SUBJECT: Statement of War atrocity by Capt. Walter J. Hewitt,
SC, USA, liberated POW.

TO WHOM IT MAY CONCERN:

A total of fifty out of 270 men died at Misushima POW camp through the sheer neglect of Capt. NAKAJIMA, Japanese Army, who refused or failed to obtain proper medicines, sufficient food, adequate clothing and footgear for men working out of doors in the middle of winter, and his failure to obtain fuel for heating of living quarters in spite of constant urgent pleading and begging by the prisoners officers in the camp.

To witness men sick with dysentery and malaria driven to work with clubs, working in the middle of winter snow up to ankles barefooted or feet only wrapped in rags. Feeding half cooked barley, only to man dying of dysentery, inerciless beatings with sticks and ropes, mass punishment and beatings for individual minor offenses (not keeping eyes straight to front while at attention, etc.,). Turning men out of the hospital to sick and weak to stand still, refusing ti issue overcoats because those men were not working. Locking in cold unheated guardhouses for days. Beating officers for complaining when they begged for more food or clothing or fuel for men. Misappropriation of Red Cross food supplies. I request that this man be apprehended and put in custody while I provide detailed information to GHQ AFPAC.
