San Marcelino cases will be processed as a unit. In a number of these cases a previous determination has been made and the case has been closed as a negative determination. The list of those employees who we have deemed as entitled to benefits under the MPA is to be checked against 201 files and those cases which have been processed will be redetermined. ~~However~~, inasmuch as the payroll information is incomplete and must be augmented by supporting affidavits, in all cases where name appears on payroll a suspense letter must first be sent to subject. When subject appears at office for interview he will be instructed to obtain affidavits corroborating his claim from two acceptable persons.

The remainder of the San Marcelino cases will be closed as negative determinations. Some 18 or 20 employees who worked to 24 Dec 41 are unidentified. If and when they can furnish proof that they are entitled to MPA benefits a redetermination will be made.

DATA: Work began 9 Sept 41 on 22 groups of barracks. All buildings were completed 22 Nov 41, excepting minor details of construction. Approximately one-fourth of labor was contract work (non WDE) and the remainder of employees were laid off after completion of work, with exception of approx 50 men who worked to 24 Dec 41.
