BUREAU OF EDUCATION
DIVISION OF CEBU
District of Moalboal

Alcantara, August 6, 1940

To all Principals:

In order that our school clinics will look neat and clean, we have to pay particular attention to arrangement of equipment and medicine. To carry this out, I wish you to refer to page 63 of First Aid and Remedial Work which every first aid teacher should know and follow.

Hereto attached are sketches for foot stool for the clinic and cover of the basin for the clinic. These should be made without delay by the shop teacher or by a hired carpenter.

If your clinic does not have the following, please prepare your requisition as early as possible:

1. Slop jars, porcelain
2. Kidney basin
3. Basin, 12 inches in diameter
4. Forceps
5. Scissors, bandage
6. Medicine dropper
7. Medicine bottle, narrow neck
8. Hand towels
9. Medicine cabinets, standard
10. Iron chairs at P1.50 two for every clinic

In order that health work will be up-to-date, I expect you to act promptly. You are also expected to be ready with your incinerators for use. Please see also that the sample book planning is followed by all teachers.

The Municipal Treasurer

Dealers on:
Radios, Radio Parts
and Accessories and
Allied Electrical Supplies, etc.,

Dear sir:

This is to acknowledge the receipt of your Radio Model 135-B S.N. #019662 complete with Batteries thru your clerk Mr. Simplicio Babiera.

I wish to inform you that it must be thoroughly tested before delivering it back to you. It is our policy to give our patrons satisfactory service. Therefore it is impossible for me to have the set taken by your clerk today. To insure satisfactory service, I'll deliver it myself as soon as it is ok'd in our shop. For it might become out-of-order on its way to your place.

In this connection please be informed also that you need to buy new 45 volts B Batteries - 3 in all as the present batteries are very weak, already to warrant satisfactory reception. Please hasten this as this is very badly needed by your Radio.

Yours truly,
S. J. Morales.

The deputies from No. 2 to 12 above, especially, Deputies Aballe and Getubig should work hard to raise their ranks as there is still room at the top.

The deputies listed below have, by sheer effective work, raised their ranks, for which reason they deserve our commendation and congratulation. It is hoped that they continue moving upward to the goal of 100% collection of the delinquent real property taxes in their respective station-municipalities.

Eye-movement drill, No. 3 (phrases)

The girl ran after her brother
into the old house. Here they
found their mother who was making
a cake for them. They waited
until the cake was all done
and had had time to cool
a little. Soon it was ready
to eat. Their mother gave each
a piece of cake and a
big glass of milk. After they
had eaten this cake they ran
out into the garden. There they
played for an hour under the
apple trees. They started to build
a little play house to show
their friends. For over an hour
they worked. Then it was so
dark that they could not work
any longer until the next day.

BUREAU OF EDUCATION
Division of Cebu

Cebu, December 6, 1937

The Supervising Teacher,
_____, Cebu

Dear Sir:

Under separate cover a supply of N.R.B. Form No. 4 is being sent to you. It is requested that you accomplish this form in triplicate for each of the school buildings which were damaged by the typhoon which occurred on November 17, 1937. The data called for in the aforesaid form should be reasonably accurate. Grossly exaggerated estimates should be avoided.

The report on N.R.B. Form No. 4 should be submitted to this Office at the earliest possible date in order that this province may be able to get its share of the typhoon relief fund before it is all allotted to other divisions.

If the estimated cost of the damage done to any of the school buildings in any of the municipalities in your district exceeds ₱2,500, you should report to this Office for a conference at the time you submit the report. In case the damage done to the school buildings in any municipality in your district is sufficient to make it necessary for you to come to this Office for a conference regarding the matter, you should wire me at least two days ahead of time in order that I may make arrangements to be in the Office to meet you.

Very respectfully,

Charles V. Cline

BUREAU OF EDUCATION
Division of Cebu

Cebu, December 6, 1937.

The Supervising Teacher
Cebu

Dear Sir:

Last week I sent you copies of the appropriation letters for the new extension classes in the various municipalities in your district. The amount set aside for the salaries of teachers is just enough to pay their salaries up to the beginning of the Christmas vacation.

It will be noted that the amount set aside for equipment is greater than the amount specified in the letter of the Director of Education, dated June 19, 1937. In other words, we are getting ₱196.90 instead of ₱163.25 to purchase equipment. Inasmuch as you have based your estimates for equipment upon the data in the letter of the Director of Education, dated June 19, 1937, you will have a considerable unexpended balance for equipment. Since it is necessary to spend this money before December 31, 1937 in order to avoid losing it through reversion at that time, it is requested that you take immediate steps to place a supplementary requisition for equipment to obligate the full amount at the earliest possible date.

Very respectfully,

Charles V. Cline

OFFICE OF TROOPS

(Organized in Cebu)

Abelardo P. ...

BUREAU OF EDUCATION
Division of Cebu

Cebu, Oct. 11, 1937

The Supervising Teacher, Cebu

Dear Sir:

It has been noted that certain supervising teachers are ordering a large number of school desks of size A. This Office doubts the advisability of ordering many school desks of the smallest size because many of the children in the newly organized First Grade classes are over-age. Moreover, these children will be in the Second Grade next year, and will probably have to use the same school desks. In view of the foregoing facts, it is requested that supervising teachers use extreme caution in ordering school desks so that the desks will be of the proper sizes for use in future years.

I do not mean to suggest that no desks of size A should be ordered, but I am of the opinion that it is not advisable to order a very large number of the smallest size for the reasons mentioned in the foregoing paragraph.

Very respectfully,

Charles V. Cline
