51st Div. had Murray's on hands for. seen to  
 Murray - the Div. had too lg. a center. Div. P.  
 had requested more troops so 11th Div.  
 took back & Col. leading to take the night.  
 In Black & repair his troops. Div. 10  
 days of fighting with - men on line get  
 tired - Gen. Mac. wanted - men not  
 to get tired. - Plan of encumbering &  
 front line - been not accomplish.  
 Corps. Div. Dec. 1918 - 51st Div. - Murray

 Div. Gen. Placer 1st. 1st. 1st. 1st.

 45th. partly - valuable but their  
 mobility & he did not want them  
 engaged in that extremely rugged  
 - jungle covered Mt. & not as able  
 to sustain them & would not take  
 it unless it was long. Gen. P.  
 said it is long. Good both days

in poor - above us 31st & 45th hills -  
 and to heavy contact in soon of poor. While  
 John says to get here then to Gen. Placer  
 that tough terrain for order. And 51st  
 95th would - huge of base rd to 45th Div. the  
 life to all that until they were left of  
 upper 45th Div. - then to meet to night - meet  
 and clearing out the way well. In doing so  
 in clearing flat - some - knew it and  
 had to 31st & 45th in contact by the heavy  
 release was given. In an action 24th  
 mine into I see heading down the rd  
 if that attack had not been stopped they  
 would have swept entire Corps off of  
 the map. 31st & 45th it is plain all the  
 night time. It only 507 ft. Col. Lewis  
 CB when Pitt said so. Progress nearly  
 slow but get back to Mt. P. taking  
 huge toll of J. But the life of 25th  
 in extreme left of line did not extend  
 to Mt. Natch - leaving gaps open. About  
 this time - found some - 1000 ft on  
 Mt. Williams - 1/2 of Natch also  
 31st Div. at Hentel almost mounted on  
 of Div. by a few I patrol - revealing  
 that J. were going down also. 31st  
 in the afternoon. The situation being  
 this way, the plan. 1st. 1st. 1st. 1st.

On the 14/10/41, a cov. for necessary - from 1st  
 div. I decided to have the unit but later  
 decided to put in this. the w/locks - (some  
 about cov. w/locks & took transport section  
 of Cov. Reffinition of getting these out  
 to a cov. zone. Units of Balanga got into  
 action & do well.  
 I was surprised to find to his time till 4pm. I still  
 that I had suffered heavily & did not want  
 to attend his funeral. Sir P. also once  
 I stopped for not attending. But the bill  
 and religious system of train, maligned  
 by Sir P. Parker - WAC - through I good  
 & quite good order - directing all to do it.  
 It's particularly interesting. This institution  
 I had found interesting year and an actual  
 patrol - a fine practice. I saw in all  
 branches - some in line pulled out and  
 maneuvered. Much good training also  
 pleased. I melted into cov. by having  
 in hands of duty on it - for weekly.  
 (I was right outside of Cov. - big will to  
 give a cov. for me. I think I'll  
 for this you have made me busy - that  
 I have to go to the camp. I have to  
 1/2 way to the camp. I have to  
 night and then I have to 1. near will
