Secretary Pace has expressed his interest in developing a plan on an Army wide basis to supplement honors conferred by you upon individuals and units when they return to the United States in order to keep alive the illustrious records made on the battlefield of Korea. He feels that consistent with dignity and good taste we should strive for an equitable and comprehensive plan which can continue in effect as long as practical in order to inspire the nation individually and collectively by the valorous and meritorious actions of our officers, men and units. Your thoughts and recommendations would be appreciated. The Department of the Army is prepared for the processing of awards, honors and decorations which require submission to this headquarters for approval.

Press release: Secretary of the Army Frank Pace Jr announced today that the first critical phase of the expansion of the Army has now been completed. The immediate need for trained personnel to meet its requirements in Korea and to train its rapidly expanding forces required that it call on the National Guard and Organized Reserve Corps for experienced personnel and units as it has in all past national emergencies. These personnel have been recalled in accordance with the President's directive as announced by the Secretary of the Defense on 20 Jul 50.

Mr Pace stressed that as a result of the reduction in the scale of operations in Korea the Army will soon be able to effect an orderly redeployment of its forces in Europe. In this connection it is currently planned not to send any National Guard units overseas.

Due to the urgency of the military situation a small proportion of personnel in critical categories were ordered to duty on short notice—some with less than 21 days. However of the total nbr orders to date approximately 50% have been in units and have had a minimum of 30 days notice.

Although the International situation required further expansion of the Army it is planned that units of the Civilian components and individual members of the ERC ordered to active military service after 10 Nov 1950 will have at least 4 months notification unless a material change in the military situation requires a change in plans. It was emphasized that individuals of the reserve whose orders are now in the mail

or who have been temporarily delayed are still required and will have to report for duty. The Officers Recall Program is not yet complete. Already 20,000 individual reserve officers have been recalled, the last of whom will report in November. As the size of the Army continues to increase by induction under selective service additional officers, doctors, and nurses will be required to man its units, depots, and hospitals. Additional company grade officers will be notified in November to report for duty in January and February. After 1 January all officers recalled will be given 4 months notice prior to reporting, on the same basis as members of the Enlisted Reserve Corps. Field grade officers will not be recalled involuntarily unless they are members of units that are called to active duty or are scarce critical specialists not otherwise obtainable.

Physicians, dentists and veterinarians, registered under PL 779 may be assured of this 4 months notice after January 1951, only if they apply for and receive their reserve commissions prior to that date.

The Army will continue to induct personnel under selective service as rapidly as facilities will permit. This will permit the Army to relieve members of the civilian components and certain RA personnel whose enlistments have been involuntarily extended. This can probably be started next summer but may not be completed before early 1952.

Provided that the required effective strength of the Army can be maintained, individuals and units of the civilian components will be retained involuntarily only until they have reached an adequate state of training and until selective service and voluntary methods can meet military requirements.

The problem of the independence of Korea. Resolution adopted by the first committee at its 353d Meeting on 4 Oct 50.

The General Assembly, having regard to its resolutions of 14 Nov 47, of 12 Dec 48 and of 21 Oct 49;

Having received and considered the report of the UN Comm on Korea;

Mindful of the fact that the objectives set forth in the resolutions referred to have not been fully accomplished and in particular that the unification of Korea has not yet been achieved, and that an attempt has been made by an armed attack from North Korea to extinguish by force the Gov of ROK;

Recalling its declaration of 12 Dec 48 that there has been established a lawful govt (the Govt of ROK) having effective control and jurisdiction over that part of Korea where the UN Temp Com on Korea was able to observe and consult and in which the great majority of the people of Korea reside; that this govt is based on elections which were a valid expression of free will of the electorate of that part of Korea and which were observed by the Temp Com; and that this is the only such govt in Korea;

Having in mind that UN Armed Forces are at present operating in Korea in accordance with the recommendations of the Security Council of 27 Jun 50, subsequent to its resolution of 25 Jun 50, that mbrs of the UN furnish such assistance to ROK as may be nec to repel the attack and to restore international peace and security in the area;
