Z-39939 Re Projects 70 and 72 Supplemental Exchange

of Persons Program for Japan. In light of importance and publicity value of Civil Liberties Project for democratization of Japan and to afford representatives of various groups of Japanese society opportunity to inform themselves on civil liberties movements in United States, it is deemed advisable to increase participants in Project 70 from three to six. Recommend approval of such action to be accomplished by withdrawing Project 72, Legal Education and Law School Methods and Standards.

Memo for Record - 11 Mar 50: Withdrawing Project 72 was proposed in view of fact that professors of law traveling to US on educational projects proposed by CIE will, on the occasion of their visit, observe legal education and law school methods and standards and, therefore, Project 72 could be withdrawn without harm in favor of Project 70. B. Long Newsreels

1. Work of American Friends' Service Committee in Applied Democracy, as outlined in WGL 41131, 8 March 1950
2. Utilization of educational films through a film council
3. Pen Pals, with footage on Japanese who write to young Americans to be provided by Tokyo
4. A small-town library which has developed a wide range of community services beyond the lending of books

7. The relations between a trade union and its community
8. Corrective work with blind, deaf and dumb children
9. Audio-visual aids in the classroom

M/R: This command has no firm information on method of funding for dep school program for FY 51. Rumor has it that it will be from GSA funds. This command prefers GARIOA funds because of the various categories of depts attending our dep schools in Japan. If funded from Army appropriations, this command desires Army control without reimbursement from other governmental agencies to simplify fiscal and bookkeeping operations. Under no circumstances does this command desire a dep school system with control divided between the various services. 1. This cotton was diverted from China to Japan in the Spring of 1949 for safe haven due to the critical situation existing in China at that time.

2. The contract between ECA and MITI covering storage in Japan of ECA cotton stated that the depositor should establish an irrevocable letter of credit in US dollars with a prime bank in an amount equal to the charges to and including 30 September 1949, which was the date on which it was estimated that all ECA cotton would have been removed from warehouses in Japan. For SAOUS OUSRO. This msg in two parts.

Part 1: Reurmsg WCL 40533, concerning film coverage of national leader projects, there is no objection to proposed special coverage of UNESCO Project No. 46, to be followed by long newsreel on UNESCO using some of the same material. Whether the seven educational projects lend themselves well to special film coverage is doubted, but the proposed \$35,000 budget is approved if NYFO can guarantee useful material, subject to cancellation if the coverage of the first two projects is ineffective.

Because of the speed with which it loses timeliness, newsreel footage in 16-millimeter version is not desired for use in information centers. Consideration may be given, however, to compiling a two-reel roundup on national leaders in America from newsreel footage.

Part 2: Information is requested concerning the status of the prints of "America the Beautiful" for the American Fair, which is opening 17 March.

**Z-39342** Pass to State and Commerce Depts. Thailand-Japan Trade Agreement is subject.

1. The following press release was made on 2 March 1950:

"General MacArthur today announced that new trade and financial agreements between Japan and Thailand, providing for the exchange of \$90,000,000 worth of goods, were signed in Tokyo. The documents were signed in Bangkok on behalf of the Royal Thai Government on 2 March 1950.

"SCAP officials stated that the new trade agreement provides for an increase of approximately \$50,000,000 over Thai - Japanese trade during the past year, and that prospects are favorable for continued expansion of trade between the two countries. SCAP officials expressed the belief that the new agreement is a significant step toward the attainment of economic self-sufficiency for Japan in view of this country's growing capability to supply the industrial products required by Thailand in exchange for food and other raw materials available in Thailand.

"The new agreements were negotiated early in December 1949 at Bangkok by a SCAP Trade Mission headed by F. E. Pickelle, Chief of SCAP's Foreign Trade and Commerce Division, and Representatives of the Royal Thai Government. The agreements provide for balanced trade on an open account basis to be conducted in terms of U.S. dollars.

"The new annual trade plan provides for the exchange of a variety of goods. Japan will import from Thailand: rice, soybeans, castor beans, sesame seeds and other oil seeds, hides and skins, teak, gum dammar, lac and shellac, salt, bone meal, antimony ore and other raw materials.

For SAOUS (OUSFE). 1. Urmsg WGL 24560, Nov 49. Proposal to authorize Military Governor, Ryukyus to negotiate bilateral postal agreements appears to be only practical solution and is agreeable here. Recommend that at least initial negotiations be conducted through FEC and SCAP. Most nations with which agreements are necessary are represented by missions in Japan and negotiations can be expedited by direct contacts. Agreements to be signed by MG for Ryukyus Postal Administration and approved by FEC.

2. In view fact Ryukyus not member UPU, recommend State Dept ascertain if other nations agreeable to exchange regular surface and air mails with Ryukyus within provisions UPU Convention. Such agreement would obviate necessity negotiating bilateral agreements covering these mails, which would be extremely unusual procedure. Ryukyus would then need only agreements covering special services such as parcel post, money orders, etc., involving financial obligations. Principal countries involved in approximate order importance are: USA, Japan, Argentina, Brazil, Peru, Mexico. Other countries from which some mail received: Canada, England, China, Australia, Korea, Philippines.

Part 1. USAF msg AFPCP-E 22710, 20 Feb to FEAF directs rpt directs a policy re payroll deductions for subsistence that is at variance with established FEC policy of allowing choice by civ personnel of 12 or 21 meals per week which has proved satisfactory from the standpoint of civ personnel morale. In view of lack of adequate commercial facilities and other reasons stated in ourmsg ZX 33080, 28 Dec 49, rqst negotiations be instituted with DAF which will enable FEAF to comply with mutually agreed upon policy with respect to mess deductions for civ personnel in the FEC. As adequate Class "B" messing facilities become available and budgetary considerations permit, action will be taken towards revising downward the number of meals for which mess deductions are made.

Part 2. In view of Comp Gen decision B-85375 of 26 May 49, rqst DA and DAF jointly institute immediate action for such legislation as will permit payment of cash by civ personnel for subsistence.

Part one. Urmsg WCL 39213, 24 Feb 50.

Part two. Delay on part of ZI Armies in furnishing records of Reservists has severely retarded implementation of Res duty tng in FEC. Many records have now been received but a number remain outstanding. In view of this difficulty and the absence of official information that Res O are in the active Res, FEC has been unable to utilize the full number of tng spaces allocated for Res duty tng. It is believed that the outstanding records will be received and that the Res duty tng program in FEC can be placed in full operation commencing with beginning of FY 1951.

Part three. To date only 237 officer spaces and no repeat no enlisted spaces have been utilized for reasons stated in part two above. It is estimated that 2,926 officer spaces and

Res duty (inactive) tng pay for ORC tng is on an open allotment basis rather than bulk fund and is controlled by tng spaces (one man tng day, one 2-hour tng assembly or equivalent tng). Basic requests report on number of tng spaces utilized by FEC to date and number which will be excess to FEC needs in FY 50. Reason FEC has used only small number of spaces allocated is that ZI Armies have been slow furnishing Reservists records. This should be pointed out to DA in the interest of not having FEC quote reduced for FY 51.

Notification was also given that firm departure date and ETA San Francisco would be transmitted as soon as possible. Because the time schedule is tighter than originally anticipated, it is necessary to give the sponsoring agency a maximum of independence in scheduling itinerary and arranging conferences.

1. References:

- a. CINCFE msg CX 54649, 28 Jan 50.
- b. DA msg WX 99398, 10 Feb 50.

2. Ref 1a indicates that 9 Liberties and 3 Cl-MAVls, U.S. Owned, are no longer required in the FEC and are available for release and re-delivery to MARITCOM, and offers a proposed plan for scheduling their release and effecting redelivery to U.S. ports.

3. Ref 1b concurs in the plan outlined in ref 1a as concerns the Liberties and Cl-MAVls and names Olympia, Wash., as the port of redelivery.

4. Upon receipt of ref 1b, COMNAVFE was directed to commence the return of these vessels as soon as practical. However, since passing this directive to COMNAVFE, the question has been raised as to what U.S. governmental agency actually now has title to these vessels? Records of COMNAVFE indicate that at least a portion of them were once naval vessels in commission.

5. In an effort to locate definite information as to what agency now has title, this subject was discussed at length with the following:

UNCLASSIFIED

SCAP Legal Section (Mr. Bassin)  
 Office of the Comptroller (Mr. Scott)  
 G-4 Plans (Comdr Hathaway)  
 COMNAVFE (Comdrs Meola and Witherow)  
 CTS (Lt. Col. Gillespie, Mr. Spears, Mr. Richers)  
 TS (Mr. Hale and Mr. Madill)  
 MARITCOM (Japan) (Capt Burger)

As a result, no definite information in writing could be found.

6. This msg is being dispatched in an effort to clarify the records here prior to returning these vessels to the ZI. The first of these vessels are scheduled to depart Japan about the middle of March.

7. This is an interim action on Trans Jo No 13104, and is suspended until 14 March 50 pending reply from DA.

FROM: SCAP TOKYO JAPAN

**Z=38940**

Reurmsg WCL 39564, 25 Feb, concerning coverage of visiting Japanese, it is suggested that maximums be established of 250 edited feet of newsreel weekly, 1,000 words of newswire daily, and 20 still pictures weekly. When any group is believed to merit priority or special coverage, advice will be sent before its departure. Otherwise it is desired that the New York Field Office use its own judgment in covering what is most colorful and most significant. Particularly in the newsreel footage, there is danger of killing audience interest by repetition of shots showing the Japanese in routine situations. The approximate costs of the maximum coverage suggested above cannot be estimated here.
