POINTS \_\_\_\_\_

1. I have been informed by the admitting officer that any funds or valuables retained in my possession while I am a patient in this hospital are retained at my own risk. I have also been informed that I may, and should, deposit the same with the custodian, Patients Funds and Valuables.

2. I hereby acknowledge that I have received, read and also understand Hospital Regulations 5-21.

Eugenio Lopez

(Patients Signature)

Name Tabaja, Gene Grade Plt Ward D

(This sheet to be used in conjunction with 55A. M.D. in cases where the data hereon will suffice to conform with existing regulations.)

Pertinent history, chief complaint, and condition on admission.

16 Aug: Patient became ill 11 Aug 46. Developed cramp-like pains in abdomen, was nauseated vomited and developed loose stools. Stools contained blood mucus and pus. No amoebae found on stool examination. Condition has been unchanged since onset of illness. Has 3-4 stools a day. Has not been able to eat much because of nausea.

Complete physical examination is negative except for the following:

Abdomen soft but somewhat tender to palpation. Liver & spleen not enlarged. Heart normal BP 110/60

Imp. (1) Amoebic dysentery  
J. M. M. M.

Progress:

19 Aug: Continuing to have about 4 scanty blood BM daily until today. Had only 1 loose bloody movement this am. Sigmoid today - revealed numerous pin points to pin head sized shallow hemorrhagic ulcers & normal intervening mucosa. Smear - positive for trophs of *E. histolytica*. Pt now on 3rd day sulfonamide therapy. Because of low blood pressure am giving dosage in 1/2 gr BID. No abd pain. Abd exam - reveals tenderness below umbilicus. mod. amount gas. CRN (14)
