, Serial Nr
110 which permits Japan to participate in such agreements
and conventions and confs of a tech character 'as Japan
may be invited to enter into, accede to or attend', and
inquire whether invitation has been issued to Jap Govt.
Dept only aware of invitation to SCAP to send observer.
If further invitation has been issued or if SCAP on basis
first invitation has notified Director Gen that he has authd
Jap Govt to send observer and if Director Gen has voiced
no objection to this procedure, Dept interested in knowing
of such action and would proceed to notify FEC on that
basis."

Current Dept Def plans call for reduction special duty service gps worldwide. While recognized that training program Korean forces now at peak, increasingly important that measures be adopted by DA to economize in terms of personnel and dollars in Korea. In this connection suggest you consider the fol:

A. Redistribution of KMAG Advisory personnel to those areas and positions where most needed, thereby creating an excess of personnel now present.

B. Consolidation and cutback of administrative and executive functions to decrease personnel required, thereby facilitating a decrease in KMAG strength and alleviating the gross budgetary burden on DA through JAS participation.

C. Exploitation of maximum qualifications of present personnel to minimize future replacement requirements and allow for all possible reduction through normal attrition.

Request you formulate a plan of action and, after coordination with Ambassador, submit your plan for scaled strength reduction of KMAG.

Major shakeup of French Communist Party indicates Communist determination to increase militancy and mass action against MDAF and French National Defense Prog.

Recent decree reorganizing highest level of French National Defense establishment intended primarily to separate coordination of defense policy on inter-ministerial level from purely mil direction of armed forces. New organs created include:

- A. Permanent Gen Secretariat of National Defense, comprising both civilian and mil members;
- B. Joint Chiefs of Staff along United States lines;
- C. Combined Armed Forces Staff as working agency for Joint Chiefs.

Officials Soviet Berlin Paper announced international celebration of "Liberation Day" for 15 and 16 Apr. After return of chief German Communist Strategist Ulbricht from Moscow, plan for 17 Apr Youth March throughout Berlin also reported. Rallies, coupled with forthcoming May Day Plans, indicate Communist reconnaissance of West Berlin resistance before Youth Rally scheduled for 26-30 May. Planned half million Communist demonstrators to hold mass meeting at Brandenburg Gate Berlin on May Day. Anti-Communist West Berlin organs to hold May Day Meeting of comparable size adjacent to Reichstag in British Sector. Less than 300 yds separates Brandenburg Gate and Reichstag. Close proximity of 2 meetings may precipitate incident with serious repercussions.

While possible uninformed Polish opinion more sensitive about

oder-Neisse Frontier since Rokossovsky's apmt, no reliable indications of early change of frontier.

Of recently elected members USSR Supreme Soviet only 33% were elected in previous 1946 election. Turnover was especially heavy in areas like Leningrad, where there has been trouble in party apparatus. Since overwhelming majority of Deputies to Supreme Soviet are usually office holders at time of election small percentage of repeaters this yr suggests large turnover of Soviet officials in last 4 years. Exact significance debatable.

Venizelos Govt and Emergency Law prepared by Greek Gen Staff uniting ministries of Army, Navy and Air Force into single Defense Ministry, and providing for Chief of Staff for all armed forces to be named Commander in Chief of National Defense when public order and national security are threatened. Law expected to be implemented before Parliament convenes on 17 Apr and Royal Decree issued naming Marshal Papagos Chief of Staff for Armed Forces. Mil authority has become more centralized, and high comd of Armed Forces reinforced. Venizelos reported planning to test his Govt's pos in Parliament 17 Apr. Venizelos Cabinet expected to resign either as result adverse vote of confidence in Parliament or refusal of Venizelos to carry on with only Rightist support. Question then arises whether Venizelos will cooperate with Center Parties in Govt under Gen Plastiras. If Venizelos refuses rejoin Center, political impasse will develop which may be resolved either through new elections or setting up non-descript interim Govt.

Swedish and Danish fishermen frequently molested during past year by fast Soviet Naval Patrol boats in Baltic to extent they are being elbowed out of international salmon fishing grounds. 12 mil limit, which Soviets seem to claim, is not established practice in Baltic and joint Swedish-Danish protest is being discussed.

Uneasy Iranian situation further disturbed by sharp warning from former Prime Minister Qavam to Shah against latter's desire through constitutional amendment to gain full veto power over legislation. Undignified reply by Minister of Court Hakimi appears to have aided Qavam who is becoming identified by public as leader of opposition.

Jordan's apl Arab League Security Pact, which aims at creating unified mil, political, and economic front of Arab States, probably intended to obtain League support of Jordan's incorporation

of Arab Palestine and prevent so-called Arab Palestine Govt from joining League.

Agreement reached in New Delhi 8 Apr by Prime Minister Nehru and Liaquat Ali Khan guaranteeing security of minorities in troubled Bengal Area should serve to ease tension between 2 countries.

Communist Press comments that Communist Peoples Govt of Burma has liberated and now rules 70% of Burma from it's capital at Prome suggests possibility that Moscow and Peiping may recognize White Flag Communist as Burma Govt. Communist claims grossly exaggerate situation since effective administration is ltd to Prome Area. Territory under loose Communist control probably does not exceed 35% all Burma.

Assault of Chusan Archipelago, initial attack in Communist Amphibious Campaign against Nationalist Insular Positions generally regarded as imminent. 160,000 Communist trps reported already in pos with sufficient nbr of junks for assault.

Pattern of frequent Chinese Communist landings on Hainan recently indicates Communist Commander Linbiao is sacrificing 2d-line trps to reinforce and supply Communist Guerrillas in island's interior in preparation for attack in force. Small-scale penetration of Hainan probably not too difficult since Nationalists reportedly hold only narrow and incomplete perimeter around island and Communists control port on Southeast coast. Nationalist Forces under Hsueh Yeuh have succeeded thus far in repelling all open invasion attempts, although their capability to oppose major effort seriously ltd by insufficient weapons for destroying junks. Furthermore, with Naval and Air Forces presently asgd for Hainan Defense, there appears little hope that Nationalists can hold island once Communists possess adequate aeft and mtr vsls. Elsewhere in China, growing indications reported that Communists plan early attack on islands in Pearl River Estuary which are being used by the Nationalists as bases for blockade of Canton.

Chinese Communist intransigence has again thwarted plans for evacuating fgn nationals from Shanghai. Attempt by British to

obtain clearance for SS Anking cancelled because of failure of Communists to grant clearance in sufficient time to complete evacuation by 12 Apr deadline set by Nationalists for mining North Channel Yangtze as measure for impeding Chusan Invasion.

French claim to have administered stinging defeat to Viet Minh when latter attacked Travinh, 50 miles southwest of Saigon. Losses both sides reportedly hvy.

Fol recent hvy raids Communist controlled Huks in Philippines have been comparatively quiet but their early renewal of Guerrilla ops on larger scale is possible. Huks now call themselves Peoples Liberation Army.

Orgn of American States (OAS) apd report 5 nation committee investigating Caribbean tension and warned Cuba, Guatemala and Dominican Republic to end their funding immediately and threatened application of sanctions provided under Rio Treaty if further trouble occurred.

Army: Reorganization of Belgian Army, according to present plans, will become effective 1 Jul 50, when present Army Gen Staff will be abolished. New staff charged with responsibility for high-level strategic planning and coordinating all Belgian Forces. Lt Gen Etienne Baele, presently Chief of Staff of Belgian Army, will be Chief of New Staff.

Latest reports indicate rigorous purge of most of remaining Rumanian Army officers who served under former regime. Soviet control of Rumanian Army will be exercised through zealous Rumanian Communists of unquestioned loyalty to Moscow and through Soviet Mil Advisers.

Navy: Russia contracted for 41 of 45 trawlers, length about 240 feet, to be delivered by Swedes by Jul 1950. In addition, Soviets contracted for 12 more trawlers, length 177 ft, to be delivered prior Dec 1952.

Growing evidence indicates Soviets intend to organize Small Craft Naval Section within East Germanara-Mil Police Orgn.

Air: After encountering difficulties modifying French-built Vampires for use with Nene Engine, French hope redesigned wing with larger air intakes will solve problem. To allow time for this production change, it is expected that Goblin Engines will be imported for first 50 acft, with Nene Engine planned for 75406

remaining 78 Vampires scheduled for production in France.

Recent observation of 10-15 radial engine, conventional gear, propeller driven ftrs with folded wings, on airfield in vicinity of Viberg (80 miles northwest of Leningrad), first report of folding-wing type acft in Soviet Union.

Formations of late-model Soviet acft observed over Moscow on 6 Apr, presumably in preparation for May Day Parade, included 20 TU-4 (Soviet B-29s), 10 twin-jet light bombers, and 54 swept-wing jet ftrs (probably MiG-Type 14s).

Soviet jet acft reported carrying out night flying ops at Brzeg Airfield (20 miles southeast of Wroclaw). This and other reports of unusually high degree of daylight flying activity at other Soviet airfields in Poland, indicate Soviets taking advantage of good flying weather for tag after Winter layoff.

Fairly reliable source reports 86 Japanese-Type ftrs on Kiargwan and Tachang Airfields near Shanghai. Warcraft reportedly flew, and shipped from Mukden in crates, for local assembly. Source states they are test flown by Soviet and Chinese pilots who have been ordered not to commit them to combat. Source also states 6,500 Soviet personnel stationed within 60 mile radius Shanghai.

The air regt, known to form part of North Korean Armed Forces, reportedly increased recently from 800 to 1,500 men and re-equipped with 36 Yak-9 Type ftrs.

Fairly reliable report, based on alleged observation of partial Chinese translation of agreement signed by Mao Tse-Tung in Moscow, states Chinese Communists will receive 800 acft from USSR consisting of:

300 ftrs of LA-5, LA-7, and LA-9 types; 140 attack bombers of IPT-TMH and UL-10 types; 100 bomber Sei Tu-2 and SB-3 types; and 260 transport and reconnaissance acft of unknown types.

Same report states Nationalist striking force intercepted 9 Apr by approx 25 Chinese Communist ftrs (types not indicated). In ensuing dog-fight, both sides reported to have suffered losses.

Purchase of Japanese cement for Alaskan Construction Program is subj.

1. DA has approved procurement of 8,500 short tons Japanese cement for use in Alaskan Construction Program for Jun and Jul deliveries. Possible that District Engr, Alaska, will ask for divr in Alaska by 1 Jun, and probably no later than 15 Jun, of first shpmt of 3,500 tons. Office, Chief of Engrs, is presently initiating action to trf funds to CINCPAC to permit procurement along lines Part 4 URMSG C 55262, Mar. Details of procurement and proposed exact sed for divrs will be worked out between District Engr, Alaska, and CINCPAC.
2. Use of SCAJAP vessels was considered but found to be more expensive than utilizing MSTs vessels or time-chartered vessels which would otherwise return from Japan empty. Problem of handling shpmts which will not usually make up a full cargo also influenced conclusion. Accordingly, MSTs vessels or returning time-chartered vessels should be utilized to maximum extent possible. Cargo should be handled insofar as possible at Whittier.
3. This is a trial procurement in which we are endeavoring to overcome difficulties that obstruct procurement

URAD C 55587, 25 Mar 50. Electrolytic copper shipments is subj.

The following is transmitted at the request of the Dept of Commerce:

"Re ur Mar C 55587, regarding electrolytic copper shipments from Japan on S/S Lisholt. Part 2 of msg states that contract clause provides 'consumption in the US is guaranteed (subject to re-export under permit of the US govt, issued by office of International Trade, US Dept of Commerce)'. It is not clear to OIT whether this is standard contract clause and whether intention was that 'permit' should be validate export license issued by OIT on basis of written application filed with OIT, stating name of ultimate consignee, ultimate destination, end use of commodity, and other info to enable OIT licensing officials to exercise judgment whether license should or should not be granted in light of US Export Control Policies. Term 'permit' used in contract clause could also be construed to include general license established by OIT, which can be used by US exporter on mere filing of export documents with US customs, which only checks to determine if commodity is within general license category for stated destination. Electrolytic copper coming into the US intransit can be re-exported from US under general in-transit license established by OIT regulation to any destination. OIT licensing

officials do not see shipping documents and have no opportunity to apply US Export Control Policies or right to withhold this general license in particular case unless violation of US Export Control Regulations is found. In cases described in your msg, exporters from US used it general license and appear to have made required disclosures on shipping documents. Accordingly these exporters may possibly be able to defend charge of violating contract clause by showing they used OIT general license. OIT suggests that if requirement of OIC scrutiny under US Export Control Policies is desired, contract clause be revised to prohibit re-exportation from US except under 'validated export license' issued by OIT, Dept of Commerce, on application filed with it. Difficulties cited as regarding shipments under OIT general license also applicable to shipments from US Foreign Trade Zones, although OIT regulations provide that such shipments may be made 'without a license from the Dept of Commerce' rather than under general license."

DECLASSIFIED PFR JCS LTR OF
20 AUG. 75

REURMSG Apr C 55754 and OURMSG Apr W 81428. State reqts actg POLAD discuss the folg matter with SCAP and secure his advice. Reply may be sent either by SCAP after discussion with Actg POLAD or by Actg POLAD after coordination reply with SCAP but in either case will be fwd to DA. Text of State reqt is as fols:

"Dept State has consulted other interested agencies US Govt re quest adherence Japanese Govt to International Whaling Convention. It was considered possible that immediate adherence Japan and consequent representation of Japan at meeting Whaling Com in July 50 might have effect of causing other govts such as UK, Australia, Norway, and USSR to withdraw from convention and thus to prejudice achievement conservation measures which at present moment are receiving international support and cooperation.

"Dept of State recognizes important political and conservation ends to be gained from Japans adherence, but at same time desires to avoid, if possible, raising ques Japans participation in July meeting Whaling Com with possible adverse effects on entire whaling conservation program. Dept State, therefore, suggest that further action Japans adherence be postponed until around Aug 15 when meeting com should be over. Adherence Japan after this date would prov Dept State, should objections be raised, with opportunity to point out through diplomatic channel advantages to be gained from Japans adherence, with view to stabilizing situation before 1951 meeting com."

REURMSG Mar C 55529. State requests Actg POLAD discuss the folg matter with SCAP and secure his advice. Reply may be sent either by SCAP after discussion with Actg POLAD or by Actg POLAD after coordinating reply with SCAP but in either case will be fwd to DA. Text of State request is as fols:

"State Dept urges reconsideration of decision to discontinue Fur Seal Investigation. Regrets not having previously stressed its interest in facts investigation would disclose and importance those facts in relation their bearing upon basis for new Four Power Fur Seal Treaty to reilace 1911 Treaty abrogated by Japan in 1941.

"Provs of 1911 Convention allocating fixed shares to Japan, USSR, and Canada were based upon apparently erroneous belief there was no intermingling between Asiatic and Pribilof seal herds and consequently no destructive effect on Japanese fish resources by latter. Japan's claims to contrary were largely discounted even when she cited that reason for abrogation 1911 Convention, owing to gen lack scientific data in respect seasonal population seals in waters off Japan and relationship between seals of the Eastern and Western Pacific. Until Japan's sure no opportunity study Asiatic fur seal herds and collect reliable statistics on their habits.

"Before investigation commenced last year was cancelled several seals were collected, three of which bore tags attached to Pribilof seals by Fish and Wildlife Svc of 1947. Significance

of finding three tagged seals same age gp in one season can be understood when consider Pribilof seals tagged 1947 represent only one half of one percent 1948 census Pribilofs herd. This would not take acct nbr tags not reptd by Japanese poachers. These preliminary incomplete findings, together examination stomach contents, appear to substantiate Japan's claims that annual damage to her fisheries migrating Pribilof seals may be greater than value annual Japanese share Pribilof kill under 1911 Convention. Although definite conclusions cannot be reached upon basis seals collected 1949 there is clear indication entire basis for determining relative shares in Pribilof kill must be reexamined before new Seal Convention negotiated. State and Interior strongly feel determination this issue on scientific grounds prerequisite to new treaty. Strong possibility it will be proven Japan entitled increased share Pribilof kill to compensate for damage her fisheries. In light this possibility ultimate value results investigation to Japan would exceed many times value present outlay funds this purpose.

"Since pelagic collection seals essential to investigation urgent that collecting be done now while seals present in waters off Japan. Contemplated net more than 1,000 seals required this purpose. Except for skins required be retained scientific purposes State and Interior have no objection disposal in Japanese economy of skins collected.

"Re method notification Soviets suggestion that SCAP notify Derevyanko most routine manner at time initiation investigation was based on desire create least possible reaction on part Sov Govt in hope investigation, which is expected take about month, could be substantially compd before Soviets interpose strong objection. Mention might be made to Sovs if SCAP considers it desirable, that results of investigation can be made avail all interested govts. While State considers this method of notification tactically desirable, it prepared notify Sovs through dip channels if SCAP unwilling concur.

"Re urgency this project, State wishes emphasize that because of intermingling seal herds future of Pribilof herd in jeopardy if Japan free to take seals pelagicly. Believe new seal treaty negotiated on more equitable share basis would obviate Japan's reasons for abrogating 1911 Convention and be acceptable Japan. Such new treaty would restore prohibition pelagic sealing

Capable Gen Andre Hartemann has assumed command French Air Forces Indo-China on 1 Apr. Hartmann has stressed idea that one of reasons for lack of success in Indo-China war has been improper use air power. He intends to establish efficient coordination between air and ground, and is developing priorities for United States Air Force and Royal Air Force materiel assistance.

Large number of CNAF pilots, all under 30, have been ordered from desk to flying duty. Since many of these were grounded for expressing dissatisfaction with CNAF, there may be a few defections to Communists during coming months.

CNAF has acquired, through purchase in Philippines, 300 cases of radar and a large supply of bombs and fuzes.

6 Soviet swept-wing jets and 6 Yak-9 aircraft reported over Hanking on 27 Mar. 56 Soviet combat aircraft also reported at Shanghai. Presence of Soviet jets in China may be show of force, part of war of nerves, designed to undermine Nationalist morale. CNAF A-2 believes Chinese Communists have volunteer teams of Soviet airmen similar to a VG at beginning of World War II. Probable that Soviet advisers now with CCAF in Shanghai and Peiping, and possible that Soviet airmen will fly CCAF aircraft.

7 of 71 CNAF-CATC planes at Kaitak airfield, Hong Kong, damaged by explosions believed caused by time bombs planted in planes.

SUPREME COMMANDER FOR THE ALLIED POWERS
APO 500

AG 464.6 (18 Feb 50)NR/MJ

21 March 1950

~~CONFIDENTIAL~~
SUBJECT: Angaur Phosphate Project

To: The Under Secretary of the Army
Washington 25, D. C.

1. Reference Angaur Phosphate Mining Agreement, 21 December 1949, as amended, and paragraph 6c, General Headquarters, Supreme Commander for the Allied Powers, letter, AG 464.6 (18 Feb 50)NR, subject: Transmittal of Angaur Mining Agreement, Comments Thereon and Additional Background Information on Operation of the Project, 18 February 1950.

2. It is proposed that reporting of phosphate rock shipments, and determining obligations due the Trust Territory for processing tax and severance fee on phosphate rock shipped from Angaur to Japan be done in the following manner:

a. General Headquarters, Supreme Commander for the Allied Powers, will inform Department of the Army monthly by radio, with information copies to High Commissioner, Trust Territory of the Pacific Islands, and Chief Administrator of the Trust Territory of the Pacific Islands, of the quantity of phosphate rock shipped from Angaur, identified by date of shipment, name of ship, and portion of cargo by lot number, based on cargo measurements made at the time of unloading by the Japan Marine Surveyors and Sworn Measurers Association, and the analyses thereof made by the Agricultural Experimental Laboratory of the Ministry of Agriculture and Forestry, Japanese Government. Sampling will be participated in by the Phosphate Mining Company, and purchasing companies, and done under the supervision of the Japanese Government with umpire samples being retained by General Headquarters, Supreme Commander for the Allied Powers. The High Commissioner of the Trust Territory of the Pacific Islands will have the option of appointing inspectors to be present at any of these operations.

b. Included in the message will be the FOB mine price of Florida pebble phosphate, 70-72 percent bone phosphate of lime (Ca₃P₂O₈), as last quoted in Engineering and Mining Journal, Metal and Mineral Markets, prior to the date of departure of the cargo from Angaur.

~~CONFIDENTIAL~~

APPB

DECLASSIFIED PER JCS LTR OF
29 AUG 75

W-81508-24a

AG 464.6 (18 Feb 50)NR/MJ
Subj: Angaur Phosphate Project

- (1) Based on the 1949 formula weights of 141.96 and 310.20 for P_2O_5 and $Ca_3P_2O_8$, respectively, 70 percent bone phosphate of lime content is equivalent to 32.035 percent P_2O_5 content.
- (2) In the event that a typographical error clearly exists in a pertinent issue of Metal and Mineral Markets, the mean price from the next preceding and the first subsequent issue will be employed instead.

c. Finally, the processing tax payment due the Treasurer of the Trust Territory, and the severance fee due the Administrator or the Trust Fund for the quantity of rock shipped, of the analysis as reported, will be stated.

3. Should the High Commissioner of the Trust Territory of the Pacific Islands disagree with elements of the report as transmitted, General Headquarters, Supreme Commander for the Allied Powers, may be informed of points of disagreement by radio to permit immediate re-examination of data and adjustment of differences.

4. In arriving at the processing tax and severance fee obligations, the formulae outlined in Inclosure 1 will be employed.

a. Use of these formulae will permit adjustment to be made for variation in analysis of phosphate from the standard, and for variations in price of Florida pebble phosphate.

5. This method of calculating the processing tax and severance fee was concurred in by the High Commissioner of the Trust Territory of the Pacific Islands by radmsg 110126Z March 1950, to Supreme Commander for the Allied Powers.

6. Department of the Army approval of the proposed procedure is requested.

FOR THE SUPREME COMMANDER:

K. B. BUSH
Brigadier General, USA,
Adjutant General

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

As a result of a long standing investigation CSOCI has just received the following report on Ivan Yokosuke Mutsu presently listed as correspondent for MGM News of the Day and formerly of United Press "in the course of this investigation it has been disclosed that Ivan Yokosuke Mutsu is probably a Japanese Citizen. Since Mutsu listed his citizenship as British-Japanese on his PSO dated 12 Apr 48 and since an official of the the British Embassy, Washington DC did not commit himself on the status of Mutsu's alleged British Citizenship, the possibility exists that subject is a Japanese Citizen and, as such, an enemy alien.

"In consideration of information contained in para above and in accordance with Para 7, Dept of Army SR 360-60-1, subj 'Accreditation of Correspondents' dated 27 Apr 49, subject cannot be accredited as a correspondent.

"This information furnished for your use and guidance and CSOCI would like FEC remarks concerning Mutsu citizenship status and your recommendations for action in regard this correspondent status."

Following transmitted at request Dept State.

"On Mar 16 Brit Emb expressed hope to State that SCAP would moderate purchase rice in Thai and Burma in excess Brit estimated figures present SCAP contracts purchase 300,000 tons Thai and 170,000 tons Burma. Brit state similar representation being made simultaneously by Gascoigne to SCAP.

"Brit 'forward estimate of rice supplies and requirements' is not detailed statistically, but on above Brit estimate SCAP contracts they predict that considerable deficit at best and at worst over 800,000 tons deficit for Asian rice markets. Brit asked supply further statistics.

"Brit argument on 'rice situation in SEA' makes no specific request but concludes with 'earnest hope SCAP take no action clearly detrimental interest large part area.' Three point argument as follows:

1. "On basis relative need for imported food, Jap should not be allowed take more than fair share limited supplies.
2. "High rice price may not increase production and might cause decrease.
3. "High rice prices in importing countries as Malay and Ceylon may lessen resistance to Communism, and are bound to raise costs of exports, possibly making them uncompetitive.

"Brit argument based on their report SCAP wishes buy 500,000 tons total from Thai and that Burmese will try sell Jap total 500,000 tons.

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

URMSG Mar C 55641. Undertaking negotiations with ECA looking to firm commitment you desire before you proceed with fertilizer program for export to Korea. Rqst im clarification following points:

Re Part 3, presume Japan would purch from Chile, England, Canada, Austria through trade agreements and substantially all nitrogen would be purchd for goods rather than dollars. Is this correct? If partial dollar payments required could you estimate percentage of dollar pmts against total value of nitrogen thus purchd?

Fifth country in msg as recd is East Germany. Presume this should have been recd as West Germany.

If DA correct in believing your purchs will be made through trade agreements presume Ltr of Credit mentioned Part 3 would run to SCAP as beneficiary and not to countries mentioned. Similarly re ltr contract SCAP would be party.

Re Part 4, Para A reports indigenous production nitrogen (N) 382,000; and B reports import rqmts for domestic consumption nitrogen (N) 0. Assume these figures were correctly recd and reflect a forecast reduction in nitrogen use for domestic purposes.

Would appreciate reply ASAP. Will keep you informed of all cur devs re this matter.

taken by SCAP to grant parole to Japanese war criminals. According to a United Press news dispatch from Tokyo dtd Mar 7, SCAP announced on that date the establishment of a 'three man Occupation Parole Board' for the purpose of considering parole to Japanese war criminals. So far I am not aware of any info from official sources to verify that news story. Since the meeting out of stern justice is a matter of importance and has been under-taken as a joint responsibility of the Allied Powers, I have a few queries to make on behalf of my govt. I wish to know, in the first place, the composition and power of the 'Three man Occupation Parole Board'; secondly, its relation to the Allied Council in Japan and the representatives in Japan of the other powers members of the Far Eastern Com; thirdly, whether the Japanese war criminals to be considered for parole include those who were tried and convicted by the International Mil Tribunal for the Far East; and if so, finally, the legal basis on which SCAP took that action. Your early reply to these questions will be greatly appreciated."

Part 3. SCAP Cir Nbr 5 dtd 7 Mar was circulated in reply to Philippine inquiry of previous meeting for info regarding release of war criminals in Japan. Re Chinese statement State believes Chinese Delegate may eventually raise ques violation Para 5 B of FEC policy decision of 3 Apr 46 reappréhension trial and punishment of war criminals in the Far East. Would appreciate your suggestions and info on which to base reply to Chinese inquiry.

DECLASSIFIED PER JCS LTR 01
20 AUG. 75

URMSGs Feb Z 38281 and Mar C 55237, MYMSG Feb W 80075. Use FY 50-51 Counterpart Funds for purchase preferred bank stock is subj.

1. There is no objection to the use of such part of the 40,000,000,000 yen allocated for pvt enterprise investment, as is proposed in URMSG Z 38281, for the purch of preferred stock in stated banks for the purposes and within the limits given. However, it is assumed this will not include any commitment to permit the use of the counterpart fund or other Japanese Govt Funds for the purch of the resulting debenture issues.

2. Also, it is assumed that while the preferred stock dividend rate was not specified and is not specified in the draft law "Issuance of Debentures by Banks", this rate will be governed by the terms of purch by the Counterpart Fund and will be normal Counterpart Fund rate.

3. It is not clear from reading the draft law (Article 13, Para 7) that preferred stock dividends are cumulative and a first charge against the earnings of the issuing banks and it is suggested that it may be advisable to clarify this in the Preferred Stock Purch Agreement.

4. With respect to the permission for common stock dividends (Para 3 C) it is noted that the draft contains no reqt for making adequate provision for known losses and creating aprop reserves for losses prior to the

FROM : DA WASH DC NR : WCL 81369 1 APR 50 CONT'D

declaration of common dividends, and it is suggested this also might be included in the Purch Agreement, pending adequate banking legislation to that effect.

5. With further ref to Para (3 C), in Articles 10 and 14 of the proposed law, common dividends are permitted if capital and surplus are more than 1/20 of total deposits and debentures or if any amt equal to 10% of capital, or 25% of NZ earnings is first added to surplus. It is recogd that this proposal was intended to put the banks generally on a comparable basis to the banks acquiring preferred stock and required to retire 10% of the preferred stock issue annually.

6. However, there is a very important fundamental difference. The banks that have recd the additional preferred stock capital and, thereby, achieved the 1/20 ratio actually have possession of the increased capital as a further protection to their depositors and debenture issues-whereas, the remaining banks have a capital deposit ratio approximately 1/2 of that. It would appear that the need to strengthen the capital structures of these nonparticipating banks should not be left in too large a degree to the result of possible capital acquisitions because of dividend declarations. These banks should be required to trf a min of 50% of net earnings to surplus until the 1/20 ratio is achieved, higher through the acquisition of new capital or the accumulation of surplus.

Failure to do this gives bank mgt's an extreme degree of freedom and discretion in the pmt of dividends which may not result in any eff action to attract or increase capital. While the increase in the allocation of net earnings to surplus of 25% to 50% may either restrict or prohibit dividends in some cases obviously this would be in situ where dividends should not be paid in any event. It does establish a framework under which constructive dev's permit an opportunity to go on a dividend basis.

While the advantage of dividend pmts in the acquisition of new bank capital is recogd, there is a substantial danger in permitting too much discretion under circumstances where these dividend pmts will suggest a bank strength which does not exist.

DECLASSIFIED PER JCS LIR OF
20 AUG. 75

URMSG C 55413 and C 55631 subject Ryukyus FY 50 Program, allocations and obligation.

1. URMSG C 55413 shows obligations thru Feb as follows:

Project 126, \$669,015;
176, \$179,053;
186, \$339,023;
196, \$439,395;
426 and 476, \$4,452.

URMSG C 55631 shows obligations thru Feb as follows:

Projects 126, \$662,710;
176, \$74,834;
186, \$157,284;
196, \$444,109;
426 and 476, \$65,013.

Department Army cannot reconcile differences.

2. For Projects 126, 136, 146, 156, 176, 186, and 196 Department of Army has contracted for all known requirements FY 50, estimated value \$2,500,000.

URMSG C 55631 indicated total theater obligations and projected theater obligations in these projects to be \$17,482,139. For these projects a total of \$26,055,500 has been programmed here. In view of difference \$6,073,361 request advice if this amount needed to fulfill Ryukyus requirements these projects. If so, indication of items to be procured desired.

3. If additional procurement by Department of Army desired, request should be made by 15 Apr to insure obligation

DECLASSIFIED PER JCS LTR OF
20 AUG. 75

GURMSG Mar, W 80482.

Pol is partial text of msg fr US Ambassador, Djakarta, to Secretary of State, which is repeated for your info:

"Djuanda says normal per capita Indonesian consumption cotton textiles 11 meters per annum. Considering present difficulties Rusi has ventured to date only to plan on spartan program of 4 meters which would make total 288 million for 72 million population estimated to cost 72 million dollars. Orders toward this end so far include ECA financed amount of 28.7 million dollars (11.7 ordered from US and 17 fr Japan) 18 million meters (about dollars 4.5 million) placed various markets.

"For several years war and privation textile shortage has become serious. Monetary measures of this month have not yet been in operation sufficiently long for results to be determined. First reaction has been for textile prices rise spite Govt attempt hold steady. In view significance cotton textiles in life populace and degree they serve as incentive to production and marketing goods which Rusi must export, Djuanda feels imperative insure improvement over 4 meter base. This week he will take up programming of over-all imports for

2d quarter.

"In addition to above mentioned ECA orders of dollars 28.7 million and that of dollars 4.5 million which Rusi has ventured on own account Djuanda thinks for constitutes bare minimum: 90 million meters textiles should be ordered fr Japan immediately and 60 million more in June or total 150 million meters worth dollars 58 million to which should added 2,000 tons of yarn at dollars 3 million or total dollars 41 million. In addition would seek 40 million meters textiles from US at once and 40 million from other countries in June or total 80 million at dollars 20 million.

"Program for 1950 set forth preceding para thus involves textiles totalling dollars 91.2 million plus dollars 3 million for yarn. Djuanda believes can manage on about this total for textiles. Estimates raw cotton needs for 1950 at dollars 4 millions and total yarn at dollars 21 million. Said purchase most of 80 million meters from US and other countries could be switched to Japan if production and credit facilities ample.

Djuanda said obliged calculate very conservatively on amount consumer goods can be ordered at own expense until observed to what extent exports will be revived by recent monetary measures. Djuanda thinks should concentrate much as possible on capital imports that will help restore economic productivity of country. Considers textiles, however, most essential consumer item and feels must take immediate steps insure continued import flow thereof.

"Indonesians willing their trade delegation discuss possibilities at Tokyo around middle Apr. Djuanda fears, however, this parliament would not approve seeking credit fr a Japanese Government. I have not attempted explanation of credit arrangement that agriculture and SCAP might consummate, but should like to see it of such character that it could be identified and explained as credit of American origin with repayment to be made accordingly. Do not favor further grants to Rusi unless may be some distribution sea countries of unused ECA funds originally intended for China or some new funds of this type becoming available without necessity Rusi case having to be taken separately to Congress. Considering exporting potentiality of borrower as well as its importance as textile market and facing fact that US has vital interest in economic viability and political stability of this new state, believe risk of good sized 3 or 4-year credit should be taken. Might be broken into 2 components; 1 for purchases on Japanese market and other on US with effort thus to channel current Indonesian needs."
