INSTRUCTIONS

Used as a brief consecutive record of a patient in a theater of operations and during peace-time field operations. Not to be used as a clinical history. Initiated at first hospital to which patient is admitted (station and general hospitals in a theater of operations; all surgical, evacuation, and convalescent hospitals; not used by medical regiments, battalions, or squadrons in combat, but used at other times when operating stations furnishing definitive treatment). Remains with patient, enclosed in field medical jacket, attached to patient during transport. Forwarded with sick and wounded report when case is completed. Closed upon receipt at hospital of definitive treatment in zone of interior in time of war and forwarded immediately to Surgeon General.

If space on one fold is insufficient, continue entry into next fold. If one card is inadequate, continue the record on a second card, or a third, and so on, marking the cards as first card, second card, etc. Each additional card used must bear complete identification of the individual.
