Toyama P.O.W. Camp No. 7,  
Nagoya District,  
Toyama, Nippon.  
August 29, 1945.

SUBJECT: Report of Prisoners of War  
TO : Commanding General, USAFFE.

1. Inclosed is a roster of the ex-Prisoners of War now at this camp, numbering one hundred ninety-five (195), all Americans.

2. One hundred fifty of us came here from Yokkaichi, twenty-five kilometers southeast of Nagoya, on June 1, 1945; while forty-six men arrived here August 3, 1945, from several other camps as transients enroute to an oilfield camp. One man, Private Clifton S. Uckerman, 19011246, Salt Lake City, Utah, died here June 25, 1945.

3. Our treatment here has been far better than in any of the other six Prisoner of War camps, and three Concentration Areas, in which I have been confined. Hours of work have been long but our treatment and rations improved here when supplies of all kinds were getting scarce. The Japanese Commandant cooperates in everything and makes apparently sincere efforts to meet my every request for supplies, etc., but supplies of all sorts are hard to obtain due to the burning of Toyama August 2, 1945.

4. My men have been well behaved throughout with few exceptions. All of us are now trying to realize that we are again free.

5. One bomb was dropped so near this camp on ~~Friday~~ July 20, 1945, that our fence and part of the barracks collapsed. Twelve Americans were injured, none seriously. The town and area surrounding the camp were bombed and burned beginning about 1:00 A.M., August 2, 1945. Seven incendiary bombs dropped inside the camp, together with hundreds of fragments, but fires were quickly extinguished, and no prisoners injured. Several metal sheets from the sides of the bomb-clusters were used in patching our roof. A large percentage of the incendiary 4 pound bombs were duds, fortunately for us.

6. Navy planes of VF - 83 circled this camp August 27, 1945, but indicated no message pick-up service and dropped no food. I will give this report to the neutral official now scheduled to inspect this camp today.

7. At noon, August 15, 1945, the Nipponese Camp Staff and Guard were assembled within our view to receive a radio message. This was unusual and coupled with the dejected attitude of some of them after the message had been received led us to hope that the long anticipated capitulation was at hand. A holiday for all workers was promptly announced for the afternoon of August 15th and no Americans have worked since that time except internal police, etc.

8. The morning of August 22nd I was informed by 2nd Lieutenant Shoichi Negishi, Nipponese Commandant, that (1) the war was over, (2) that all Americans would remain in protective custody of the Nipponese Army until delivered to a port of embarkation, (3) that his guard would thereafter patrol only outside of our fence, (4) that all internal discipline would be turned over to me, (5) that the ration of rice and beans would be increased directly, and (6) that he would make every effort to secure meat, fish, and vegetables for our use.

DECLASSIFIED

Authority: ND 883078

The above message was delivered in part on the evening of August 21, but complete delivery was delayed due to the lack of an interpreter. I at once informed all men of the above and warned them to avoid friction and unpleasant incidents of all kinds. There has been no trouble of any kind here.

9. I am now conducting short close order drills and am permitting the men to swim in a nearby river and to take short exercise walks within one-half mile of camp, accompanied by any unarmed Nipponese guard. The Nipponese Commandant is very cautious and fears friction with local civilians. I have informed him that I will permit no liberty contrary to his judgement, in order that he remain responsible for the safety of all Americans. All of the more radical Americans have apparently forgotten their enmity to a great degree however and local Nipponese are very friendly.

10. All men are now receiving all the rice, beans, and vegetable soup they can eat. One pig, weighing 210 pounds, and five quarters of beef were delivered August 25 to 28 inclusive, together with a small issue of sugar, flour, saki, and bean curd, the first received in ages. Our sick rate has been very low here due to the gradual increase in food served. We have received cigarettes in advance to September 11 at the old issue rate of two cigarettes per man per day, an unusual concession; but the shortage of tobacco is keenly felt. We have received more tobacco than Nipponese civilians.

11. The Nipponese Commandant has turned over his Headquarters building and quarters to me and my staff so that all officers and warrant officers are now removed from barracks to more suitable accommodations.

12. The lack of news and tobacco are now ~~our~~ chief complaints. All newspapers, magazines, etc., and all verbal news of any kind have been denied us since October 1943. A few men have learned to read Nipponese to some degree and we have kept ourselves sketchedly informed through stolen papers. The Nipponese staff will talk freely now but news magazines from December 1941 would be greatly appreciated.

13. The Nipponese Commandant has completely disarmed his guard although I requested him in writing to retain the guard rifles in the guardhouse for use in case of mob action which he fears.

14. The health of the men here is remarkably good considering the long hours of heavy work required of them on deficient rations during the last three and a half years, the shortage of medicines and clothing, and the crowded housing conditions coupled with poor sanitary conditions. I enclose a health report of Captain Howard W. Friedman, Dental Corps, who has been acting as Medical Officer here.

  
GUY H. STUBBS,  
Lieutenant Colonel, CAS,  
U. S. Army.

Toyama Prisoner of War  
Camp No. 7,  
Nagoya District,  
August 29, 1945.

SUBJECT: Health Report.

TO : Lieutenant Colonel Guy H. Stubbs,  
Commanding Officer, POW Camp No. 7.

1. The original group of one hundred forty-nine (149) men interned in this prison camp are in comparatively good health. Forty-six additional men who arrived August 3, 1945 are not as fortunate. Of this new group, a good many suffer from hypoproteinemia and emaciation.

2. Generally speaking the most common complaints are: hypoproteinemia and beri-beri---twenty-five severe cases and approximately twenty-five mild cases. There are approximately twenty cases of malnutrition and emaciation. The most general complaint suffered occasionally by all men and continually by about twenty-five men is gastro-enteritis and diarrhea, due not so much to digestive tract affections, but to the quality of the prisoner's diet.

3. Although the majority of the men have suffered from malaria in the Philippines, only two demonstrate occasional malarial symptoms at the present time.

4. There are undoubtedly present a few cases of incipient tuberculosis but none definitely demonstrate without x-ray, and approximately four cases of either tuberculosis or acid burned lungs.

5. One man is temporarily crippled from a factory injury, sustaining multiple fractures and contusions of the right foot.

6. There are also from seven to ten men with visual impairment of the retina due to Vitamin A deficiencies during the past three years.

RECAPITULATION: Of the 195 men in this camp, one man is unable to walk and from 7 to 10 unable to walk but a short distance.
