 - (1) Prisoner Pedro Manaba already indorsed to the Regimental Headquarters for disposition.
 - (2) Prisoner Simplicio Gargoles was, on June 10, '44, released for lack of evidence and proofs to support the suspicion against him.
8. STRAGGLERS:
 - (1) Per par. 1 SO 23, cs, CPW, dated 23 May 44, the following stragglers as in previous reports have been absorbed into the organization and assigned effective the date they reported for active duty to the units specified opposite their names:

- Sgt. Samuel Banogon, assigned with Hq & Hq Btry 1Bn
- Pvt. Esteban Macasaol, assigned with 155 Btry
- Pvt. Florentino Fabillar, do
- Pvt. Benito Silvano, do

(2) No additional and changes in struggles, except for the above.

9. MORALE: A. MORALE IN THE AREA:

Morale has been quite high due to very inspiring news about recent progresses of the American and Allied troops in all fronts. Then the reports that the Japanese are contemplating to leave this place for an unknown destination, most probably to places where their forces need reinforcements, has added to the optimistic views of the soldiers.

10. CIVILIAN POPULATION:

There is a feud apparently going underway between the civil and army officials. The immediate cause is misunderstanding of each other's policies. A few civilian elements, those that especially have the influence of some civil officials, the deputy governor most particularly, have developed an indifferent attitude towards the army which is tantamount to their being non-cooperative with the military government. Some units, through the initiative of the battery commanders and some officers, are making efforts to erase this "complex" from the heads of the civilians by a "show of power". Non-cooperative civilians were warned that they will be inducted into the army for a few weeks were they found still unhelpful.

as a whole is incapacitated to march because of its empty stomach. The efficiency of the "parental" supply system has partly accrued to us frequent periods of trying, and were it not for the efforts of some groups who go foraging for food, a great part of our number would have dropped down in bed, surfeited with a good amount of gas and water.

On the other hand, the frequent visits of some authoritative personnel from higher HQ are, however, timely strings that reinforces the over-loaded band. After a showering of bad morale, the boys are again spurred to heights after getting enlightenments. This is manifested at the "processing" by a set from the NAVEB, in the willingness of a majority of the boys to continue in the service, in spite of some minor physical obstacles that may mar their going into rigid military duty.

10. CIVILIAN POPULATION: We are entirely off of "civil affairs".
