Claims of Quartermaster Supply Depot
Employees.

(1) FR: OIG, Civilian Section TO: Director DATE: 8 April 46
RFD

1. We have approximately 610 claims from the island of Cebu by persons claiming employment with the Quartermaster Supply Depot for the dates 8 December 1941 to 10 April 1942.

2. The entire project was not centered in one place but was carried on in several towns throughout the island of Cebu. Although there was some work accomplished during previous months, the vast share of the hauling of supplies took place during March 1942, up until the invasion on 10 April 1942.

3. a. GREGORIO LLINES, Labor Supervisor states in his affidavit:

"The nature of this work was to supervise the hauling of USAPPS supplies, materials and war ammunitions. I hired my men under my control. I was employed as Labor Supervisor from 16 March 1942 to 7 April 1942."

b. LUIS SACUS, capataz, states:

"My job started on 29 March 1942 and ended 7 April 1942 because there were no more supplies."

c. RUSTICO HOLGANZA, Capataz, states:

"I was employed by Lt. Inay of the 62nd Inf. for hauling food supplies from the main road to the hills of Balarong. That the food supplies were stored in the hills so in case of invasion the enemy would not have access to it. The job in Balarong ceased because we had no supplies to handle."

d. CATALINO GIMENEZ, capataz, states:

"I hired men under my control. This job was done under the Cabo system. There were great changes among my men."

4. In view of the above statements and the statement of the Chief Capataz that as a general rule the Cabo system was practiced, and that the QM Supply Depot was an emergency project, hiring men on an emergency status, it is recommended that the employees on this project be considered as intermittent, part time or casually hired and therefore not entitled to benefits under the Missing Persons Act.

- Incl 1 - (Tab A) Affidavit, Gregorio Llines
- Incl 2 - (Tab B) Affidavit, Luis Sacus
- Incl 3 - (Tab C) Affidavit, Rustico Holganza
- Incl 4 - (Tab D) Affidavit, Catalino C. Gimenez
- Incl 5 - (Tab E) Statement, Col. Paul S. Beard

(2) PFI Legal Officer TO: Director, RFD DATE: 9 May 46

1. The activity is referred to in the basic check note and affidavits attached as "USAFFE Quartermaster Supply Depot." There is no information to indicate whether this installation was a Philippine Army project or an activity of the United States Army. It is my belief that practically all of the units in the Southern Islands were Philippine Army units. The term USAFFE has been loosely used in this theater to designate PA units and personnel ordered into the armed forces of the United States, although technically it applied to all of the forces in the Far East.

2. The organized military forces of the government of the Philippines were called into service by the President on 26 July 1942, and placed "under the command of a General Officer to be designated by the Secretary of War." Gen. MacArthur was designated as the Commanding General of the new Far East command. Shortly after he received command he issued a statement in which it was said:

"The plan envisions an immediate construction program at strategic localities to house the thousands of reservists involved as well as the intensive development of new air fields for the rapidly expanding air forces. All Philippine elements which come under American control will maintain their national integrity. They will retain their own uniforms, their own scale of pay, their own promotion list, their own rations, and their own code of military law. Their training, however, will be under the immediate direction of the officers of the American Army. On transfer into the American services they will be paid and supplied from American sources."

(See pages 16 and 17. The Philippine Army: Its establishment, organization and legal basis, by Philippine Research and Information, USAFFE, dated 26 Jan. 1945.) In a letter signed by Carl H. Seale, Adjutant General, USAFFE, 2 Sept 1941, it was said:

"The United States Government has adopted the policy of using the agency of the Philippine Army in the employment of the manpower of the Philippines. The Philippine Army, retaining its own identity, will serve side by side with the United States under a single command."

3. The separate identity of the Philippine Army was expressly recognized by the Congress of the United States in that separate appropriations have been made for its operation and maintenance.

According to Gen. Fitch these funds were and are being expended by Philippine Army disbursing officers in accordance with Philippine laws and regulations, subject to review by the Commanding General, USAFFE or his successor in command.

4. Civilian employees of the Philippine Army have been considered to be employees of the Philippine Commonwealth and not employees of the United States. (See ltr, Gen. Fitch to GP Hanson, Deputy Commissioner, U. S. Employees Compensation Commission dated 2 Oct 1945.) Section VIII of the War Department plan expressly states that civilian employees of the Commonwealth of the Philippines do not come under the provisions of the Missing Persons Act.

5. In view of the fact that most of the troops and installations in the southern Islands were Philippine Army, and since it is likely that most of the persons referred to in the basic check note were employed by Philippine Army units, it is my opinion that it should be determined in every case, if possible, whether the unit or installation in which a claimant was employed was a Philippine Army or U. S. Army unit or installation. This would require accumulation of information and data from officers who knew the facts and a vast amount of time would be consumed before the information can be gathered and conclusions reached which would enable this division to determine whether each claimant was an employee of the Philippine Army or the U. S. Army. Therefore a practical solution must be reached which will permit the adjudication of claims pending the accumulation of such facts. This I believe is possible.

6. The affidavits attached to basic check note show that most of the laborers were hired under the "cabo" system to haul and store supplies and materials during the period between 16 March and 7 April 1942. These individuals would under such facts be local labor casually hired.

7. I therefore recommend:

a. That all laborers on the project who were hired under the cabo system on a per diem basis be determined not to be War Department Employees for the Missing Persons Act for the following reasons to be stated in the determination:

(1) Evidence available, is insufficient to establish that subject was an employee of the War Department and was not an employee of the Philippine Army.

(2) If subject were employed by the U. S. Army he would be a local laborer casually hired and not within the provisions of the Missing Persons Act.

b. That all persons who were employed less than 30 days be treated the same as the above.

c. That an investigation be made to determine whether this activity was a Philippine Army project or U. S. Army activity and that claimant individuals who allege that they were employed on a monthly basis be suspended pending accumulation of facts and further consideration of whether the project can be classified as temporary or emergency and if so whether this is sufficient to justify a determination that such persons are not within the act.

Status of Employees of Cebu Advanced QM Depot.

2 FROM: Legal Officer TO: Director DATE: 25 Jul 46

1. I concur that a substantial number of the employees of the Cebu Advanced Quartermaster Depot should be classified as casually hired on a per diem basis and not under the Missing Persons Act but on the basis of the evidence available and established policies, I am unable to advise that the employees hired on a per annum or monthly basis and who worked for more than 30 days and until the work was terminated by enemy action are not within the act.

2. In the absence of more conclusive evidence to the contrary I believe it is reasonable to assume that the Cebu Advanced Quartermaster Depot was a semi permanent war time installation and that certain employees would be hired for an indefinite period with the intention that they would remain a part of the permanent complement of such installation for the duration of the war.

The vast majority of the employees such as stevedores, cargo movers, and daily construction laborers would on the contrary very likely be local laborers casually hired on a per diem or hourly basis and therefore excluded from the benefits of the act.

3. I therefore recommend:

(a) All laborers and capataz hired, under the Cabo system on a daily basis, be classified as native (local) laborers casually hired and not within the act.

(b) All those who appear to have been hired by Philippine Army units be determined to be employees of the Philippine Army and not within the act.

(c) That all other laborers and employees hired on a daily basis be classified as casually hired and not within the act unless the job for which they were employed was of such a nature that they would be expected to become a part of the permanent complement of the installation (such as employees of the Motor Pool).

(d) That all personnel who worked for more than 30 days and until enemy action terminated their employment and who were hired on a monthly or annual basis be determined to be within the act.

(e) In the absence of a regular Civil Service appointment no person who worked less than 30 days and who was not captured and held as a prisoner of war while accompanying the troops in the field should be determined to be within the act.

(f) That where the work was of a task on temporary nature such as the construction of buildings, trenches, shelter halves, canteens, movement and warehousing of supplies, and the laborers were hired on a daily basis, that they be determined not to be War Department employees within the act since it is not believed that they were hired with the contemplation that they would be retained beyond the task or job necessitating their employment.

4. Before adjudicating employees of the Motor Pool, the Military Police Drivers and the so called U.S. Quarantine (which was a Commonwealth Function), I recommend the full story be submitted to Col Cook and that he be requested to give a full statement as to the intended duration of employment of such personnel at time they were hired, the method and manner by which they were hired, the authority for their employment, and the funds from which they were to be paid.

File No. 68287 Subject: Claims of Airfield Construction Workers on Cebu.

(1) FR: OIC, Civilian Section TO: Director, DATE: 8 Apr 46
RFD

1. We have received approximately 450 claims from persons on Cebu claiming to be employed by the War Department on Airfield Construction between 8 December 1941 and 10 April 1942. Three airfields were supposedly under construction: Lahug, McCollin and Tuburan.

2. a. ANTONIO D. ASENHIBO, Civil Engineer, Bureau of Public Works states:

"That I was a Civil Engineer, Bureau of Public Works, Cebu District. On 8 December 1941 I was in charge of constructing the extension of Lahug Airstrip. My immediate superior was J. L. Panis, District Engineer. That during the clearing of the extensions, we were employing from 300 to 600 men. We were using the cabo or capataz system of employing laborers." (Incl 1, Tab A)

b. DAVID M. CANETE, capataz, states:

"I was hired as a capataz under the cabo system from 1 Jan 1942 to 28 Feb 1942." (Incl 2, Tab B)

c. JUAN A. ESCRUPULO, capataz, Lahug Landing Field states:

"My immediate superiors were Engineers Ramos and Aquino. The nature of the work was to construct a tunnel 20' wide, 10' high and 25' deep. I do not exactly know the use of the tunnel because it was suspended by Joaquin L. Panis, District Engineer of Cebu. The job ceased on 3 February 1942 because of project was suspended by the District Engineer." (Incl 3, Tab C)

3. A study of inclosed affidavits indicates that the majority of Engineers, timekeepers, surveyors, etc., were employed by the Bureau of Public Works. Affidavits indicate that these men never assumed status of USAFFE employees, but remained Bureau of Public Works employees while supervising the project.

Claims of Airfield Construction Workers
on Cebu. (Cont'd)

(1) FR: OIC, Civilian Section TO: Director, DATS; 8 April 46
RFD

4. a. In view of foregoing information, it is recommended that laborers and capatas be considered cabo system employees, intermittent, part time and casually hired and determined as not entitled to benefits under the Missing Persons Act.

b. It is recommended that Engineers, surveyors and paymasters be determined as being employed by the Bureau of Public Works and therefore Non Project J.

Claims of Airfield Construction
Workers on Cebu.

(2) FROM: Legal Officer TO: Director, RPD 14 May 46

1. I concur that laborers hired on the project under the cabc system should be classified as local labor casually hired on a per diem basis.

In view of the fact that these projects were apparently under the Bureau of Public Works I believe the determination should include a statement that evidence available indicates that employees were employees of Philippine Army.

2. Recommend that determinations be handled in these cases the same as those of employees covered by C/N on other Engineering Projects on Cebu.

3. I do not concur in determining that all Engineers and Timekeepers were employees of Bureau of Public Works at present time. If facts show they were employed and paid as employees of the Bureau of Public Works such a determination is clearly proper. Others were apparently paid on Army Payrolls (see statement of Mr. Paris attached to C/N on engineers). It is my belief that further investigation will reveal that all were being paid from Philippine Army or Commonwealth Funds, but the available evidence does not clearly establish such fact.

4. Recommend suspension of cases involving individuals who were not laborers hired on the cabc system and those who worked continuously for 30 days or more and until enemy action terminated employment, until additional information is obtained and evaluated.

Claims of Airfield Construction Workers
on Cebu

FROM: Dir, Rec Pers Div TO: OIG, Civilian Sec, ^{MHM/ret} DATE: 15 May 46
Rec Pers Div

Attention is invited to preceding C/M which is approved. Attention is also called to C/M 3 dated 15 May 1946 to your C/M 1 dated 25 April 1946, subject: Claims of Engineers, Cebu, P. I. A parallel situation exists in both of these cases. It is therefore directed that all of these cases which are clearly not entitled to benefits of the Missing Persons Act be adjudicated in accordance with the directives above. Until further instructions those cases of engineers and timekeepers whose employment by the United States forces is in doubt will be suspended for the time being. A directive covering the adjudication of this personnel will be given to you within the next 10 days. ✓

RECOVERED PERSONNEL DIVISION
CEBU BRANCH

AP0 718
27 December 1945

SUBJECT: Investigation of PANIS, JOAQUIN L.

TO : Reovered Personnel Division.
ATTENTION: Adjudication Section-Civilian Pers. Sub-Section.

1. Joaquin L. Panis was engineer in charge of the following military construction in Cebu from 1 Dec. 41 to 10 April 42:

Cebu Air Strip.
Medellin Air Strip.
Tuburan Air Strip.
Military roads in Adlaon, Talamban.
Ware house construction.
Base hospitals.

2. Panis claims to have employed close to 5,000 employees. Has no written records or payrolls in his possession. To those employees whom he recognizes he is submitting a signed affidavit.
3. Some claimants have given information that they worked for PANIS during Japanese occupation.
4. Enclosed is a CIC report pertaining to PANIS.
