TO	Date	REMARKS
Chief	5/21	<p>From Cde. Adevros and Augustus. Note that Markings and Hunters fair very well. Note also that Adevros cuts out some of his own units (because they are already included in other rosters). Note that he again requests withdrawal of his composite unit of 3200 men. This is OK by me as per my c/s now on the way to you. I would recommend giving a copy of original list to Umali and Talledon for their comments and a comparison. The sooner we do it the better. If all four should agree on one unit, we might conceivably withdraw it from circulation and turn it down without an investigation. What better evidence than the condemnation by Adevros, Augustus, Talledon and Umali? This might save us a lot of work. WCM</p>

LSB #2, EPA
27 May 1946MEMO-
To Capt Murray
Inv Sec, GAB

1. Atchd herewith is List of Guerrilla Units from 4th and 5th MD's seeking recognition through GAB, AFWES-PAC plus Col Marking's comments and mine. We had worked this list out together and found our opinions about each particular unit identical for the most part especially those which operated in the 4th and 5th MD's.

2. It is our opinion that quite a number of the "so called pseudo-guerrilla outfits" are "trying their luck" with GAB by having submitted their rosters and histories. While actually most of them existed as organized units only a few really maintain troops in the field and battled it out with the enemy especially during the enemy occupation.

3. True that there were several units also during the occupation. Some of them were active and some inactive. But the ordinary "tao" (man) in the 5th and 4th MD's can tell you which is the real guerrilla unit by merely naming all units to him. I am sure too that that ordinary "tao" will be surprised much as I and the rest of the true guerrillas have been surprised to hear queer guerrilla unit names.

4. Atchd list and our comments is in no way super accurate as there really may be guerrilla units active unknown to us, or at least known to our men who were almost everywhere but which we failed to know. However in the whole I believe our comments could be taken 75 % accurate.

5. It would certainly simplify the work in my opinion, and bring about speedy justice to those to whom justice is due if less known units (less known because they were less active) be accorded less priority than those guerrillas whose name had been byword in the countryside and which have been mentioned in studies by General MacARTHUR's HQ as the "Guerrilla Resistance Movements in the Philippines" which was prepared in 1944.

5. Atchd too are certificates and recommendations from US Army using units which have not done my boys any good yet due to the fact that they have not been investigated yet. True that in August 1945 1st Lt Kelley conferred with my assembled unit Commanders at two instances and two to three hours at a time. Nothing material came out of Kelley's brief conferences with my unit CO's. In December 1945 Maj Otti (then Chief of GAB) offered to recognize 3,200 from my organization which I in desperation was about to accept until I was informed that he recognized 5500 from a certain Cavite unit, 6000 plus from a certain Batangas unit, etc. For the sake of justice and honor (I knew those units well enough) I requested for reconsideration of my case. All my 4,900 men recognized today got their recognition through attachment with US Army Divisions during the entire period of the liberation campaign. These 4900 came from 7 provinces of Southern and Central Luzon. This probably is the biggest number of men contributed by any single guerrilla organization in Southern Luzon. Today ~~approximately~~ the bulk of the fighting elements of my organization who also participated in the liberation of their respective areas remain

1. Recommend that letters of commendation or citations be given to these units which in some way or other rendered service to the Commonwealth of the Philippines and the United States of America, during the Japanese occupation in support of the resistance movement, to which (units) recognition will not be extended by the U. S. Army.

2. Recommend that recognition be extended to those units which are active during the liberation, but which were not entirely active during the Japanese occupation.

3. In view of the fact that existence of active guerrillas in the mountains was not possible during the Japanese occupation without the support of other members who acted as transportation units or as couriers and solicitors of contributions in the form of cash or in kind, recommend that recognition be not li-
