OFFICE OF THE DISBURSING OFFICER  
NEGROS ISLAND  
APO 715

AS-mpp

30 July 1945

SUBJECT: Data on Strength of the Troops,  
request for

TO : DC, 7MD & CO, 53rd Inf Regt.

1. In consonance with instruction from Chief of Finance, HPA and to determine the total monthly expenditures of the troops stationed in Negros Island, a report on actual strength of the troops both guerills and Philippine Army organized units including MP companies, showing their respective present ranks is requested for.

2. Any favorable action on the part of the headquarters for immediate submission of the above, will be highly appreciated. This data is urgently needed as indicated in the portion of the letter, Chief of Finance, HPA as follows:

"Submit within seven days the actual strength of the troops, both guerills and PA organized units including MP companies and their location, you are to pay within your area. Your report will be submitted by grades and will include your total monthly estimated needs."

SUBJECT: Recommendation

6 March '45

TO : CPTED (THRU AC of S, G-1)

1. This office recommends that an order be released requiring all unit commanders to have all sick personnel report to their respective units, or Aid Station for proper treatment. The practice of Unit commanders of allowing sick personnel to stay at their homes must be stopped at once.
2. Effective at once all Unit Commanders must take necessary steps in rounding up all their respective sick personnel and confine them at their respective RAG or BAP.
3. That every Army personnel sent on mission must report to their subarea for enough supply of medicines and proper instructions to use of such ~~medicines~~ medical supplies while on mission.
4. If the above measures be followed, this office believes that the conditions of our personnel will be much alleviated.

Subject: JAP PUPPETS AND COLLABORATORS

To : All Unit Commanders, Intelligence Officers,  
and Civil Officials

1. Per broadcasts of KGEI, KGEX and VLC 2, 3 and 4 July 44, Philippine Independence requirement of Congress is that no PUPPET or COLLABORATOR shall HOLD ANY POSITION IN THE GOVERNMENT TO BE ESTABLISHED NOR SHALL THEY BE ENTITLED TO RELIEF OR REHABILITATION.

2. Above significant declaration should encourage all of us. Our privations and sacrifices will not be in vain and we urge the Puppets, and Collaborators, because they shall not be entitled to any government position or even relief or rehabilitation. Spies and informers will receive their just "deserts" from USFIP.

3. All Officers of this command specially Intelligence Officers should keep close tabs on persons who accept and discharge functions under the Puppet Government, or collaborate with the enemy as enemy in one way or another and for any length of time from 21 May 42. Submit complete data to include the following if possible.

Name and Surname:

Address before the War:

Present Address:

Nearest Relatives:

Short personal history:

Charge (Puppet, Collaborator, Spy, Informer, or Sympathizer.

If a Puppet state include dates of holding office and position, if a collaborator give acts of collaboration)

Acts:

Proof: (Witnesses or Documents.)

Subject: Withholding of salary, Request for  
to : C.O. NORTH WEST NEGROS SECTION  
( Thru Channels )

1. The undersigned hereby requests for the withholding of partial salary of the following due to the following reasons:

- (a) Pvt. Alfredo Leonor ----- P1.20  
(b) " Ceferino Arinas ----- P10.50

That these fellows had owed a certain sum of money from a poor old man by means of the latter's tobacco taken by them seven months ago on the promise to pay the old man as soon as they received their salary.

That the undersigned had been reminded several times of this debt as he is their sole guarantor.

That they had fully forgotten their promises and and the hospitality of the man shown to them.

2. The undersigned is on the belief that only in this means, we can force these irresponsible fellows to pay their rusted debts.

3. I therefore hope that due consideration be given to the above request.

29 Feb '44

Subject: A Message  
To : The Officers and Men  
72nd Division

At this stage of our existence, I would like to convey this Message to all of YOU, Men of this Command, to remind you of your Sacred Duty to your Country and your Obligations to your fellowmen and the generations to come. I enjoin everyone not to forget the Ideals that prompted us to organize and resist. These ideals embodied in that sacred word, Freedom, should never be cast aside just because of the honeyed utterances of the enemy's glib-tongued propagandists or by the temporary manifestation of the enemy's supposed might.

The Test of Man is not when he has everything at his bidding. It is at such time when that Man is confronted with the most perplexing problems and subjected to untold sufferings. This holds true with an organization, our Organization. The problems we have, plagued with miseries and privations, are but a part of the Abid Test we all must undergo.

The Heroes of the Past and of the Recent Past did not attain their glories without painful sacrifices. Glory without struggles and sacrifices is not known to exist in this world. The Chinese people are a shining example of those Struggles and Sacrifices. They have been in this situation for the last seven years. Why? Because they have Ideals to attain and there was never a word of complaint nor a sign of indifference even with the untold sufferings.

We have picked up the struggle where our Heroes of Bataan and Corregidor had left it. Shall we fail them? By all means and at any cost, NO! And should we fail those who have given up their lives, they will rise from their graves to curse us; and to future generations, we shall be a Mockery.

The enemy is employing all conceivable means to make us surrender. He threatens us, coerces us; he captures our families and tries to attract us with the Japanese Yen. Failing in all these, he makes and exhibit of his Supposed Might. It is true we cannot lick him decisively now, but as long as the Men of this Division breathe the Free Air of the mountain side, the Resistance Must Go On and our Organization must be Preserved.

All our days will not be like these. The Future is bright. I enjoin all Officers and Men to hold and be prepared at all times. We may have to tighten our belts and have sleepless nights, but the Fight Must Go On!

General MacArthur promised to return. He will return. He is coming nearer and nearer. Have Patience and have Faith, and above all have Courage.

Men of the 72nd Division, **CARRY ON!**  
(Sgt) ERNESTO S. MATA (O-3)  
1st Lt. Col. Inf. Div. 72nd Div.

TO THE FLOOR OF MEMBERS:

Of course, we have been told that I and, with me, my official staff will soon surrender to the enemy; that, through the intervention of some prominent men, I have made arrangements in order that my personal safety and that of my family be fully guaranteed. These who make to personally will attain the same favors as ourselves. When I decided to avoid our fate it was after matured deliberations and with a full recognition of the risk and dangers attendant to it. Even on ordinary matters I rarely change my decisions -- on matters so far-reaching as this I do not change them. More than a year has passed since then and on no instance has it occurred to me to retract my stand nor to recede from the decision that I have taken. I lie behind the scenes at the mercy of the enemy. My only protection, besides that the enemy has bestowed pillaged, burnt and destroyed, lies in the fact that the enemy has his own things that remain. Because of my action, I have not had a moment in which I have called my own. Least of all in the Philippines where I have my quarters. Since then, thousands have suffered and civilians have found their untimely graves that enemy traitors and treachery. These deaths must be avenged, no matter at what cost. This can only be done by holding high the torch which is a sign to us to iron their arms' hands. I lately saw thru enemy actions and through my brother, Jose Monrealino, and other my active collector for the associates in the organization and maintenance of the Civil Government, also through the records to the memory of my brother and to those other Filipinos who, like him, have died. I now turn my back and seek the help and protection of the enemy, from his deathbed by another sent to his release: "You must carry on until victory is won." In answer I say: "I will, I must, carry on."

From a more practical standpoint I also; when in the year 1942 I decided to throw in my lot with that of our scientists now fighting with the Allied nations, the enemy, especially Japan, was having the upper hand. The best brought nothing but victory after victory, success after success on the Iloilo Army and Navy. Victory was then under our eyes and we heard and it then occurred as if the team would never come. Now, however, the tide has not only turned, evidences of Allied victory are everywhere. Italy has not only surrendered to the Allies, she is also actively fighting on our side and against her former ally, Germany. Germany's days of wild conquest and domination is now completely vanished; they realize to not now speak of victory but only of "defense of the Reich"; her forces have been driven from practically all of Russian soil. No city of importance in all Germany has escaped Allied heavy bombing, with Berlin exclusively owning the title of "THE MOST HEAVILY BOMBED CITY OF THE WORLD." At least one-half of all buildings in that City have been razed to the ground. The German election campaign is virtually over and what remains of the German forces in the Islands will suffer disease, starvation and death. The sea, like inland, with the Japanese that are still in New Britain and New Ireland. In the Pacific, where the Japanese Navy, not only has been forced into the air but also crippled by American Naval forces. The Gilbert Islands have been taken; the Marshall Islands, a heavy force of Japan's in the line of defense has not only been pillaged, it has been completely destroyed and captured. Some of the Carolines and the IRL, the great Harbor of Japan in the Pacific, have been established by a strong force of American Naval units. The fall of the Carolines will be a matter of time and after its fall the movement of the Philippines should come as soon follows the night. With all these evidences of Allied force and success, it shall not only be impractical but downright foolishness for me and for that matter, for anyone now collaborating with us, to lose faith and courage and to surrender to the invaders.

I WILL CARRY ON UNTIL VICTORY IS WON. YOU MUST CARRY ON.

ALFREDO MONREALINO,  
Governor.

2  
EO Rev., '43

Subject: - Vol. GUARDS (ref. yours of 18th instant)  
TO: COL. AMELIA, Sr.  
Commander-in-Chief, Citizen's Army, 5th Dist.

Quoted below is par. 3 in yours of the 16th instant:

"3. In that connection, please be informed that the organization of the Citizen's Army exists in this part of Marikina and, to avoid misunderstanding, I would like to be informed whether you are going to start a new organization disregarding or ignoring the present one or you intend to have the same one going on and super-  
vise."

About the information you desire per the above, is quoted: - "to organize and supervise the Vol. Guards in under (Israel Kato, 1st sentence, par. 1, in Memo dated 18th instant addressed to the undersigned by the CO, Hqs. Bn. (copy furnished your goodself).

2. In complying with the said order, the undersigned is neither disregarding nor ignoring the present one (claimed by you to be existing) because, needless to say, the Vol. Guards organization or the like, never have functioned although it may have existed in form.

3. Please refer also with pars. 2 & 3 in "Rush Memo" dated 18th instant, addressed to "All concerned" by the CO, Hqs. Bn. (copy also furnished your goodself), in which, 1st Lieut. Simon Palacios and 1st Lieut. Emilio Castillo are instructed to do the same in their respective areas which, I believe, are still parts of the 5th District.

4. Nothing but reasons which I believe would warrant for the advancement of the COMMON GUARDS, guide me in the accomplishment of this mission.

Subject: Enemy Strength, Armaments, and  
Defensive Installations  
TO : All Sector Commanders  
(Third CO, HNS, CNS, SNS)

1. It has been noted by this Section that a lot of changes have taken place in enemy garrisons re strength, armaments, and defensive installations. Reports come in continuously but does not include those changes.

2. In view of the foregoing direct your S-2s to submit immediately to this Headquarters the following:

a. A Five-Month Comparative Graph of Enemy Strength in your respective sub-sectors covering the period from April to August, 1943. A detailed explanation should accompany the aforementioned graph stating therein among others the component of the enemy strength (either Jap soldiers or JGs) and their distribution, reinforcements and withdrawals should be so stated as far as possible.

b. List of Armaments in the Enemy Garrisons as of 31 August 43. Care should be taken in reporting the number, type, and calibre used re field artillery guns, machine guns, and rifles. Such terms as "Baby Canon" and "Heavy or Light" machine gun in so far as it pertains to field artillery and machine gun respectively should be avoided. An American who had been with Col. Yanagouchi's troops here disclosed the fact that the enemy is using four (4) 75 mm field artillery guns, two of which are English made while the other two are Japanese made; two (2) 41 mm field guns mounted on wheels; a number of 81 mm and 41 mm trench mortars; 27 cal. machine rifles; a large

(over)

-2-

number of 27 cal. rifles; and one (1) 30 cal. Browning Automatic rifle. The 28 cal. rifles often reported, are short rifles with permanently attached bayonets used by the cavalry. These are 27 cal. rifles. Col. Yamaguchi's troops here are occupation troops which came from Saigon and Singapore, hence, they do not have the American-made arms taken from Bata-an.

c. A Sketch of Important Enemy Garrisons in your respective Areas Showing:

- (1) Gun emplacements
- (2) Sandbag barricades and wire emplacements
- (3) Trenches and foxholes
- (4) Cement Pillboxes
- (5) Guard Posts
- (6) OPs and
- (7) Supply and Ammunition Depots

A detailed explanation on separate paper should accompany the sketch.

Expedite strict compliance of Paragraph 2 a, b, and c.

By Order of the CG, 72nd Division:

11 August 45

SUBJECT: Instructions on Procurement and  
Accounting of Supplies  
TO : All Sector and Sub-Sector Commanders

1. In amplification to the administrative details of Field Order No. 3, Hq., 72nd Division, dated 31 May '45, the following instructions, pertinent to the procurement and accounting of supplies are hereby published for the information, guidance, and compliance of all concerned:

2. Functions of the DQM Agents - The District Commander has appointed Agents for the District Quartermaster in all the areas covered by the units of this Division. These agents are the representatives of the District Quartermaster and as such, will function as Procurement Agents for the 7th Military District. They are the only Army personnel authorized to procure on requisition receipt any supplies from the Civil Government. All other personnel, heretofore connected with the supplies agencies of the Army, are hereafter no longer authorized to procure supplies, unless duly appointed as Agent of the District Quartermaster or when procuring supplies on cash basis.

3. Requisitioning of Supplies - (a) Supply Officers of the Sub-Sectors will prepare their requisition for supplies, based upon the actual needs and allowances of their units, and will forward same to the DQM agents in their immediate area, furnishing copies of their requisition to the Sector Supply Officer, Div. G-4, Division Quartermaster and District Quartermaster for their record and reference. Requisition papers will, therefore, be prepared in six (6) copies, four (4) of which will be forwarded to the Sector S-4 for distribution to the offices concerned and one (1) copy will be forwarded to the DQM Agent for his immediate action.

(b) Requisitions will be based upon a correct and accurate estimate of the supplies needed by the units for the next three, six, or 12 months, depending upon the availability of supplies in the area. Allowances for dependents and casual visitors will be included in the estimate.

(c) Sector S-4, Div. G-4, and Division Quartermaster will, upon receipt of the requisition, check up the estimate made by the Sub-Sector S-4s and record them for future reference.

4. Procurement of Supplies - The DQM Agents, upon receipt of the requisition of the Battalion S-4, will procure the supplies from the Civil Government through the Deputy Governor. After having procured the supplies, they will notify the Battalion S-4 and indicate to them the location of the supplies. Then the Battalion S-4 can send his men or hauling party, with the letter of authority of the DQM agent, to get the supplies.

5. Hauling of Supplies - The hauling of supplies will be the responsibility of the Sub-Sector Supply Officer. Civilian laborers will be paid from funds allotted for operations at the rate of P0.20 per kilometer per one cavan of palay or 50 kilos of supplies.

6. Receipt for Supplies Procured - (a) DQM Agents will require the Battalion Supply Officers to sign receipts for all the supplies they procure. The Battalion Supply Officer will furnish copies of the receipt to the Sector S-4, Div. G-4, Division Quartermaster and District Quartermaster and will therefore forward four (4) copies to the Sector S-4 for distribution to the offices concerned and one (1) copy for his record.

(2) The Section G-4, Div. G-4 and Division Quartermaster will retain serial copies of the proceeds slips and classify them into expendable and non-expendable supplies. Unit Supply Officers will be held accountable for non-expendable supplies only. Battalion Supply Officers will submit monthly reports on Expenditure of Expendable Supplies to the Sector G-4, Div. G-4, Division Quartermaster and District Quartermaster. Expendable supplies will be dropped from the accountability of the Battalion Supply Officers as soon as the report on expenditures are received by the Division Quartermaster.

7. The foregoing instructions will govern the procurement and accounting of supplies in this Division only in cases where the supplies have to be requisitioned on credit basis. In cases where the supplies are to be purchased in cash, the Battalion Supply Officer may purchase the supplies direct from the vendors or civilians. All purchases will be supported by a General Voucher, a copy of which will be furnished to the S-4, Div. G-4, and Div. Quartermaster for their record and reference.

2 - 2 ESTIMATE OF THE SITUATION

I. ENEMY DISPOSITION BY SUB-SECTORS

Sub-Sector	"M"	INF	JC	HI	MARINES	KURASIKI	TOTAL
Sub-Sector "M"		58	48		363		467
Sub-Sector "O"							
TOTALS	---	58	48		363		467

Strength last month (as of 16 Oct) ..... 630  
 Present Strength ..... 467  
 DECREASE ..... 163

Remarks:

The marked depletion of enemy garrison strength was significantly due to the simultaneous evacuation of troops from La Castellana, Pentevedra, Hinalgaran, Kabankalan and Sub-garrisons Central Palma and San Isidro, and lately Hinarayan. It could not be doubted that the greater portion of the troops that abandoned the southern garrisons have gone to the North from Binalbagan where truck movements to and from Baceled have been observed. No longer in this Sector, La Carlota Area's importance shown by outnumbering total enemy strength this Sector, with total estimated strength of 990 including 44 JCs. This could be explained by the fact that Aguisan Landing Field seems to be of value to the enemy. Changes of enemy's number may depend on how things will go on in Binalbagan, it being the remaining center directly responsible for maintaining its island-most garrison, Isabela. No indications as yet pointing to evacuation. Any big Allied move in this island will as doubt decide this any time from now.

II. RESUME OF ENEMY ACTIVITIES:

A. GROUND -

Not much for this period. Since their abandonment of their northern and southern garrisons, the enemy was observed to be quiet but evidently on the defensive. Their movements are mostly done during the night in which case, Aguisan Landing Field is guarded every night by

and Nagoya as observed from Okinawa shore, 1 Nov, 44,  
machine-gunned by American planes from Okinawa Island  
little period. The unidentified large ship was bombed and  
evident to their waterway. No indication observed for  
also areas within this sector are either searched for  
ping facilities. The ship bearing Okinawa Strait appo-  
scent, American planes are working force on enemy's ship.  
Reports negative. Having command of the air at pre-

B. NAVAL

have decided to face it now or never.  
There is one big problem for them today and they probably  
another plan in their heads as they have found out to be.  
did. They know that in a diving force, we would add  
now; they don't seem to give more attention to us as they  
fact stepped. Knowing our fighting power and capabilities  
force and patrol seldom observed. Structural pre-  
the North after a short inspection of the town.  
At about 8:30 am, 1 Nov, 44, around 8:30 am, 20 minutes  
of passing troops, said boats being located near the  
Kamikaze such as Nagoya, and Nagoya. A large  
about 40 minutes from Okinawa. Truck movements from

the said unit to Sub-Detector "A" area is not imperative or urgent inasmuch as the amount will still be under the administrative and tactical command of the under-organized after the transfer. Furthermore, it is expected that in the event that a major offensive action will be conducted the 2nd Inf, 76th Inf will still be under the command of the under-organized for tactical purposes and the best solution that the under-organized can action to the said unit is to attach Fabryson and Fisher-Hempert, the enemy objectives which are located in the present area - Sub-Detector "G". Therefore, if the 2nd Inf, 76th Inf will have to be under my command during the major offensive, it has to be assigned to position the area (Sub-Detector "G") where the objectives are presently located - a tactical movement controlled exactly by the present tactical distribution of troops of this sector. However, if it will happen that, in support of a major offensive, the 2nd Inf, 76th Inf will be required to operate under the command of the CG, 76th Inf it will first be a simple matter of ordering the movement of the said unit from Sub-Detector "G" to Central Negro Sector in order not to affect the present tactical plan of this sector which is transferred by the under-organized to be the best plan after a thorough analysis of the situation.

2. In brief, the under-organized earnestly and vigorously recommends that the proposed change of the present 1st Inf, 76th Inf (Sub-Detector "A") to be the 2nd Inf, 76th Inf be not effected for the following important reasons in regard:

(a) That the change will upset and disrupt the present tactical plan of this sector which is the best plan of action in case of a major offensive.  
(b) That the change will destroy the excellent teamwork and esprit-de-corps of the present units of the 76th Inf which are essential factors for the conduct of the offensive of a regiment;

(c) And that the reason or necessity for transferring the 2nd Inf, 76th Inf to an area (Sub-Detector "A") adjacent to the Central Negro Sector is not imperative or urgent in view of the fact that it will remain to be under the administration and tactical command of the under-organized for the present and during a major offensive operation.

Subject: Re Palay Harvest

300.6

3 June '44

To: AC of S, G-2

1. Since the 20th of last month, palay harvest in Talisay-Silay area was begun, principally in Escas, Mags, Panagas, San Rafael, de Agua, and adjacent haciendas. This new harvest which should be a bounty to friendly troops in that area, on the contrary, is adding strength to the enemy. As has been seen in practically all these haciendas, palay harvests are guarded by the enemy soldiers; then after the harvest, all palay harvested are brought to the enemy garrisons, in this case, San Ramon, Mags or Sagrada Corazon de Jesus, where these harvested palay are shared to tenants, harvesters, and landowners. In all these cases, about half of the total harvested palay are sought by the Nips from either the tenants or landowners, and the civil government which is supposed to get its 20% share of the total harvest could not even get a single grain because of the complete control of the enemy over the harvest.

In San Ramon, Mags, and Sagrada Corazon de Jesus, the Nips have constructed enormous beedags primarily to house all the palay they could purchase or confiscate during these harvests.

2. Constant and incessant patrols of the enemy traversing from Bere-Bere and San Ramon garrisons reinforced from Sagrada Corazon de Jesus and Mags plus the absence of friendly troops in this area even only to harass these patrols, place the harvest in the areas bordering the patrol routes entirely at the hands of the enemy. If this situation continues, all haciendas within 15 kilometers radius from the towns would be completely controlled by the enemy leaving only about one-third of the total area wherein friendly troops could acquire palay.

3. With the construction of several beedags by the enemy in the above-mentioned garrisons, possibility in extreme that the enemy will exert utmost efforts to grab all palay they could lay their hands on, unless something is done to thwart access of the enemy patrols to these areas. Presently Combat Company of SS "D" is way south of its area, with Companies of SS "E" grouping in Victoria-Jaravia Area, thus leaving Talisay and Silay Area bare of armed troops.

SECRET & CONFIDENTIAL

Subject: Code re the use of "TOLTOGAN"

To : AC OF S, G-2

Code re the use of "Toltogan" is hereby made to wit:

1.- That if the enemy is approaching, beating of "Toltogan" will be rapid and long as possible so as to enable the adjacent post to hear and to relay the same to other adjacent post. In cases where the enemy is very near the striking of "Toltogan" would be strong and slow.

2.- Once the "Toltogan" is sounded every outpost guard would be on the alert and the moment he hears the sound of the toltogan whether the enemy is approaching or not he must notify the adjacent post by means of following the code to be used. The toltogan will not be used in cases of false alarm and that anybody, civilians or Army Man found guilty, will be dealt with drastically.

Subject: Requisitioned or Commandeered  
Equipment and Supplies  
To: : All Sector & Sub-Sector Commanders

1. In certain instances, some officers and unit commanders have been found out to have a wrong notion on equipment and supplies requisitioned in the name of the Army and for Army use. They believe that whatever they signed for is only for their unit or for their individual convenience. This is wrong and against Army Regulations.

2. It should be understood that anything requisitioned in the name of the Army is strictly for Army use. This does not infer that if an authorized officer requisitions equipments or supplies these are not for his unit alone. Any surplus or any article needed by other units could be shifted from one unit to the other.
