MEMO To: The CG Harbor Defenses, Manila & Subic Bays.

1. Request authority to install two army ranges in the small tunnel, north just west of the/hospital entrance to Malinta Tunnel; now being used to house an auxiliary motor and generator.
2. There is sufficient room to install these ranges near the entrance of this small tunnel and there would be no necessity of removing any of the equipment now installed there.
3. It is imperative that additional space for cooking facilities be acquired at once. No more electrical stoves can be installed within the hospital tunnel as the generators now in use here do not produce sufficient current for the efficient operation of such equipment as is now installed.
4. There are over 850 being fed in the hospital mess, many of whom are on special diets. Cooking outside the tunnel is uncertain and cannot be accomplished with any degree of efficiency.

O. B. No. 88.

Tuesday, May 5, 1942.

O. B. No. 88.

1. TO ALL ORGANIZATION COMMANDERS: The Commanding General, HD of M&S Bays, desires that the following message of commendation be brought to the attention of each individual man under your command:-

On April 30th I congratulated the garrison on the splendid way in which they had done their work in spite of all the enemy could do against them with heavy bombardment and bombing. Today I feel that special commendation is due each individual on the fortified islands for the magnificent performance of duty under the intense concentrations of enemy artillery fire and aerial bombardment of the past few days. I especially want to commend those whose duties have required them to occupy or move through exposed positions where very little cover has been available. These men have truly done their duty without regard for their own personal safety.

Some of you belong to organizations recently created. The history of your unit is being opened with a record that will hereafter be extremely difficult to equal and impossible to excel. Most of you belong to organizations with a long and glorious historical background, but none of your predecessors has ever made a more outstanding record than the one you are now writing. The whole world knows of your brilliant and determined stand which has strengthened the cause of the Allies and blocked the advance of the enemy.

2. MISSING LAUNDRY: a. Laundry removed from the old officers' mess may be obtained by owners from Staff Sergeant Gervais, Police and Prison Department.

b. Hanging out of laundry to dry during daylight hours is contrary to camouflage regulations.

3. LOST: Highschool class ring, initialed C.F.H. inside - if found please return to C. Homney, ward 16 - bed 18, or Chaplain's Office.

4. MESSING HOURS FOR U.S.F.I.P. MESS:

Filipinos - 6:00 AM to 6:45 AM
3:00 PM to 3:45 PM
Americans - 6:45 AM to 8:00 AM
3:45 PM to 6:00 PM

5. REFERENCE MEMORANDUM NO. 1, this headquarters, 30 April, 1942, the number of the War Department General Orders citing this command for the period March 14 to April 9, inclusive, 1942, is not known. In complying with paragraph 2 of the above memorandum, therefore, General Orders No. 32, U.S.F.I.P., 24 April, 1942; will be quoted in service record entries for the period March 14 to April 9, inclusive, 1942.

O. B. No. 86.

1. SECURITY DISCIPLINE: In every command, particularly during war times, there are persons who are working with the enemy. Their function is partly to gather information about the command, its strength, casualties, damage caused by enemy action, morale, etc. These men are hard to detect in most cases, therefore it is almost impossible to tell which stranger is friendly. Because they wear a uniform of the fighting army, it cannot be assumed that they are not in the employ of the enemy. Therefore, all officers and men are cautioned that they must not, under any circumstances, except on official business, discuss the military situation, especially as it relates to the immediate command. Spreading rumors falls under this same classification and is a particularly vicious type of subversive propaganda often used by enemy agents. All organization commanders will bring to the attention of all their subordinates the above facts and impress on them the absolute necessity of maintaining secrecy discipline. A few thoughtless remarks at the wrong time in the hearing of the wrong persons can do much to undo all the good work the entire command has done so far.

2. REFERENCE PARAGRAPH 4, Official Bulletin No. 81, April 27, 1942, dogs in Malinta Tunnel will be presumed to be without owners. Military Police will pick up same and turn over to the Medical Department for humane disposal.

3. FORD "JEEP", W-2018096, assigned to the Message Center, is missing. Any person having information as to its whereabouts will inform Harbor Defense Headquarters at once.

4. FOUND: One set of keys, with two tags, was found in Malinta Tunnel. Inscription on tags; West Def. 1 and Unit Com. VI 2, which may be claimed from Harbor Defense Headquarters.

5. LOST: Will the party who mistakenly took one helmet, marked on sweat band "W.O. J.W. Hulbert, H.P.D.," please return same to Hq. Philippine Department, Malinta Tunnel.

1. SANITARY CONDITIONS in the tunnel system are unsatisfactory. Monday, May 4, is designated as Clean-Up Day. Occupants of each lateral will clean the area half way to the laterals on either side and to the center of the tunnel. Particular attention will be paid to rail slots and under and around permanent fixtures and stored property. Officers who have signed tags on beds will be held responsible for police around such beds. All laterals will be thoroughly cleaned. Refuse will be carried outside the West Portal.

2. POSSESSION OF RATIONS: It is hereby prohibited for any individual on this post to have rations in bulk in his possession. Organization commanders will so inform all personnel under their respective commands and require all rations now held by individuals be turned in to the organization at once.

3. CIGARETTES WILL BE issued with rations, effective Monday, May 4th, for ALL personnel. The sale of cigarettes has been discontinued.

4. ALL PERSONNEL from Seattle or nearby vicinities are urged to turn in their names to Sergeant Jones at the Army Post Office, Lateral #4, Malinta Tunnel.

5. THE RED CROSS ^{needs} a portable victrola and records for the entertainment of ward patients. See Miss Men at the Station Hospital.

6. LOST: Notebook lost in the vicinity of Gas Tunnel and Malinta Tunnel. Containing information that is valuable to this individual. Name of owner, William J. Votaw. Please return to Headquarters Harbor Defense.

7. LOST: One testament, in Malinta Tunnel. Owner Sergeant Robert Hollingsworth, Medical Corps. Finder please return to Detachment Medical Corps.

Office of the MD Surgeon

Fort Mills, P. I.
April 30, 1942

MEMORANDUM TO: All Medical Officers.

1. All are cautioned that identification tags are not to be removed from patient for any reason. Ward Officers are responsible that nurses and other ward personnel strictly comply with this directive.

2. In cases of death of hospital patients, the medical officer verifying the death will determine if identification tags are on the body. If not, as in the case of civilians and any others without tags, he will then tag the body with name, rank, organization before it leaves the ward. Each ward will be supplied with suitable tags for this purpose. One tag will be securely tied to the right great toe.

O. B. No. 84.

1. THE HARBOR DEFENSE COMMANDER congratulates the garrison on its ability to absorb such a cannonading and bombing of the harbor forts as was delivered by the enemy on April 29th. The hard work that you have done to secure maximum protection for equipment and personnel paid dividends, for not only were casualties and material damage surprisingly small, considering the intensity of the attack, but we were able to strike back with telling effect with anti-aircraft and counterbattery artillery. Our mission is to hold the fortified islands and to keep the flag flying. We have a job to do and are doing it in accordance with the best traditions of the service. We have taken the worst the enemy can give and have effectively answered it. Let each man continue to do his own individual job in the defense in the way it should be done and the defense of the whole is assured. Your fighting spirit is the pride of all your countrymen and your defense of Corregidor is a source of inspiration to all the United Nations.

2. FOUND: Mussette Bag containing toilet articles, eye glasses etc. Owner may secure same upon identification to Captain Benson, Lateral #4, Malinta Tunnel.

3. LOST: A bunch of keys with two religious medals. One medal has the engravings of a "Soldier Athlete Martyr" while the other was that of Saint Sebastian. Finder please return to the ND publication section personnel or to the Sergeant Major, Regimental Headquarters, 91st Office at James Ravine Bombproof.

C. B. No. 80.

1. IT HAS BEEN BROUGHT TO THE ATTENTION of Headquarters, U.S.F.I.P., that persons unknown have been spreading stories of Japanese atrocities against American and Philippine prisoners of war. These stories tend to undermine the morale of this command. Any person who has any such story to offer in connection with Japanese treatment of American or Philippine prisoners of war should contact G-2, U.S.F.I.F., without delay.

Headquarters, U.S.F.I.P., has every reason to believe that Japanese treatment of Filamerican prisoners of war has been generally satisfactory.

In the future, any person who is apprehended spreading information, whether true or false, which definitely tends to tear down the morale of this command will be dealt with severely.

2. MESS OFFICERS by close supervision will insure that only such quantities of food are prepared as will be consumed at each meal. In no case will prepared foods left over from one meal be served at another. Regulations relative to cleanliness of food and mess equipment, and personal sanitation of food handlers will be strictly enforced. Fly extermination will be given particular attention.

3. FACILITIES ARE BEING severely taxed to maintain the roads of the post. Numerous accidents have occurred where vehicles have dropped into craters or have struck rocks or trees before the road could be put in order. It is therefore imperative that troops assist in the matter of road maintenance by filling of road craters in the vicinity of their positions, and by clearing rocks, fallen trees and branches from roads where ever encountered.

1. ALL APPLICANTS for appointment in the Regular Army, other than Air Corps, will report to the Board of Officers convened in front of Lateral #1, Malinta Tunnel, 9:00 AM, Friday April 24, 1942. Officers will present letter of recommendation from their present commanders.

2. UNAUTHORIZED USE OF ICE: During the current period of warm weather it is imperative that all ice delivered to ice-boxes or manufactured in electric refrigerators be used for refrigeration of food only. Otherwise serious instances of food deterioration and resultant ptomaine poisoning will occur. Effective this date and until further orders no ice will be removed from any refrigerator unless authorized in each instance by the Mess Officer in charge of the mess involved.

3. FOUND in vicinity of middle side tunnel, one 17 jewel Waltham Pocket watch. Apply to Private George M. Lafleur, U.S. Medical Corps at middle side barracks.

4. FOUND: Leather cigarette case. Owner claim at HD Headquarters.

5. LOST: Barracks bag containing steel helmet with figures 8269 inside, and soiled clothing, with laundry No. H-LL. Misplaced in lateral #1A. Request return to Sergeant Davis, Hq Harbor Defense.

6. THE TOPSIDE water distributing points, located on the road between the telephone exchange and topside barracks, is now in operation. Units may draw water from there between 7:30 PM and 1:00 AM.

7. A BOX OF RELIGIOUS BOOKS enroute to the Chaplain's Office, awaiting transportation, was taken from vicinity of HD Hq Building April 21, 1942. Request organization commanders post notices for return of these books to Chaplain's Office.

8. PURIFICATION OF WATER: Since some sources of water on Corregidor and other fortified islands are known to be non-potable, all sources must be considered potentially so, and necessary purification of all drinking water must be carried out, either by boiling or chlorination, in the manner prescribed by medical authorities. For the guidance of all unit commanders the following directions are given:

a. When purification by boiling is used, all drinking water will be boiled twenty (20) minutes, (actual boiling time).

b. When purification by chlorination is used, one-quarter ($\frac{1}{4}$) teaspoonful of H.T.H. will be used for each thirty (30) gallons of water. Beginning April 23rd H.T.H. may be obtained at aid stations. Stir H.T.H. in the water with a clean stick. Allow to stand ten (10) minutes. Water is then ready for use.

INSTRUCTIONS

It is necessary that the following instructions be carefully observed:

1. Draft answers before attempting to fill out application blank.
2. Print or typewrite answers to insure legibility.
3. The application blank will be filled out and sworn to in the presence of a person duly authorized to administer oaths, and must be accompanied by at least three testimonials as to character and habits, and by a recent photograph, head-and-shoulders type, not less than 4 by 5 inches.
4. An application from a person in the Regular military service will be forwarded through channels to the commanding general of the corps area or department in which the applicant is stationed. Applications for appointment in the Medical Corps, Dental Corps, Veterinary Corps, Medical Administrative Corps, Judge Advocate General's Department, and Chaplain will be addressed to the Adjutant General, Washington, D. C., while applications for appointment in the other arms and services will be addressed to the commanding general of the corps area or department in which the applicant is residing.
5. In order that the applicant may appear for examination, his application must be submitted so as to be received at the place indicated in paragraph 4 above, on or before the closing date for applications as stated in the announcement of the examination.
6. In order to preclude the possibility of the applicant not receiving prompt notification relative to the examination, and to insure his assignment to the board nearest his location, it is absolutely essential that he keep the corps area or department commander or the office which acts upon his application informed, at all times, of the address he desires to have considered as his location for the purpose of the examination. If the applicant is in the military service, that address should be his present military station. Such notice of change of address should state that the writer has filed an application for appointment in the Regular Army. The communication should be separate and not confused with any other matter.
7. An applicant desiring exemption from all or part of the mental examination as authorized should submit with his application a request definitely stating the subjects from which he desires exemption, substantiated by certificate signed by the president or other designated official of the college or university attended.
8. Applications will be filed only when an examination is scheduled.

O. B. No. 58. Sunday, March 29, 1942. O. B. No. 58.

1. CONSERVATION OF POWER:

a. It is imperative that the power consumption for lighting be reduced. Power must be made available for pumping water and other essential uses. All officers responsible for activities, buildings, and installations consuming current must reduce these loads to the minimum which permits operation. If economies so made do not make available sufficient power for essential uses it will be necessary to pull the power from sections of the post for a certain number of hours daily. Economies can be effected by (1) reducing number of outlets; (2) replacing lights with those of lesser wattage. Lights for individual use should not exceed 25 watts. Other lights should not exceed 50 watts; (3) promptly turning out lights when not in actual use

b. The following restrictions on use of water are necessary until pumping facilities are restored and reserves replaced;

(1) Water will be cut off from 6:00 PM to 6:00 AM.

(2) Bath tubs and showers will not be used for bathing. "Sponge baths" only are permissible.

(3) Laundering of clothing will be held to a minimum.

(4) Local lines will be inspected daily for leaks and all leaks promptly reported to the Utilities Officer at Post Phone #21.

c. Regimental and similar unit commanders will set up the necessary inspection service to enforce the economies directed in paragraph a and b.

1. CLAIMS OF MILITARY PERSONNEL for private property lost, damaged or destroyed: Letter, Headquarters USFIP, File 151 Misc-AG-v, March 27, 1942 is quoted below for the information and guidance of all concerned:

"1. Under the provisions of AR 35-7100 and the underlying statute, claims by military personnel for loss of private property due to the Japanese invasion of the Philippines may be presented at anytime within two years after peace is established. In such circumstances there appears no necessity for immediate action by a potential claimant other than to gather the data necessary for presentation of his claim at a later date when conditions have returned to normal.

2. It is desired that all concerned be advised of the foregoing and of the fact that claims submitted under war conditions now obtaining in the Philippines cannot properly be investigated and serve only to overburden administrative machinery of this command. "

2. LOST: One small ivory carving of a face. Important only to the owner. Reward for return to Sergeant J. E. Thompson, Hq USFIP.

O. B. No. 55. Tuesday, March 24, 1942. O. B. No. 55.

1. THE FOLLOWING RADIO BROADCAST from Tokyo is published for the information of the command:

"The fighting morale of United States troops still offering resistance on the Philippines received a severe blow by General MacArthur's flight to Australia, the newspaper "Asahi" wrote Sunday. It declared that MacArthur's flight most probably hastened the end of enemy resistance in the Philippines. The fact that the enemy was able to resist the Japanese in the Philippines so long, is attributed by "Asahi" to the following reasons:

(1) The United States has still at their disposal the fortress of Corregidor, which during the past forty years has been developed into a strong, first-class military base.

(2) The Bataan peninsula, close to Corregidor, is mountainous, offering many difficulties to the attackers.

(3) Advance from Manila on Bataan peninsula is made difficult because the inclined road leading from Manila along Manila Bay is extremely narrow and under observation and guns from Corregidor. Too, the Americans laid vast minefields which make attack on Corregidor from the sea side difficult. Nevertheless, "Asahi" concludes that the enemy position is hopeless, since enemy positions are becoming ever tighter and the enemy has no possibility of relieving his position by an offensive."

2. LOST IN MALINTA TUNNEL: A sterling silver Lieutenant Colonel leaf without pin, was lost in Malinta Tunnel. Finder please return to Harbor Defense Adjutant.

O. B. No. 52. Saturday, March 21, 1942. O. B. No. 51.

1. IT HAS BEEN BROUGHT TO THE ATTENTION of this headquarters that several persons have been nearly hit by flying bullets. Investigation shows that these bullets were probably fired by individuals who were firing .22 calibre, or larger gun, at rats, birds or other animals. With combat troops scattered all over the island such firing is highly dangerous. Unauthorized firing of this nature is strictly prohibited. Organization and Detachment commanders are responsible that all members of their command are instructed to this effect.

2 a. ALL PRIVATELY OWNED AUTOMOBILES, which have not already been so registered, will be registered in the Office of the Harbor Defense Provost Marshal without delay.

b. No person will be permitted to drive any privately owned automobile on this post until he has been issued a certificate from the Harbor Defense Transportation Officer showing that he is competent to operate a motor vehicle safely and is familiar with traffic regulations.

3. ALLOTMENTS: Paragraph 2, O. B. No. 46, March 13, 1942, is revoked. Increase in pay for foreign service may be included in total allotments. Regulations as to amounts, beneficiaries, and period of time will be strictly observed. Unit commanders will make sure that enlisted men do not allot more pay than they can afford, that they do not designate a bank as allottee where the allottee has no account, and that bona fide dependents only are named as allottees in cases where dependency is claimed.

4. CHOLERA VACCINATION: All personnel is required to undergo vaccination against Cholera each three (3) months. Vaccine will be administered to all officers on duty in Malinta Tunnel, who have not been vaccinated within the past three months, in Lateral 5 of the Malinta Hospital, as follows:

Office of the HD Surgeon

Fort Mills, P. I.
March 12, 1942

MEMORANDUM TO: All Concerned.

1. The attention of all officers, nurses, enlisted men and other personnel of the Station Hospital, is again called to memorandum recently issued on the conservation of electricity.

2. The number of hot plates and large lights used have been reduced materially. A number of unnecessary lights are still being used when they should be turned off. Ward Officers and chiefs of departments will be held personally responsible that unnecessary lights are turned off when not needed in the treatment of patient personnel, and preparation of supplies, etc.

Memorandum to: Chief of Staff, Philippine Department

1. The War Department desires that casualty progress reports, by radio, be initiated in accordance with the following procedure:

a. Reports are to be rendered on AMERICANS reported as wounded on telegraphic reports of casualties to the War Department.

b. The report is to consist only of the name of the officer or enlisted man, followed by a code letter to indicate the progress of the case, as follows:

<u>CODE</u>	<u>MEANING</u>
A	Soldier making normal improvement.
B	Soldier Convalescing.
C	Soldier's recovery not proceeding satisfactorily.
D	Soldier sinking rapidly.
E	Soldier recovered, no longer in hospital.

c. No specific period is prescribed for the report. It is desired that a report be rendered as soon after the rendition of the official casualty report as definite information on the progress of the case can be determined, thereafter only when a change in condition renders an additional report desirable or when the soldier is discharged from the hospital.

2. It is desired that the Adjutant General, Philippine Department, be charged with the preparation of these casualty progress reports, and that the various agencies of the Medical Department be charged with furnishing the necessary data upon which such reports may be based, under instructions to be issued by your headquarters. The Station Hospital, Fort Mills, will be directed to comply with such directive as you may issue.

By Command of General MacARTHUR:

E. T. HALSTEAD,
Lieut. Colonel, A. G. D.,
Assistant Adjutant General.

The Subsistence Officer is not authorized to make any issues or adjustments except on written certificate by the responsible commander. Verbal requests cannot be filled.

2. FOUND: Officers' saber. Owner may obtain same from Headquarters Harbor Defenses, Lateral 2, Malinta Tunnel.

3. MONTHLY PHYSICAL INSPECTION: The regular monthly physical inspection of troops of this command will be held from February 24th to 28th, 1942, inclusive. The Commanding Officers of Regiments and separate detachments will submit a schedule of time and place, best suited for their organizations to stand this inspection, to the H.D. Surgeon not later than Noon, February 23, 1942. This schedule will be adhered to so far as possible by the Medical Inspector. Out-Post Surgeons will make the monthly physical inspection of troops of their commands and will submit a formal report to the H.D. Surgeon when completed.

HEADQUARTERS U. S. ARMY FORCES IN THE FAR EAST
OFFICE OF THE SURGEON

February 12, 1942.

SUBJECT: Medical Records.

TO: The Surgeon of each Force or Unit; The Commanding Officer of each General Hospital and each Medical Officer, Philippine Islands.

1. The following is a list of the more common errors noted on Emergency Medical Tags submitted to this office:

- a. Name of patient illegible. It is desired that the name be printed.
- b. Organization and station where tagged, and date often omitted. The "Station" entry should be such as to identify organization preparing same. Example: "Clearing Co 11th Med Bn."
- c. In some cases the treatment given is not shown.
- d. Form 105, Medical Service, Philippine Army, should show the disposition of patient on the reverse side of the duplicate, the disposition being shown on the original under "Supplemental Record."
- e. In many cases the Supplemental Record of original EMF is not being utilized or accomplished where indicated.
- f. Tags should be made out with pencil. Under no circumstances should indelible pencil or ink be used.
- g. All tags should accompany a Report Sheet, Form 51 MD and not be sent in separately.
- h. Signature often illegible. The name should be printed if signature cannot be read.

2. Medical records on hand upon receipt of this communication will be checked to insure conformity with above instructions.

3. Under "Remarks" on Form 51 MD should be entered the dates of participation in combat. Any organization having submitted a report of sick and wounded which did not include the dates of participation in combat will furnish this office, by separate report, the necessary information to amend report. Negative reports are desired.

4. Every effort should be made by persons responsible for their preparation to see that medical records are accomplished properly and are legible.

5. Letters of transmittal are not required for sick and wounded and similar routine reports.

6. In connection with their submission, attention is again invited to paragraph 2 b (1) & (2), Letter this office, Medical Department Reports, dated January 31, 1942.

Subject: Sanitary Inspections.

To: The Surgeon of each Force or Unit; The Commanding Officer each General Hospital and each Medical Officer, Philippine Islands.

1. All medical officers are hereby reminded that the Medical Department is responsible for the initiation and supervision of measures for the control and prevention of disease among military personnel. In this connection their functions are mainly inspectorial and advisory in nature. Accordingly Medical officers are responsible for pointing out insanitary conditions and making proper recommendations to commanding officers for their correction. Inspections must not be made in a perfunctory manner. They will be made with sufficient frequency to insure no relaxation in the enforcement of sanitary regulations.
2. Under present conditions unrecognized and uncorrected sanitary defects will lead to sporadic outbreaks of communicable diseases later to be followed by epidemics.
3. Measures directed against the diseases transmitted through discharges from the intestinal tract are of particular importance. Special attention will be given to:
 - a. Purification of water. All surface water (Springs, streams and wells) in Bataan is non-potable and should be purified by boiling or by chlorination. (HTH is available for issue by the Dept. QM).
 - b. The proper disposal of human excreta, manure and garbage.
 - c. Destruction and prevention of breeding of flies.
 - d. Sterilization of dishes and mess kits.
 - e. Thorough washing of hands after visiting latrine, before each meal.
4. The Surgeon each Corps, Force or Unit of the Medical Department of the United States Army Forces in the Far East will require that frequent and thorough sanitary inspections be made.

STATION HOSPITAL, U. S. ARMY
Office of the HD Surgeon

Fort Mills, P. I.
January 20, 1942.

HOSPITAL MEMORANDUM:

1. Patients will not be allowed out of their wards after 7:00 P.M. Those found outside after 7:00 P.M. will be sent to bed and their names taken and reported to this office.
2. Patients required to use crutches or wheel chairs will not be allowed outside the Malinta Tunnel Hospital entrances at any time as this will increase the danger in case of an air-raid.
3. Due to the congestion in the patients mess it is necessary to serve two (2) settings. Forty (40) patients can be seated at one time. Ward Officers, Nurses and enlisted attendants are charged with the control of patients at meal time. Patients will remain in their respective wards until notified that meals are ready. The present custom of congregating in the main lateral at meal time will be discontinued.
4. Patients are required to remain in their wards or away from the North Entrance of the tunnel until the Detachment Medical Department has finished their meals.
5. The Officer of the Day is charged with the responsibility of requiring all concerned to fully comply with the provisions of this Hospital Memorandum.

1. THE RATION BOAT was delayed in departure for outposts approximately four hours on the night of January 14-15, due to loading of other supplies. In the future, every effort will be made to load such supplies on the boat prior to its scheduled hour of departure. When delay is unavoidable, request will be made to this headquarters for authority to hold the boat.

2. THE TELEPHONE NUMBER of North Mine Dock is Bat 115.

3. ORGANIZATION COMMANDERS are authorized to visit members of their units in the hospital. It is desired that such visits, except under unusual circumstances be made from 6:00 to 8:00 PM.

4. LIGHTS: During the hours of darkness many reports are received regarding flashing lights seen on Corregidor. In the majority of cases investigation shows improper use of flashlights. Flashlights should be shaded with blue paper, kept pointed toward the ground directly in front, and used when necessary only. Headlights of motor vehicles must be properly blacked and kept that way. All other lights must be so shaded that the light is not visible from above. To make the blackout effective all are asked to co-operate and to caution any offenders noticed.

5. PERMANENT PROMOTIONS IN THE OFFICERS RESERVE CORPS have been discontinued during the current emergency. Temporary promotion in the Army of the United States only may be made.

1. PAYMENT OF TROOPS: The troops of these Harbor Defenses will NOT be paid in full for the month of January, 1942 unless they so request. Partial Payment Payrolls will be prepared by each organization and submitted to the Harbor Defense Finance Officer between the 20th and 25th of January for payment as near the end of the month as possible. These rolls will be prepared as normal partial payment rolls allowing each enlisted man to draw as little of his pay in even amounts as he may desire (not less than \$5.00 Gold). Enlisted men who do not desire payment will not be required to accept same but they will be cautioned that ANY ENLISTED MAN WHO SIGNIFIES HIS DESIRES AS TO SMALL PARTIAL PAY OR NO PAY AT ALL WILL NOT BE PAID ON SUPPLEMENTAL ROLLS BUT WILL BE REQUIRED TO WAIT UNTIL FEBRUARY PAY DAY, WITHOUT EXCEPTION.

2. LOST: Laundry belonging to officers of Headquarters Philippine Department. It was picked up by a Chinese tailor at Middleside, (Name unknown), on December 28th. Please notify Major K. H. Houghton, Department Surgeons Office; Phone 497.

1. SIRENS: The use of the siren as a beach defense alarm has been discontinued. In the future, the sirens will be used for "Air Raid" alarm and "All Clear" signals in addition to the air alarm signals already in use. Three twenty second blasts on the siren separated by twenty second intervals will be used for the "Air Raid" alarm. "All Clear" will be sounded by one blast lasting one minute on the Siren in addition to the power plant whistle as now prescribed.

2. LOST: Pocketbook belonging to Captain Lloyd E. Wagner in James Ravine. If anyone has found this pocketbook, please return it to the Harbor Defense Adjutant's Office.

3. ALL ORGANIZATION COMMANDERS who have collected NCO Club accounts are requested to turn the collections over to Lieutenant Colonel E. L. Barr at Laterals 4 or 9, Malinta Tunnel.

4. THE LARGE NUMBER of heavy as well as light, vehicles observed running in both directions without payloads indicates that in many cases such vehicles are being used as individual transportation for the driver and the occupants of the cab. THIS MUST BE STOPPED. The supply of gasoline is limited and it must be conserved. All officers responsible for dispatch or use of motor vehicles will take the necessary action to prevent misuse or wastage of transportation. The Engineer Officer, The H.D. Quartermaster and Regimental Commanders having vehicles under their control will institute a check system to insure compliance with these instructions.

5. SHIPMENTS TO BATAAN: It is desired that the Water Transportation Office, Phone 771, be notified, not later than 10:00 AM of the day shipment is to be made, of any shipments for Bataan.

1. OVERLOADING PONTS AND LIGHT LINES: The addition to or changes in existing power and light lines by persons other than those regularly employed for the purpose by the Utilities Department MUST STOP. Violation of this principle is directly responsible for many of the light failures in the tunnel system.

2. TAMPERING WITH WATER LINES: All persons other than Utilities employees must refrain from opening or closing valves in water main and supply lines. Such action often times results in interruption to the service and may result in loss of water and damage to equipment.

Violation of the above instructions will be detrimental to the defense of the fortress and any persons involved in such action will be subject to drastic military discipline.

3. MAIL ADDRESSES: The attention of all concerned is invited to the requirement that the return address of all outgoing mail include the Army Post Office number of the sender. All correspondents should be requested to include the Army Post Office number on mail addressed to members of the Command.

4. CAMOUFLAGE DISCIPLINE: All personnel at this station will refrain from displaying laundry or other readily visible material in such a way so as to reveal to enemy air force the position of any strategic installation in the Harbor Defenses.

5. PILING SAND BAGS: The following from the Department Engineer is published for the information and guidance of all concerned:

"It has been noted that sand bags are being improperly piled inside the main Malinta Tunnel at the entrances of certain laterals. It is recommended that where local organization construct their own sand bag obstructions they consult with the Engineer Department as to the proper method of piling the bags so as to prevent a collapse of the piles".

O. B. No. 1

1. PARKING VEHICLES: It has been noted that during air raid alarms, automobiles and trucks are being parked too close together. Every effort will be made to avoid bunching vehicles during alarms.

2. CHARCOAL IRONS: All members of the garrison who have charcoal laundry irons which they are not using and which they desire to dispose of are requested to contact Captain Short in Lateral 3, Malinta Tunnel.

3. SYPHILITIC TREATMENT: Treatment day for syphilis will be Tuesday, January 6, 1942. All men who are on treatment will report on that date, at 7:30 AM.

4. PAYMENT OF TROOPS: Agent Officers of the following organizations will report to the HD Finance Officer as indicated:

59th CA- 9:00 AM January 5, 1942
60th CA- 9:00 AM January 6, 1942
91st CA- 9:00 AM January 7, 1942
92nd CA- 9:00 AM January 8, 1942.

5. CHALLENGES: During hours of darkness, everyone must be prepared to answer a challenge at any time. This is particularly true in the area east of MALINTA HILL.

By command of Major General MOORE:

W. King
W. V. KING,
Captain, A. G. D.,
Asst. Adjutant.

O.B. No. 310

Friday, January 2, 1942

O.B. No. 310

1. HOSPITAL ACCOUNTS: All pay patients are reminded that hospital bills are due on the date of discharge from hospital, or on the last day of the month in which services were rendered. It is requested that these accounts be settled promptly.
2. Clothing will not be issued to enlisted men who have one change of clothing. Chits for the issue of clothing will be certified by the Supply Officer of the organization concerned.
3. ARMY POSTAL SERVICE: An Army Post Office has been established in the barrio. The mail truck will leave the post office at 9:00 AM daily to pick up and deliver mail. It will go, for the present at least, only to Regimental Headquarters and certain Staff Department offices. Outgoing censored mail should be ready for picking up on the arrival of the truck.
4. There is an acute shortage of cordwood on the post. There is a large quantity of wood suitable for fuel, now in San Jose Barrio. Units and detachments are requested to remove wood from San Jose Barrio. It is strongly urged that a reserve supply of wood be stored in close proximity to each using unit. Any wood remaining in San Jose Barrio upon completion of wrecking by the Engineers will have to be burned to eliminate a fire hazard.
