WASHINGTON

25 February 1947

SUBJECT: Philippine Scouts (Retired)

To: Commanding General
 Philippine-Ryukyus Command
 APO 707, c/o Postmaster
 San Francisco, California

Attn: Recovered Personnel Division

1. Reference is made to letter from this office, subject as above, dated 10 April 1946, forwarding a list of Philippine Scouts (Retired) whom the Philippine Department had recalled to active duty in December 1941, and for whom no report of casualty status had been received in this office.
2. Subsequent individual reports received from your headquarters as well as information uncovered in The Adjutant General's Office, has resolved the status of a large number of the soldiers referred to above. However, no definite report establishing their participation in the campaign in the Philippines has been received for the individuals shown on the attached list. In compliance with your request for additional information, made in letter dated 30 April 1946 (copy recently received), the next of kin, emergency addressee, or latest address of subject individuals, with date of information, is shown for each.
3. Further search is being made in the case of those for whom an emergency addressee or relative is not shown. It is believed that the local Veterans' Administration office will have some information concerning the "pensioners" - names marked with an asterisk.

By order of the Secretary of War:

E. E. Ewing

Captain Forsythe:

1. These cases which " Never Reported for Active Duty" are of this nature since we know they died as Civilians or they reported to one of the Replacement Depots in an attempt to find out about their back pay and so of course it was learned that they never did anything during the war in a Military Capacity.

2. "Cases which have been reported to WD as Deceased are those which have had RF's made on them or SR & D's or have have just had Reports of Death Made on them.

3. Those "Cases whose Status is Undetermined" are those which we know nothing about as far as to their reporting for Active Duty when recalled or what their activities were during the war as far as serving in the Armed Forces in concerned. Information on these subjects is lacking and these are the cases that we are desirous of knowing their emergencee addressees and likewise their last none address so that we may make contact with them.

4. "Cases which Reports of Death are Being Forwarded on" are those that we will make SR & D's on soon and those which I will myself report.

5. Much hinges on the reply that the War Department has yet to make in answer to our request for EA's and last know address. Chances are that we will find very few more that have actually served in the Military Forces of this group which we lack information on.

6. I can only reccomend that most of this work be suspended until information is available to clarify their status'.
