DECLASSIFIED  
Authority AND 883078

C E R T I F I C A T E

This is to certify that I, the undersigned officer, have made an investigation of the claims of the individuals concerned in the Pampanga River Control Project, and have found the following:

1. All employees whose names are listed with the affidavit of Mario M. Bundalian were Civil Service employees in Pampanga province.

2. All men whose names appear on this list were released to the United States Government for the purpose of constructional work that which we were engaged at that time. The men whose names appear under the column "To Bataan" are those who actually went to Bataan and remained there until the fall of the same. The names under the column "Not to Bataan" are those who were sent by their Commanding Officers at that time, Lt. Boyd, Capt. Bend, or Lt. Keasey, to Bataan after the first of January but were unable to reach there because of the rapidly advancing Japanese forces who controlled the roads and territory through which they had to pass.

3. I have questioned thoroughly Mr. Mario M. Bundalian, District Engineer of Pampanga, who, at that time, was Project Engineer of the Pampanga River Control Project. Mr. Bundalian has given me an affidavit, explaining the situation as it happened in the latter part of 1941.

4. That the Pampanga River Control Project was the largest constructional project ever to be attempted in the Philippine Islands and was under the direct supervision of President Quezon, at that time President of the Philippines. All records and blue prints of this project are in the Office

of the District Engineer in the Provincial Capitol of Pam-  
panga and were examined by the undersigned officer on 5  
September 1945. There is no question in the mind of the  
undersigned officer that this project was the largest cons-  
tructional program ever attempted in the Philippines to  
that date.

6 September 1945.

COMMONWEALTH OF THE PHILIPPINES  
Department of Public Works and Communications  
BUREAU OF PUBLIC WORKS  
Manila

1st Indorsement  
Sept. 1, 1945

Respectfully returned to the Acting District Engineer,  
San Fernando, Pampanga.

The instructions received by the undersigned from the Director of Public Works were, to give full and active cooperation with the Philippine and United States Armies, to furnish them labor, supplies or equipment whenever requests were made and to start immediately and rush completion of whatever work they might assign the office to accomplish. Labor Battalions were organized to meet the Army need. All expenses including wages and laborers were to be paid direct by the Army authorities supervising the job whenever available or by the Province using temporarily any balances of funds allotted for projects under the supervision of the District Engineer. Expenses incurred for work requested by the Army and paid for by the Province had to be billed against the Army to reimburse the province. All expenses for work done for the Army or requested by the Army were chargeable against Army appropriation.

(SGD.) ARTURO P. NITORREDA  
Acting Division Engineer

UNITED STATES OF AMERICA )  
COMMONWEALTH OF THE PHILIPPINES ) SS.  
Province of Pampanga )

I, SANTIAGO GENUINO-CAYANAN, 38 years of age, residing in Apalit, Pampanga, married and a Filipino citizen, and presently employed in the Pampanga River Control Project, Bureau of Public Works after having been duly sworn to, declare, depose, and say:

1. That before the outbreak of the war on December 8, 1941, I was employed in the Pampanga River Control Project, Bureau of Public Works as Assistant Engineer to Mr. Mario M. Bundalian the then Project Engineer. I was specially assigned on the supervision of the mechanized unit of the project used in the excavation of channels and building of levees;

2. That on December 16, 1941, the U.S. Army thru the U.S.E.D. officers: Lt. Richard Alden Keasey, Capt. Harry O. Fischer and Major Lawrence borrowed the remaining machineries we had, together with the operators, mechanics and myself as Chief Engineer. On the said date, we reported to Lt. Keasey at an air-strip to be made at San Fernando, Pampanga;

3. That we were able to finish the two air-strips at San Fernando and begun construction at Barrio Santiago, Santa Ana, Pampanga;

4. That on December 24, 1941, I was ordered to assemble all our machineries and crews in front of the Pampanga Sugar Mill. All crews were present in accordance with the list herewith attached. Our machinery unit was composed of a Caterpillar bulldozer D-8, two tractor-scrappers D-8 and two D-7 all connected with carry-alls, 11. cu.yd.capacity; one Road Patrol (Grader borrowed from Bulacan Provincial Gov't.) a small tractor (borrowed from the ~~Mason~~ family at San Fernando, Pampanga, water tank with water pump, International 2 h.p. and a Plymouth car borrowed from Dr. R.L. Teopaco. All the carry-all were loaded with empty sacks borrowed from the Pampanga Sugar Mill, some drums of gasoline, crude oil and lubricating oils;

5. That I was shown by Lt. Keasey on a military map our destination (Little Baguio) which he told me to keep it a secret from the rest of the crew;

6. That due to our heavy transportation and some delayed orders, we reached Abucay on December 29, 1941. The bulldozers, road grader, water tank and small tractor and one D-7 with carry-all proceeded to Pilar at an air-strip. The rest of the crews were left to the 41st Engineers at Bataan, making mountain roads and tank traps. I was then instructed to sue <sup>to get gasoline in Balanga and spare parts in Apalit, Pampanga</sup> for our tractors. I used Army truck to haul crude oil. Our other supplies were left in the town of Pilar with two men to take care;

DECLASSIFIED  
Authority NND 883078

7. That with the order of Lt. Keasey and Capt. Fischer some of my crews were shifted to other outfits could not be accounted for or supervised by me due to the constant raids and artillery shelling from various directions;

8. That on one instant, one of my men narrowly escaped death while driving tractors to Bagaac, Bataan inspite of constant heavy enemy raids;

9. That On the later part of February, 1942, supervisions in Abucay were already dangerous due to enemies' penetration thru the line of defense. The operators with their tractors retreated and could not thoroughly be accounted for;

10. On the later part of March, 1942, some of the crews were reported sick, two of them were brought to the Military hospital at Lamac, which was unfortunately bombed by enemy planes days after;

11. That some of my crews were assigned to make road traps and secret mountain detours to enclose advancing enemy troops. Only bulldozers and tractor scrapers could do this job. Exact location of their job could not be mentioned here due to various places this kind of jobs were made;

12. That on the later part of March, 1942, when the enemy offensive was very decisive at Pilar-Bagaac road, most of the operators had to leave their tractors and saved themselves by hiking with civilians in the mountain;

13. That due to many suspects of fifth columnists, in the final retreat, some of my crews reached the edge of Mariveles at the little valley beside a creek where they included themselves with the civilians. Other Head-crews who were provided with indentifications could penetrate without risk of suspicion moved near the Mariveles proper and waited for the surrender of Bataan on April 9, 1942. It can be further mentioned in here that even up to Pilar, some of these operators could not be accounted for or they may had been waiting for orders and proper instructions from the ourfits in which they were specially attached; and,

14. That during the surrender of Bataan on April 9, 1942, some of my men were taken prisoners by the Japs. The rest included themselves with the civilians and escaped at the seashore and rode bancas up to their home provinces; and,

15. That in my final checking, two men were found dead, one imprisoned in O'Donnel, others escaped on their way to the camp and still others went home by walking with civilians.

IN WITNESS WHEREOF, I have hereunto set my hand this 14th day of September, 1945, in the Municipality of Apalit, Pampanga.

COMMONWEALTH OF THE PHILIPPINES )  
: S. S.  
SAN FERNANDO, PAMPANGA )

A F F I D A V I T

I, MARIO M. BUNDALIAN, Acting District Engineer of Pampanga, with offices at the Provincial Capitol, San Fernando, Pampanga, of legal age, do hereby depose and say:

That prior to January, 1942, I was Project Engineer in charged of the Pampanga River Control Project, acting under the Bureau of Public Works. During the year of 1941, I had in my employ the individuals whose names appear on the pages hereto attached. These men worked for me as Civil Service Employees during this time. It was in the early part of June, 1941, that Col. Lawrence, Chief Engineer of all U. S. Army projects, asked me to send some of my men to Clark Field with our equipment, consisting of levelers, bulldozers, tractors, road scrapers, etc. These same men were later sent to Bataan in order that roads might be improved and bridges reinforced for our troops movements. Intermittently, between June and December, 1941, I was called upon to send men to the U. S. Army employment. I cooperated with the United States Government and sent my men and equipment. These men were used as construction crews and later to combine with the men I sent on or about December 31, 1941, to dig tank traps and road blocks, to hinder the advance of the Japanese forces.

These men who were previously the employees used for the Pampanga River Control Project, were under Mr. Santiago Genuino-Cayanan, who was my Chief Engineer and representative, and Mr. Eusebio Garcia, Assistant Engineer. Mr. Genuino-Cayanan, who was ordered to return to San Fernando, Pampanga, during the first part of January in order to get supplies, oil, gasoline and spare parts for his men, was unable to return

due to the rapidly advancing Japanese forces who now occupied Lubao.

The payrols on which these men's names appeared were burned during the retreat of the Japanese forces in 1945, and little or no information is obtainable as to their employment status, other than my own personal records which have been placed at the disposal of Lt. John F. O'Neil in the Office of Claims Service, AFWESPAC.

The equipment that was used by the United States Army Forces was government property and used for the construction of projects under the Pampanga River Control.

Upon releasing these men to the service of the United States Army, I made a verbal agreement with Col. Lawrence that no men would be reemployed by me until such time as a release was given them by the U. S. Army. This was done as a precaution to insure against any men running away or deserting while in the employment of the U. S. Army Forces. To date, no written release has been received or seen by me signed by Col. Lawrence or Lt. Keasey, who was also a Civil Engineer acting as Director of these construction movements of U. S. Army, or by other representatives. To this date, none of the men previously released by me in 1941 to the U. S. Army have been rehired under their Civil Service status in the Provincial Civil Service.

To my official knowledge, none of the men whose names appear in the attached list have been paid for their services rendered up to and including the fall of Bataan.

The names under the sub-title "To Bataan" were thus employed up to the fall of Bataan, and those under the sub-title "Not to Bataan" were retained at Clark Field and at Nichols Field. The latter, of course, were forced to retreat before the Japanese advances.

All men, whose names appear on this list, have been

employed by the Philippine Government for at lease one year prior to the Japanese invasion and were eligible for employment thru 1946, and this can be verified by the records in the District Engineer's Office at San Fernando, Pampanga. This fact should establish their status as Government employees.

  
MARIO M. BUNDALIAN

Subscribed and sworn to before me this 5th day of September, 1945, at San Fernando, Pampanga, P. I.

I, VICTORIANO TORRES, 30 Years of age and residing at San Vicente, Macabebe, Pampanga, being duly sworn, depose and say:

That during the month of March 1941, I was employed by Mr. Mario M. Bundalian in the Pampanga River Control Project. On or about 18 March 1941 we were sent to Nichols Field by Mr. Bundalian where we made the landing field. My rate of pay per day then was ₱3.00 per day. We worked here for about five months, after which we were transferred to Fort Stotsenberg under the charge of Captain Bend and I worked here for about three months at ₱2.60 per day. From Fort Stotsenberg we were transferred to San Jose landing strip where we worked for about 8 days under the charge of Lt. Keasey after which we were sent to Abucay, Bataan, where we improved roads and made trails at ₱3.00 per day. I stayed in Abucay until 30 January 1942. From here we retreated to Pilar then to Lamao where we were disbanded without being paid because the U. S. Army surrendered Bataan.

I went in hiding in the fishponds near the sea and was able to make my way until I reached my home about 30 April 1942.

I swear that all the foregoing statements are true and correct to the best of my knowledge and belief.

San Fernando, Pampanga, 5th September 1945.

VICTORIANO TORRES

Subscribed and sworn to before me this 5th day of Sept-

ember 1945.

I, DEOGRACIAS YAMBAO, of Sulipan, Apalit, Pampanga, being first duly sworn, depose and say:

That prior to August 1941, I was working under Mr. Mario M. Bundalian who was in charged of the Pampanga River Control Project. On or about 2 August 1941, I was transferred to Fort Stotsenberg under the charge of Lt. Boyd where I worked up to 10 December 1941 on the landing strip at ₱2.80 per day. From Fort Stotsenberg I was sent to Abucay, Bataan, where I worked with some other laborers in the improvement of roads under the charge of Captain Fisser and Lt. Keasey at ₱3.00 per day. From Abucay we retreated to Bataan, Bataan, where we improved roads also, but due to the rapid advance of the Japanese forces we were ordered to retreated to Mariveles where at night we pulled canons and repaired the roads during the day.

We stayed in Mariveles until 2 April 1941 when we were disbanded because the men who were in charged of us left us and they retreated to Little Baguio. I joined the civilians and made my way home reaching same on or about 20 April 1942.

I swear that all the foregoing statements are true and correct to the best of my knowledge and belief.

San Fernando, Pampanga, 5 September 1945.

I, PEDRO MANALO, 25 years of age and a resident of Sulipan, Apalit, Pampanga, being first duly sworn, do hereby depose and say:

That prior to September 1941, I was employed by Mr. Mario M. Bundalian in the Pampanga River Control Project. On or about 10 September 1941, I was ordered to proceed to Clark Field to work on the landing strip thereat. Col. Lawrence, then Major Lawrence, was in command of the project. Captain Bend, Lt. Boyd and Lt. Keasey were in subsequent command of the construction.

On or about 24 December 1941, we were ordered to proceed to Bataan, which we did, and arrived in Orani on 25 December in order to work on the landing strip. From Orani we proceeded to Abucay on or about 2 January 1942 where we dug trenches and made preparations for Japanese attacks. From here, we moved to Bataan, Bataan, in order to construct the landing strip; however, we were unable to complete the landing strip because the Japanese were bombing and harrassing us. From here we went to Mariveles where we stayed until the fall of Bataan on 8 April 1942. During our stay at this place, we were loading and unloading ammunition from trucks.

After the fall of Bataan on 8 April 1942, we were disbanded and we retreated in the mountains. From here I made my way to my father's farm where I worked during the Japanese occupation.

San Fernando, Pampanga, 5 September 1945.

I, VICENTE GARCIA, 40 Years of age and a resident of Sulipan, Apalit, Pampanga, being first duly sworn, depose and say:

That during the month of August 1941 I was working in the Pampanga River Control Project under the supervision of Mr. Mario M. Bundalian. That on or about 10 August 1941, Captain Bend took us from Mr. Bundalian and brought us to Fort Stotsenberg where we made the landing strip at the rate of ₱2.90 per day. I worked here up to 15 December 1941 when I was transferred to San Jose Landing, working here for about 8 days at ₱3.00 per day. On or about 24 December 1941 we were transferred to Orani, Bataan, where we stayed for about 8 days taking shelter from Japanese bombs. From here we were brought to Abucay where we made and improved roads for more than a month. Then we retreated to Pilar where we improved roads and repaired defective tractors. We stayed in Pilar for about a month then we retreated to Cabcabin where we repaired tractors.

Due to the rapid advance of the Japanese forces, we retreated to Mariveles where we worked until the fall of Bataan. We were told by our officers to disband, without receiving our pay for our services rendered to the U. S. Army, so I joined the civilians and made my way home, reaching same in the latter part of May 1942.

I swear that all the foregoing statements are true and correct to the best of my knowledge and belief.

I, GAUDENCIO YUTOC, 40 years of age and a resident of Barrio Sampaloc, Apalit, Pampanga, being first duly sworn, do hereby depose and say:

That on December 1941 I was working under the supervision of Mr. Mario M. Bundalian on the Pampanga River Control Project. My occupation at this time was operator of a road roller.

That on or about 16 December 1941, I was transferred to San Jose air strip to work for the U. S. Army on said air strip under the direction of Lt. Boyd and Lt. Keasey. I remained here until 24 December 1941 when I was transferred to Abucay where we worked on improving roads. I remained here until the 2nd of January 1942 when we were transferred to Orion, staying until about 1 April 1942 when the rapidly advancing Japanese forces forced us to evacuate. This time we took with us a 1.55 canon which the trucks then available were incapable of towing. We took this to Lamao where we remained until the fall of Bataan.

I was last paid to include the month of February 1942 but have not received any money or compensation for my services from that time to date.

I, SANTIAGO DUNAG, 32 years of age and a resident of Sulipan, Apalit, Pampanga, being first duly sworn, depose and say:

That prior to August 1940, I was working in the Pampanga River Control Project under Mr. Mario M. Bundalian. On or about 2 August 1940, Mr. Bundalian transferred me with some workers to a Captain from Nichols Field who brought us to Nichols Field to make the landing strip. We remained at Nichols Field for 5 days after which I was returned to the Pampanga River Control Project.

On or about 2 December 1941 we were again taken by Lt. Boyd and Lt. Keasey of the U. S. Army who brought us to San Jose Landing Field, San Fernando, Pampanga, where <sup>-we-</sup> worked up to 9 December 1941. Here we received our salary for the period 2 December thru 8 December 1941. My rate of pay was ₱2.80 per day.

On 10 December 1941, we were transferred to Orani, Bataan where we made landing strips for about 5 days then we retreated to Pilar where we made trenches, holes for anti-tank guns and tank traps. From Pilar we retreated to Bataan, Bataan, where we made tank traps for about 10 days, then we retreated to Bagac where we also made tank traps and improved roads for about five days. From Bagac we retreated to Mariveles where we used to hide our tractors and other equipment because of the intense Japanese bombings.

The fall of Bataan took place while we were in Mariveles, so we were told to disband by the officers. We retreated to the mountains and scattered ourselves so that we could hide and

evade capture from the Japs. From the mountains, I walked my way until I got home.

I was unpaid for my services to the U. S. Army from 10 December 1941 to the fall of Bataan on 8 April 1942.

San Fernando, Pampanga, 5 September 1945.

COMMONWEALTH OF THE PHILIPPINES  
PROVINCE OF PAMPANGA  
SAN FERNANDO  
OFFICE OF THE DISTRICT ENGINEER

16 July 1945

The Commanding Officer  
Claims Service, AFWESPAC  
APO 707  
Thru the Provincial Governor  
San Fernando, Pampanga

Sir:

With the advice of Major F. N. Crandall, AGR, Asst. Adjutant General, GHQ United States Army Forces, Pacific, I have the honor to furnish you herewith a list of government employees, most of whom were personnel of the Pampanga River Control Project of which I was Project Engineer in 1941, who were upon proper request loaned to the USAFFE before the outbreak of and during the war.

These men have been coming to my office inquiring about their status and requesting my help to obtain what they are entitled to from the U. S. Army. Some died as a result of their employment and the widows and orphans of same come to my office also for help.

Many people also come to this office asking compensation for their cars which USAFFE commandeered.

I would like to suggest, in order to really help these people and give them what the generous U. S. Government has pledged to give, that Personnel of the Claims Service be assigned to San Fernando and an office opened in the Provincial Capitol to handle applications for claims in this province. Such a step will go a long way, it is believed, to solving these cases with more promptness and will automatically do away with trecks to Manila which is not yet in a position to receive economically and gracefully visits of provincial folk,

Favorable action hereon is requested.

Very respectfully,

Encl.: A list of  
Government  
Employees

/s/ Mario M. Bundalian  
/t/ MARIO M. BUNDALIAN

TOTAL																										

1. I HEREBY CERTIFY that each person whose name appears on this roll rendered service as indicated and for the time stated.

2. I CERTIFY that this roll is correct; every person whose name appears hereon rendered service for the time and at the rates stated, under my general supervision, and I approve payment of this roll.

3. I CERTIFY on my official oath that I have this \_\_\_\_\_ day of \_\_\_\_\_, 194\_\_\_\_, paid in cash to each man whose name appears on the above roll, the amount set opposite his name, he having presented himself, established his identity, and affixed his signature or thumb mark on the space provided therefor. Unpaid services are indicated by red ink lines through the column "Amount Paid."
