A Birthday Party I attended

Last month it was the birthday of ^{F.P.} ^{C.P.} ~~another~~ ^{friend} ^{of} ^{mine}. (I think) everybody (has) attended (a birthday) party was held in the college. On that day there were many games played in playground. All students were working for these games. The last game to be played was indoor baseball. But it was not successful because the rain came. So we went home. In the afternoon we came go back in school to ^{participate} the games. But it's still raining. (So) the dance was held only inside the college. Although it was raining but we have some visitors. (So) we try our best to make the visitor happy after the program - was over I went home (very) happy.
