(Div. Memo No. 30, s. 1932)

8. The garden day cooking exhibits should be of a better balanced diet with plenty of green leafy vegetables.
9. The pupils should not be made to drill and practise on what they already know well enough for their age and grade.
10. The use of good color harmony should be emphasized whenever occasion calls for it.
11. The needlework and cooking classes should stress quality rather than quantity.
12. The finished garments should not be kept for long in the aparador, but they should be worn by the owners after they are scored and graded by the girls.
13. The teacher should be encouraged to give more attention to the everyday things of life.
14. The fundamental laws of learning should not be omitted in the operation of home-economics classes.
15. The home-economics teacher should share full benefit in the teachers' meetings.
16. The home-economics teacher should be kept in touch with the trends in the best teaching and in the educational world. She should read what educators say about the socialized recitation, the unit method, the art of questioning, supervised study, the making of assignments, the making and use of lesson plans, the visual aids, the use and abuse of projects, the use of preview and review, the use of objective tests of various types and how to interpret and make the best use of their results, character education, the value of concomitant learnings, new studies in education, and the like.
17. The name "Home Economics" should be used properly.
18. The clinic periods should be considered as a part of the teaching load.

HEALTH EDUCATION

1. Classrooms should always be kept clean and neat. They should be free from dust, cob webs, and marks on the walls. The teacher's table and locker should be kept very clean, neat and orderly all the time.
2. The pupils should be seated on desks suitable to their height. Each pupil should be made responsible for the cleanliness of his desk. Dirty desks should be scrubbed with sandpaper leaves.
3. Each entrance to the building should be provided with either a doormat or foot scraper and pupils should be taught to use it before entering the building.
4. The necessity for having drinking water all the

MEMORANDUM
No. 24, s. 1931

ASSIGNMENT CARDS
1931 DIVISION INSTITUTE

To Supervising Teachers and Principals:

Enclosed are assignment cards for the 1931 Division Normal Institute at Tanjay. These cards should be filled in by the supervising teachers and principals in accordance with the instructions contained thereon. They will be issued to the teachers on July 11, 1931 upon payment of a One Peso matriculation fee.

In previous institutes it was impossible to organize the classes on the first day because of the many changes which had to be made in the assignments of the teachers. This year after the assignment cards have been approved by the Principal of the Institute no changes in the assignment to courses will be made without written permission to do so from the Division Superintendent. It is suggested, therefore, that supervising teachers and principals exercise the greatest care both in selecting teachers to attend this institute and in selecting the courses to be taken by the teachers. The recommendations of the supervising teachers should be final as far as both they and the teachers are concerned.

Arthur C. Williams
