DECLASSIFIED PER DA CIRC. #127
23 DEC. 53

Request release of factual information on adequacy of winter clothing to correct reports from Korea as follows:

Associated Press: "Eighth Army pushing arctic clothing to troops but many are still in summer uniform. Army supply men say cold weather equipment is in Korea and is being distributed to front line units. However along roads and windswept fields there are more men in thin cotton garments than in wollens. Each soldier should have shoepacs, woolen socks, woolen underwear, woolen trousers, windbreaker trousers, padded lining, woolen gloves, warm caps.

This equipment may have been distributed to some units but no soldier with all of it has been seen yet."

Simultaneous reports indicate Marines all set: "US Marines, clad in winter Parkas... Parka-clad Marines pushing Northward." Comparisons in press stories indicating Marines fully equipped and Army only partially equipped or still in summer uniforms getting big play in US Press. Can you request correspondents to write stories to counteract bad public reaction in US to Army's reported failure to equip troops?

OURMSG W 96010. Bolte tells me some of the troops at front do not have cold weather clothing. Please let me know whether this is due to lack of such clothing in theater or is it a distribution problem within theater.

Bolte also said that supply of Army Eight would be greatly facilitated by use of port of Chinnampo. Is there anything that could be done at this end to facilitate use of that port.

RECORAD W 90871 7 Sep and URAD CX 63804 of 20 Sep.

1. In gen concur recommendation URAD. Agreed rfmt to purch mil pmt certs for dollars will to some extent be deterrent to fgn pers excessive purchs in US fac. However, to preclude superimposing large burden on US sup system which will increase as add fgn mil force arrive in Korea suggest additional control providing per capita limitation of mil pmt cert use by fgn person rank and grade basis. This would be applicable to all except US pers.

2. Resoga that unrestricted use of mil pmt cert by US pers as compared to fgn pers restricted use may give rise to ques of inequities among United Nations Forces. However, believe this preferable as compared to unrestricted use by fgn pers which may result inequity by reason of difference in mil pay scales of various govts. Rest FECON decision re suggested restrictions in order that fgn govt representatives may be advised here.

3. In conversation herd with fgn govt representatives it has been suggested that fgn govt pers be paid in mil pmt cert only to extent of need for immediate use in US fac. Also that pay of individuals above that needed for immediate use might be retained in pay acct and drawn against by individual upon return to homeland. With regard to pay of pers in Korean whan fgn govts advised to take precautionary measures against acquiring excessive whan holdings by virtue of conversion of whan for pers pay. Believed fgn govts could pay their mil pers in part in whan under explicit understanding that no conversions would be allowed. Such

JINTSUM from Army, Navy and Air.

Joint Intelligence Indications Committee 9 Nov report includes:

a. Immediate objective Chinese intervention in Korea apparently to halt United Nations advance toward Manchurian border. Further objectives not yet determinable. Increasing indications Chinese and Soviets aware of risk of war with United States as result of intervention.

b. No new Chinese Communist units firmly identified in Korea. Strength of Chinese units in contact estimated at 34,000. No information as to nationality of pilots of Soviet jet fighter aircraft encountered by US planes. Further indications of heavy movements of Chinese Communist troops in China towards Northeast and of preparations for defense against air attacks on Manchuria. Recent Chinese Communist propaganda that Chinese volunteers are fighting in Korea and that Chinese people must assist Korea in crushing the American invasion may indicate psychological preparation for hostilities. Soviet and Eastern European satellite propaganda implies that Chinese are committed to waging of undeclared war in Korea. Chinese Communist have made no reference to protection of Yalu River hydroelectric installations but there are indications that Communists may be dismantling and removing machinery and equipment.

c. No indications of Chinese Communist intention to invade

Indo China or of Viet Minh offensive in Delta area in immediate future.

d. Press reports indicate that Chinese Communist troops have begun to enter Tibet proper. Chinese rejection of Indian protests, Chinese demand that small force Indian troops withdraw from Tibet, and decision of Tibetans to cease attempts at further negotiation indicate that Chinese are proceeding with military conquest of Tibet.

e. No indications of unusual military activity of Soviet or satellite forces. Some increase Soviet deployment of anti-aircraft units at strategic points in Europe has been noted but no marked trend towards accelerated air defense is evident.

f. Comparatively restrained attitude of Soviets recently in Germany, Austria and Iran probably designed to allay Western European fears and retard Western rearmament. (End of JIIC rpt).

In identical notes to United States, United Kingdom and France, reiterating theme of Prague declaration, USSR on 3 Nov proposed convening of big 4 council of Foreign Ministers to examine question of implementation of Potsdam agreement concerning demilitarization of Germany. Move represents no new Soviet policy and is probably another Soviet attempt to prevent effective utilization of West German manpower and industry in West European defense system.

6 Nov proposal by Yugoslav United Nations delegate to admit Italy to United Nations represents important step in improvement of Yugoslav-Italian relations and was probably intended to establish Yugoslav good will prior to impending discussions of World War II reparations with Italy. Proposal further designed to advance cause of Titoist elements in Italy and exploit disillusionment and dissatisfaction within Italian Communist Party.

Army. Marshal Tito is reliably reported to have extended period of service of Yugoslav Army conscripts in order to keep more men under arms. Call-up of 1930 class is under way and bulk of 1928 class due for release in Oct, is being retained in service.

Navy. Admiralty reported successful conclusion 2d British-Italian Naval exercise Mediterranean comprising British-New Zealand PP SS Italian Corvettes. Previously joint anti-sub maneuvers held off Malta Aug.

Navys most pressing need is hunter-killer group formed around several light carriers.

French training skeleton crew of 17 officers 130 men take over United States CVL Langley.

French Navy requested \$320,000,000 in 1950 budget. Entire proposed military budget totals approximately 2 1/2 billion dollars.

Admiralty by end Mar 1951 will have refitted modernized 450 ships reserve fleet.

French escort carrier Dizmude docked Saigon 28 Oct carrying 40 F 6 Fs from United States for French AF.

Reports from Indo China indicate that French Naval Forces currently able to exercise effective control over arms smuggling by sea to Viet Minh. However, in event of all-out areas of Indo China would make it impossible to prevent landings of supplies and personnel for Viet Minh in Northern Indo China. French high command, although not expecting large-scale support of Viet Minh from Nainan Island, plans asking Paris for additional Naval vessels and personnel.

Air. British guided missile development assigned highest priority to insure availability of personnel and facilities required implement accelerated program. Program to be carried out under newly created position of Chief Executive Guided Weapons in Ministry of Supply. Importance attached program also indicated in proposed creation of Chiefs of Staff Sub-Committee for Guided Weapons in Defense Ministry.

"FARC" New French ground-to-air guided missile, being subjected firing tests at Suippes at rate of 2 monthly. French officials reported completely satisfied with results of tests and planning control experiments at Colomb-Bechar in near future.

Redesignation of Soviet 2d Air Army in Austria as 59th Air Army confirmed by recent documentary evidence. Renumbering probably effected during latter part of 1949 at same time 16 Air Army in Germany redesignated 24 Air Army.

Pol info with respect to Interim Committee action concerning the application of 12 Oct has been rec by State Dept from USUN. State Dept has reqst that it be fwd for your info. This formulation is to be part of IC record but not otherwise publicized and is for confidential asst to UC:

"The Interim Committee on Korea wishes to ensure that the people of the Northern part of Korea shall have the opportunity to participate fully and freely in the establishment of a unified and democratic govt of Korea. It therefore advised the UC on 12 Oct to exercise administrative functions in the North until the Commission had considered means of consulting the Korean people and their representatives."

"The Interim Committee on Korea considers that in order to conform with the resolution of the Committee adopted on 12 Oct 1950, the following principles should govern any use in the North of Koreans from South of the 38th Parallel, subj to the needs of military ops and security:

"1. Efforts shld be made to use members of the local population wherever possible. Any Koreans from South of the 38th Parallel who are used in the North should be appointed by, be under the control of, and be responsible to the UC and not act as the representatives or agents of any other authority;

"2. No one should be used in a manner which wld enable him to bring political pressure to bear upon the local inhabitants or in any manner restrict the free expression of political opinions by the local inhabitants. These principles will be reviewed by the UN Commission for the unification and rehabilitation of Korea after it meets."

Request information on which to answer queries on following dispatch in Washington Star 8 Nov under by-line of Keyes Beech:
"If these guys had spent more time on the rifle range and less time in the PX Snack Bar or in Troop Information and Education classes they might be alive today. Speaker was hardboiled old Noncom. His remark is perhaps the most pungent criticism yet made of the post war US Army. 2 months we were in danger of being pushed out of Korea. How close is something only our Generals and a few correspondents knew. They will not forget. Properly equipped, properly trained and properly indoctrinated, the GI probably is the equal of any fighting man anywhere. First American troops to go into Korea were none of these things, despite official assurances from the high brass. This wasn't their fault. It was the way it was used or misused. For the first time observers had eyes opened to fat occupation Army carried in the form of Special Services, Hotel Staffs, Hobby Specialists, Troop Education Experts, Public Relations Officers and other assorted projects. High ranking officers hope the idea of a "Democratic" Army is dead forever. "This Army isn't supposed to be democratic," a General said. "It's totalitarian by nature." Some Army officers spoke admiringly of the high regard Marine enlisted men had for their Noncoms. One of the most striking differences between the Marine Corps and the Army in Korea was that the Army had to establish "straggler collection points" while the Marines had none."
In view similarity Beech dispatch and recent Baldwin story can you add anything to your C 68280 of 4 Nov.

URMSG CX 67690 of 28 Oct. This Joint Army, State, Treasury and ECA Cable.

Interim Committee completed discussions of recommendation use of scrip in Korea north of 38th. Committee members expressed view issuance UN scrip involved complicated questions which would request further exam before such action could be taken. Although committee felt there were political objections to use of ROK curr in north, considered its use warranted in view of delay involved in such exam and need for prompt action. On motion Australian representative for resolution adopted 7 Nov by Interim Committee: "The Interim Committee on Korea advises the unified comd that it has no objection to the use for the time being of the curr of the ROK north of 38th parallel. This advise is subject to revision by the UNCURK."

In light resolution and concern here further delay in adoption of eff curr plan will cause cont loss value N Korean curr with undesirable consequences discussed W 94094 and other msg, considered procedure outlined W 94094 should be fol.

Considered urgent steps be taken establish equitable rate exchange between northern and ROK curr in accordance with Part 2 B and Part 3 A W 94094. Please fwd recm soonest taking acct ROK views.

Re Part 2, Para D, W 94094, conversion ROK for NK curr need not be attempted while mil opns progress unless in your opinion desirable.

URMSG C 67852. Boundary as shown on map key nbr 800349 will be referred to as Line 1 while boundary as shown on sheet K 50-0, L, 551 and K 52-I, L 541 will be referred to as Line 2 in this msg.

Line 1 has basis in China-Japan Treaty of 1909 except description in treaty is not specific and only covers NE portion of line. It mentions a monument without giving its location. Considerable evidence that this monument is the 1 SE of and adjacent to Tien Ch Ih. Line 1 is shown on most Japanese maps and most maps published in the US.

Line 2 derived from Manchuria scale 1/300,000 maps and other Chinese maps and is considered to be Chinese conception of location of line except that Eng Atlas 1934 shows boundary line as falling between Lines 1 and 2. State Dept has reexamined 1909 treaty as result of URMSG but has uncovered no additional evidence of exact location of boundary line. Line 1 is considered as result of considerable study to be most acceptable. The new AMS 1/250,000 scale series L 552 shows this line as boundary line. State Dept and ENGTI concur.

Hanson Baldwin reports in New York Times, under date line Tokyo 2 Nov, that an experienced officer of the USA in Korea stated that the US had "a cream puff Army, not an Army of soldiers." Further states these remarks were echoed by officer after officer and that these officers stated, "training emphasized too much I and E... While underemphasizing the fundamentals."

Only 1 hr out of the 44 training hrs per week is required for the TIP. The Army Education Program, except for basics, is voluntary and held during off-duty hrs, except where a commander sees fit to offer educational opportunities during on-duty time.

The T I & E programs are considered an essential part of training.

The T I & E programs were considered essential by the President's Committee on Religion and Welfare in the Armed Forces. That committee strongly recommended these programs be retained and strengthened. The Dept of the Army has accepted those recommendations.

In view of the alleged criticism of the T I & E programs by officers in the Army in Korea, and elsewhere, it appears either that field commanders or the Office, Secretary of Defense and the Dept of the Army are at fault.

I am concerned with the attitudes reported to have been expressed by the various officers in the Army in Korea, and should like to know the exact reasons for such criticism, in order that prompt and effective action may be taken to change

Danish offer of Hosp Ship Jutlandia for dy in Far East was
acptd 20 Sep. Ship requires recons and fitting with est on
station date 1 Jan 51.

Note fr Danish dtd 23 Oct states recons of ship being
initiated at present time with view to establishing 5 different
hosp secs: Gen Surgery, Nerve Surgery, Thoracic Surgery,
Medicine, and Psychiatry, providing 200 beds in all. Danes would
appreciate notice soonest if the "altered mil situation in Korea
should make it preferable that the ship be otherwise equipped."

If Jutlandia could be converted into Amb Ship instead hosp
ship capacity would be increased and time and costs of fitting
reduced.

Ques raised here as to need for Amb Ship in view of situation

REURAD C 64796. Sig Svc Co (Radio Intel), TO & E 11-500 now designated Comm Intel Teams under Comm Recon Orgn, TO & E 32-500.

Organization of such teams in ROK Army has flwg undesirable effects:

A. Establishes precedent for release of equipment which is in great demand from other fgn countries and for which our own rmts are great.

B. In general equipment is not highly classified, but procedures are highly classified and cannot be released. Supplying equipment without associated procedures is believed of little value.

Flexibility of cellular type organization may permit establishment of unit capable of accomplishing desired local mission considering the above listed objections. If such unit feasible, rqst details be fwded DA for action.

Subject is Republic of Korea Won-Dollar Mil Conversion Rate.

1. Interested agencies understandably feel that on basis data furnished by you and other avail info rate 2500 to 1 considerably overvalued Republic of Korea Won for month of Oct and cannot concur maintaining same rate for Nov. Believe your recommendations result from sole misconception of Wash object AA KK in use of mil conversion rate in case of Korean opns. Appreciate concept implied URAD that conversion rate should not presage inflationary trends in economy. Feel however that rate should reflect realistically internal prices etc for month in which used since primary purpose of rate is for deposit dollars by mil to suspense acct and able realistic rate must be used or mil appropriation will suffer. Expect conversion rate to become increasingly important for use by troops in acquiring Won and considerations equity and prevention blackmarketing requires realistic curr rate.

2. Avail. Data indicate that conversion rate is lagging seriously behind Korean inflation. Price data furnished URAD for Pusan Taegu and Inchon indicate prices those areas early Oct far exceed price level implicit in 2500 rate. Seoul price data URAD and other sources indicate even more serious sit and that price levels after declining from Sep high increased latter part Oct reaching index of 1068 on 1947 base by 27 Oct. 2 fold increase in government wage scales, large United States Army won expenditures indicated by reptd acquisition 10,000,000,000 2 Oct and reqst 10,000,000,000 won additional 28 Oct, increase in GI purch, and, of most importance, cont'd large scale deficit finng by Republic of Korea support majority opinion that rate 5000 won to the dollar would merely be recognition of degree of inflation that has already

taken place. As incidentally the analysis made during 1st half this year cast some doubt on validity use of 1800 to be as base since indicators other than auction rate showed pre-invasion rate overvalued won.

3. Above factors and probable contdg inflationary pressure from side of government and Pvt Ping may depreciate won to even more than 5000 won to 1. However in view possible improvement trans and exp tac during unanimous view here that rate no lower than 4000 to 1 should be used for Nov. You are reqstd to use rate of 4000 to 1 for Nov. This rqtst takes into consideration views expressed by Muccio in which understood Loren concurred.

4. CINCPAC cable C 67691 apparently not repeated to Seoul. ECA concurs in above 4000 rate but rqtsts URAD be repeated to Seoul and rqtsts that Loren's views be indicated in future.
